Aid Pledged By Thomas In Trimming Supply Bill

Senate Committee Head Moved by D. C. Tax Uncertainty.

Joint Conference Is Set for Today

Two Chambers Will Try to End Difference of $1,500,000.

By James D. Secrest.

Sharp curtailment of District expenditures for the next fiscal year will be necessary because of the uncertainty of additional revenue, it appeared last night on the eve of the first Senate-House conference on the District supply bill.

Senator Thomas, chairman of the Senate subcommittee on District appropriations, made the unusual statement that he was prepared to yield to the House on all money items that will not impair the operation of the District government.

"I want to do all that I can to relieve the extra tax burden on the people of Washington," he explained.

Senator Thomas intimated that the tardiness of the House in sending along the tax bill to the Senate was responsible for his decision. He pointed out that it would be impossible for the conferees to know how much new revenue could be expected or in what shape the tax bill finally will be enacted into law.

Senate Added $1,500,000.

The Senate raised the House appropriations by about $1,500,000 to a total of $46,600,000. By the same action it increased the District deficit from $6,100,000 to more than $7,500,000.

The change in the attitude of Senator Thomas gave renewed hope to civic advocates of elimination of the 20-cent increase in the realty tax voted by the House.

While the District Commissioners had previously decided to stand pat on the House tax program, except for the chain store levy, the reduction of the anticipated deficit may enable them at least to reduce the realty tax increase by half.

As revised estimates of District officials place the expected revenue from the business privilege tax at $5,000,000, the tax bill may well raise $6,000,00 or more without any rise in the realty rate.

The inheritance tax will produce $300,000 or more, District officials estimate, and the insurance rate hike will raise $200,00. In addition, the proposed strengthening of the intangible personal property tax law will add from $500,000 to $1,000,000.

To Revive Aid Bill.

Additional revenue, though restricted to the highway fund, was foreseen yesterday after Chairman Cartwright, of the House Roads Committee, conferred with Capt. H. C. Whitehurst, director of highways.

Cartwright said that he will call up the Senate bill to entitle the District government to Federal aid under the terms of the Cartwright-Hayden act. This bill was tabled previously by the committee.

He stated, however, that he will not ask his committee to act until after the Senate has acted on the District tax bill and has retained the $1,5000,000 motor vehicle weight tax revenue in the highway fund.

If this bill passes the House, the District will stand to collect about $700,000 in highway funds from the Bureau of Public Roads in the fiscal year 1939.

May Add Loan Power.

Because of the uncertainty as to when the tax bill may finally become a law, it is believed the Senate and House conferees today will make provision in the District supply bill for the District to obtain advances from the Treasury Department.

This authority, which was held by the Commissioners for many years prior to 1927, was carried in the tax bill as reported to the House, but was stricken out on a point of order.

As tax collections will be slow even after the measure is passed, District officials are anxious to have the authority restored in the appropriation bill so as to avert a possible fiscal crisis early in the year beginning July 1.

Contrary to the traditional dog fight between Senate and House conferees on the District supply bill, today's parley is expected to be short and amicable.

It is probable that only the one meeting will be necessary for the conferees to reach an agreement on the terms of the appropriation bill.

Chautemps Rallies New Government for Last Ditch Defense of Menaced Franc.

By Felix Morley.
No. 9 in a Series.
Special Cable to The Post.
Copyright, 1937, The Washington Post.

Paris, June 23.—Confronted by almost insurmountable financial problems, Premier Camille Chautemps today rallied his newly established government for a last-ditch defense of the imperiled franc.

A temporary truce to political bitterness has been reached while Ambassador Georges Bonnet, urgently recalled from Washington by telephone, races across the ocean to assume the key position of minister of finance. Every thoughtful Frenchman hopes this truce may develop into a real political armistice and that the government will be sustained when its declaration of policy is given in the Chamber of Deputies Tuesday.

The French financial situation is desperate. The emergency is a national one and far too real to encourage any political or social acrimony which might delay remedial action that must be taken.

That fact is fully realized among a well-informed minority in Paris. But the country at large does not yet realize the actual state of affairs. The left believes the conservatives are out to destroy former Premier Blum's comprehensive program of social reform.

The right maintains the radicals are endeavoring to undermine France's financial stability as the first step in the direction of a thoroughgoing revolution. If these attitudes remain unadjusted and unmodified, disaster is certain to overtake the left and right together.

With some research, I obtained today facts which make this conclusion inevitable.

The French public debt today, wholly excluding some ten billions of dollars owed the United States and Great Britain on war debt account, is nearly $25,000,00,000 at the present rate of exchange and is rising rapidly. The deficit now piling up for the current fiscal year, the calendar year 1937, is conserva-

Reorganization Bill, Revamped, Offered Senate

Introduced by Robinson; Move Made in House to Split Measure.

By Robert C. Albright.

A revamped and modified reorganization bill, still following the skeletal outlines of the President's original recommendations, yesterday was introduced in the Senate by Majority Leader Joseph T. Robinson.

Almost immediately, Chairman John J. Cochran, of the House Reorganization Committee, announced appointment of four sub-committees to divide the House version of the bill into four separate measures.

Action this session was the stated objective of both Robinson and Cochran. Robinson plans consideration of the program as a whole, with further scrutiny by Government officials and public hearings. Cochran plans action on the bill in sections.

First Formal Bill.

The Robinson measure is the first formal bill print of the President's reorganization plans, although a tentative draft had been submitted by Louis Brownlow, chairman of the President's committee on administrative management.

It provides for a single civil service administrator, a covering in of all nonpolicy making employes into civil service, extension of the classification act, creation of a new department of welfare, and wide powers for the president to reorganize, transfer, merge and abolish Government agencies.

As modified by Robinson, the

Both Parkers Found Guilty Of Kidnap Plot

Leniency Urged; Charged With Forcing Lindbergh Confession.

By the Associated Press.

Newark, N. J., June 23.—Ellis H. Parker and his son were convicted by a Federal court jury tonight of conspiracy in the abduction of Paul H. Wendel with a recommendation for leniency.

The senior Parker, 65, and veteran chief of Burlington County detectives, and his 26-year-old son, Ellis, jr., were charged under the so-called Lindbergh law with conspiring to abduct Wendel, a former Trenton lawyer, and obtain from him by force a confession to the Lindbergh kidnaping.

The confession, produced almost on the eve of Bruno Richard Hauptmann's execution, delayed the latter for 72 hours, but was repudiated and discredited by authorities.

The sentence is discretionary with the judge. Although the maximum under the law is the death penalty, Judge Clark in his charge had ruled out that possibility.

Tax Dodgers' Names Again Are Withheld

Disclosure of 17 Due Today; DeMille Called Typical Evader.

J.P. Morgan Involved in Testimony; Audience Groans at Delay.

By Sidney Olson.

Episode No. 4 of the Government's newest serial production, "Tax Avoiders and Tax Evaders," ended on a note of high suspense yesterday when a Treasury official's testimony was halted just as he opened his mouth to pronounce the keenly awaited names of 17 wealthy citizens who have found loopholes in the tax laws.

Like all exciting serials, the climax had been saved for the last few minutes. Internal Revenue Bureau Commissioner Guy T. Helvering, square-built, ruddy-faced, white-haired, had begun to read a fat 27-page statement on methods of avoiding taxes through the use of personal holding companies.

Disclosure Today.

The names of the citizens had been carefully left blank in the statement. Just as Helvering reached the top of page 12, where the first blanks occurred, with 100 spectators and another 100 reporters perched on the edges of their chairs, Senator Pat Harrison, vice chairman of the joint Congressional committee making the investigation, held up his hand, saying:

"I see that it's nearly noon. Our presence is required in the Senate and the House. I suggest we stop at this point, before the names are mentioned."

The room resounded with a collective groan, but the suggestion was adopted and the big moment saved for today.

The names of Cecil B. DeMille, the motion picture producer, who specializes in bathtub scenes and mammoth spectacles, and J. P. Morgan had been brought incidentally into the testimony.

Helvering cited deMille as a typical example of a man who has incorporated himself. DeMille's earning power, Helvering said, was almost the sole corporate asset of the company.

He added: "DeMille, the individual, then went to work for deMille, the corporation, at a salary far less than he knew he could command as a director. The corporation then sold deMille's services to producing companies."

Morgan's Words Cited.

Helvering reminded the committee the accumulated surplus was held by the Government in a court action to be "unreasonable, a purposeful attempt to evade surtaxes. DeMille answered that his corporation was saving up money to go into the production of pictures at a later date, which was a proper accumulation of surplus. The court sustained deMille."

Morgan's name was mentioned in Helvering's statement only as the author of the remark, "If the Government doesn't know enough to collect its taxes, a man is a fool to pay them." Helvering's statement pointed out: "This attitude is fairly general."

The total net income of the 17 holding companies whose heads Helvering will name today was $4,862,824.87.

Three out of the 17 paid a surtax, totaling $25,905.28. The entire group

Bill Is Reported Favorably to Cut Number of Taxis

The House District Committee yesterday reported favorably a bill to empower the Public Utilities Commission to restrict the number of taxicabs by means of a gradual process of withholding new licenses.

Holding its first meeting under the chairmanship of Representative Palmisano (Democrat), of Maryland, the committee moved to amend the measure by prohibiting the commission from renewing the licenses of any cab operators who are employed full time in some additional occupation.

Complaints have been made to the committee that Federal employes and other job holders drive cabs during their leisure time.

While the bill is scheduled to be called up in the House next Monday on the District day calendar, vigorous opposition is expected because of the House's previous stands against any move to increase the taxicab fare in the District.

Warren General Strike Called; Troops Scatter C. I. O. Crowd; 'Insurrection' Warning Issued

Cummings Orders Mail Prosecutions; Steel Riot Hearing Set

Nation in Suspense, Sen. Lewis Asserts

Plea for 'Status Quo' Renewed; Girdler to Testify Today.

By William V. Nessly.

As a warning of "insurrection" was uttered on the Senate floor yesterday, the bitter turbulence of the steel strike resounded through other sections of the capital and brought a swift-moving series of governmental activities seeking to limit the spread of disorder.

The developments included:

Attorney General Cummings ordering prosecution of strike pickets who are accused of interference with mail delivery in two Ohio cities and declared mail held by the Postoffice Department that is "fit for delivery" must be delivered.

The Civil Liberties Committee of the Senate announced hearings will be held next Wednesday into the Memorial Day battle at Chicago, when ten persons were killed in a strike riot.

Insurrection Warning.

Secretary of Labor Perkins insisted the "status quo" as to steel plant operations be maintained until an "adjustment" is reached, holding that keeping closed the plants already shut down will spur both sides to an agreement.

Senator James Hamilton Lewis (Democrat), of Illinois, issuing the warning of "insurrection," said "there is not a State in the Union which is not in a state of riotous suspense."

Chairman McKellar (Democrat), Tennessee, of the Senate Postoffice Committee, told of plans to turn over that committee's inquiry into the strike situation to the La Follette Civil Liberties Group.

Tom Girdler, chairman of Republic Steel Corporation, told the McKellar committee he will appear today to testify on his charges of mail interference and to be questioned on the strike situation.

The La Follette committee announced it would call Chicago Police Commissioner James P. Allman, Capt. John Pendergast, Capt. Thomas J. Kilroy and Capt. James P. Mooney to testify first at the inquiry into the bloody Chicago clash. Later several union members and officials and several eye-witnesses of the battle will be placed on the stand. In addition, the motion picture film of the disorder, suppressed by police, but subpenaed by the committee and later shown privately on Capitol Hill, will be run off publicly.

Evidence Gathered.

The committee has had investigators in the Chicago area for some days gathering evidence and names of witnesses.

Cummings announced at a press conference that orders had gone out for prosecution of three pickets in Warren, Ohio, and three in Youngstown, Ohio, on charges of interference with delivery of mail to steel plants in those cities. He declared "it doesn't make the slightest difference to me who they are," in replying affirmatively to a question whether the men accused were pickets.

The action came in the midst of the conflict over whether the Postoffice Department shall accept and deliver mailed packages of food for Republic Steel workers who have refused to strike and are being maintained inside the plants while continuing at work. Republic has filed mandamus action here against Farley to compel delivery of the packages.

Farley on Tuesday filed his reply. Assistant Postmaster General W. W. Howes has told the McKellar committee that "irregular" mail had not been accepted because to attempt to deliver it would endanger the lives of postal employes.

McKellar voiced approval of

Mattern Prepares For Nonstop Hop Via Pole to Russia

Oakland, Calif., June 23 (AP).—James Mattern, noted flier, announced plans today for a nonstop refueling flight from here to Moscow over the route just flown by three Soviet airmen.

A new $100,000 tri-motor monoplane has been completed at Burbank, Calif., for the hazardous flight, Mattern disclosed after luncheon with the Soviet fliers and Ambassador Alexander Troyanovsky.

Because the plane has a cruising range of only 5,000 miles, it would be necessary to refuel while flying, probably over Fairbanks, Alaska, Mattern explained.

The plane has a robot pilot and Mattern said he had not decided whether to take a navigator on the 6,000-mile journey.

"I will make the flight to demonstrate the United States development of aircraft, and in appreciation of the Soviet fliers who saved me in 1933 when I crashed in Siberia," Mattern said.

Reich Warship Sent to Spain As Patrol Ends

Germany Halts Joint Action, Takes Matters Into Own Hands.

The Situation Abroad

Germany and Italy, indignant at refusal of England and France to approve a naval demonstration against the Spanish government in protest against alleged attacks on Nazi and Italian ships, withdrew from the nonintervention patrol around Spain.

The German government announced it had decided to "take into its own hands" the protection of its interests and ships "against Bolshevist firebrands in Valencia" and concentrated naval strength off the Spanish coast.

Victorious Spanish insurgent troops continued their drive on Santander, last important city held by the Basques.

More Russian officials were removed from office in a new discovery of alleged antigovernment activities.

Six thousand Belgian veterans battled soldiers and police in Brussels as a climax to a demonstration against the government's amnesty bill.

Warship Sent to Spain

By the Associated Press.

Berlin, June 23.—Reichsfuehrer Adolf Hitler demonstrated his determination tonight to maintain German naval forces in Spanish waters by ordering the vest-pocket battleship Graf Spee to proceed immediately to Spain.

The warship sailed shortly after the German cabinet issued a communique declaring the government had decided "to take into its own hands" the protection of its interests and ships "against Bolshevist firebrands in Valencia."

Germany, with Italy, recalled warships today from the international patrol to keep arms and men from reaching Spain after Great Britain and France refused to agree to a naval display off the coast of Valencia to warn the Spanish government against attacks on patrol ships.

The communique expressed the indignation of Nazi Germany over the inability or unwillingness of France and Britain to understand German feelings over the alleged Spanish government submarine at-

Harlan Slaying Thought Sequel To U.S. Inquiry

Former Deputy 'Taken for Ride,' Says Judge; Jails Two.

By the Associated Press.

Harlan, Ky., June 23.—County Judge Morris Saylor said tonight a preliminary investigation of the "ride" killing of former Deputy Sheriff Wash Irvin led him to believe it was a sequel to the Senate Civil Liberties Committee's recent investigation at Washington of Harlan County's deputy sheriff system.

Irvin, 33, who was under protection of a Civil Liberties Committee subpena, was found shot to death on Pine Mountain, 15 miles northeast of here, early today.

Two former deputy sheriffs were held tonight on murder warrants issued by Judge Saylor. Perry G. Noe, of Wallins Creek, was apprehended at his home late today. Allen Bowlin was jailed earlier. Irvin, Bowlin and George Lee resigned yesterday as deputies following the dismissal of Lee Fleenor as a deputy.

In dismissing Fleenor the judge said: "It's time we cleaned up Harlan County and put ourselves in order."

Sally Smith, 19, of Knoxville, Tenn., also was taken into custody. Judge Saylor said the girl admitted seeing Irvin with Bowlin and Noe here last night, and quoted Irvin as saying he would see her later in the night and that he was going up on the hill to listen to an automobile radio.

"Taken for Ride."

Judge Salor declared Irvin "was taken for a ride and killed." Lee found Irvin's body slumped over the steering wheel of an automobile on a mountain road. Irvin had been shot three times.

Irvin and Fleenor were among the deputies mentioned in testimony before the Civil Liberties Committee in which the United Mine Workers of America charged that "gun thugs" were employed by Harlan County coal operators to intimidate union organizers.

Chairman La Follette (Progressive), Wisconsin, said at Washington the Civil Liberties Committee would inquire into the killing of Irvin to determine whether a formal investigation was warranted. La Follette pointed out that Irvin, like other Senate witnesses from Harlan County, was kept under subpena after the inquiry into Har-

Union Would 'Paralyze' County as Protest to Picketing Order.

Guards' Bayonets Save Cameraman

Plants Defy Threat of Walkout; Purnell and Lewis Adamant.

On the Labor Front

The C. I. O. called a general labor holiday for today at Warren, Ohio, in protest against a court injunction limiting picketing at a Republic Steel plant. Trumbull County, with 120,000 population, will be "paralyzed," union leaders said.

Senator Lewis, Illinois Democrat, told the Senate "the Nation is in great peril of insurrection" as a result of prolonged labor strife.

Attorney General Cummings ordered the arrest of six strike pickets at Youngstown and Warren, Ohio, on a charge of interfering with United States mails in allegedly preventing mailed packages from being taken into a strike-bound steel plant.

Cambridge, Md., officials discussed the need for troops to control 2,000 idle in the Phillips Packing Co. strike.

'Holiday' Called

By the Associated Press.

Warren, Ohio, June 23.—National Guardsmen with fixed bayonets dispersed a crowd of C. I. O. steel strikers tonight as tension heightened along the mill valley front amid C. I. O. forecasts of a general strike in Trumbull County.

C. I. O. leaders claimed thousands of workers were joining in a general sympathy strike—in protest against a picket-restraining court order—which they said would "paralyze" the 120,000 population of Trumbull County tomorrow.

By contrast, officials of the Packard Electric and Warren Tool companies, two of several concerns at which C. I. O. leaders claimed employes had voted to strike, said they planned to carry on normal operations tomorrow.

The union protest was aimed also against the movement of nonstrikers in and out of the Republic Steel plant under protection of National Guard rifles and machine guns.

Crowd Menaces Photographer.

The guardsmen were ordered into the Mahoning Valley by Gov. Martin L. Davey yesterday.

With rifles lowered, they came running toward a crowd of several hundred C. I. O. strikers who had surrounded a Chicago newspaper photographer, seized his camera and smashed it.

The crowd retreated, booing and shouting, to a point about 100 yards across the street from the Republic Steel plant. The troopers then resumed their positions in front of the plant.

Coupled with the C. I. O.-announced general strike, a statement by John McKeown, C. I. O. organizer, that a march by 50,000 union men from other cities might be called to protest alleged discrimination against steel strikers, stirred apprehension among authorities tonight.

At the same time, in Cleveland, Frank Purnell, president of Youngstown Sheet & Tube, admitted that despite the renewed daylong efforts of President Roosevelt's Federal mediation board to effect a solution, the situation in the 28-day-old steel strike remained "unchanged."

Cost $12,000,000.

The widespread labor controversy already has cost an estimated $12,000,000 and 12 lives.

The prime matter in dispute—the question of signed labor contracts—remained a stone wall blocking the path of the Federal peace-seekers.

Steel executives stood unflinchingly in their refusal to sign on the dotted line with John L. Lewis' C. I. O., and there was no indication the C. I. O. generalissimo would yield an inch.

The seven-State strike front, where more than 100,000 men have been idle in the "showdown" clash between Lewis and the four independent steel companies—Republic, Bethlehem, Inland Steel and Youngstown Sheet & Tube—developed a new "hot spot" at Warren today.

Smoldering for three days—since

Mexican Railways Transferred Fully To Government

Mexico City, June 23 (AP).—President Lazaro Cardenas tonight announced the government will expropriate the national railways of Mexico.

The railways, said a presidential decree to be published tomorrow in the official gazette, will be administered by a new federal department. The new department will be empowered to take necessary measures to reorganize the railways and put the system on a profitable basis.

The government will reimburse United States and other foreign bondholders after a valuation of the expropriated properties. The railways already have been under operation by the government, which now holds more than half of the capital stock.

Largest Skull Ever Recorded Is Discovered By Archeologist in Stafford County, Virginia

A primitive Algonquin Indian, who hunted and fished along the Potomac 300 years ago and who may have been a friend of the Princess Pocahontas, probably was the brainiest man the world has ever seen.

The skull of this man, which far exceeds in brain capacity any skull previously recorded, was found in Stafford County, Va., by Presiding Judge W. J. Graham, of the United States Court of Customs and Patent Appeals, a prominent amateur archeologist. He announced his discovery yesterday.

Judge Graham found the skull about two weeks ago. It was in several pieces and he sent it, as he has his other archeological finds, to the Smithsonian Institution. There it was assembled and officials were astounded to find that it exceeds in brain capacity any skull on record.

Judge Graham said when he saw the skull after its mounting he was astounded. "It looked almost as big as a watermelon," he said. Its owner would have a hat size well over eight, he estimated.

Examination of the skull shows that it was healthy and not an abnormality, Judge Graham said. The skeleton of the mental giant was found, but it has not yet been assembled and measured, so the scientists do not know whether the bearer of the skull was also a man of tremendous stature.

Of all the 16,000 skulls of all races of people at the Smithsonian only one approaches the capacity of Judge Graham's discovery. That is the skull of a prehistoric American found on a lonely Aleutian Island by Dr. Ales Hrdlicka. It has a brain capacity of 2,000 cubic centimeters.

The skull discovered by Judge Graham has a capacity of 2,200 cubic centimeters. The man who possessed it would be a mental giant when compared with most persons today, who have only 600 to 800 cubic centimeters of brain space.

Although intelligence is said to be in part dependent upon the amount of blood reaching the brain, large brain size is also needed for great mental powers, scientists say. They point to two great men who are among those

House Given Rule to Consider Repeal of 'Marriage Clause'

Special rules to assure early House consideration of bills to repeal the "marriage clause" of the economy act and authorize construction of a new $4,850,000 naval hospital were reported yesterday by the House Rules Committee.

Repeal of section 213 of the 1932 economy act has been urged upon Congress for the last two years. Its approval by the House now appears certain as the Rules Committee took a poll before granting the special rule.

Sponsored by Representative Celler (Democrat), New York, the repeal measure would do away with the law that requires executive departments to dismiss husband or wife first, when both are employed by the Federal Government, if a reduction in personnel is necessary. It proposes a substitute, however, that would curtail nepotism in the Federal service. The amendment prohibits the employment of a second member of a family if the combined salaries of the employe and the person to be employed would exceed $4,000 a year.

Repeal of section 213 will not restore the jobs Federal workers lost during the depression, when the law was more actively enforced than recently, but it will prevent future dismissals on the same basis.

Women's organizations have taken the lead in demanding that the law be stricken on the ground that it is unfair to married women who are otherwise as well or better qualified than employes who are retained.

Maverick Bloc Votes to Push Social Reform

40 Willing to Remain in Session Until January if Necessary.

President Roosevelt's week-end series of rallies with Congressional Democrats on Chesapeake's Jefferson Islands was billed as "purely social" yesterday, but a group of House Progressive Democrats said they were "going down to talk cold turkey."

Representative Maury Maverick, of Texas, a leader of the House Democratic Progressive bloc, met with about 40 House members yesterday to pledge to the President they will stay in session until January if necessary to enact progressive legislation.

To Inform President.

They will carry this message to the President at the first of three days of Democratic festivities beginning tomorrow. House and Senate Democrats, selected at random, have been divided into thirds, and each third assigned a day.

Maverick said the group would insist on holding Congress in session until both Houses have had a chance to vote on the court bill, the new wages-and-hours legislation and a farm-tenancy measure.

"This conference cannot adjourn its obligation," a statement by a steering committee of 15 said.

"We are willing to stay right here in Washington until January 3, heat or no heat, in order to get these measures passed," Maverick added. "The time has come when we must purge the Democratic Party of all those who do not stand for Democratic principles."

Rayburn to Spend 3 Days.

House Majority Leader Sam Rayburn has been invited by the Jefferson Islands Club, host to the Democrats, to pass all three days on the islands, and Speaker Bankhead may spend two. Although festivities will be largely of a social nature, anyone wanting to do any serious talking with the President may have to make their appointments through these leaders.

In a spirit of "good, clean fun," Representative Paul W. Shafer (Republican), of Michigan, in the House yesterday compared the Democratic rally with the "Diet of Worms" which met in 1495 to draw up a "concordat of perpetual peace" after bitter contention developed among inhabitants of the free city of Worms.

Parents Guarding Son, 7, Following Kidnap Threat

The play range of 7½-year-old Joseph Richard Rosin was limited yesterday to "the area within plain sight" of the residence of his parents, Mr. and Mrs. Abe Rosin, 5115 Conduit road, and of the Rosin store just across the street.

This limitation of activities followed receipt by his father of a mysterious telegram and of a threatening "kidnaping" telephone call.

Both the father and police have dismissed the call and wire as work of a crank, but Rosin is convinced that "any parent would be careful after it happened."

The boy is a student at the Potomac Heights School. He has not been in attendance during the past few days due to a slight attack of laryngitis, his father said.

Trade Unit Assigns Committee Heads

The following committee chairmen for the Washington Board of Trade were announced yesterday by Edward F. Colladay, president:

American ideals, A. J. Driscol; aviation, Clarence A. Miler; bridges, George C. Shinn; charities and corrections, John F. Victory; community affairs, Harry F. Somerville; Greater National Capital Committee, Lloyd B. Wilson; industrial interests, Mark Lansburgh; insurance, Frederick P. H. Siddons; law and legislation, George W. Offutt; membership, Kari E. Jarrel; midwinter dinner, F. George Clendaniel; military and naval affairs, Col. Leroy W. Herron; municipal art, Theodore I. Coe; municipal finance, Edgar Morris; municipal sanitation, James C. Wilkes.

National representation, Theodore W. Noyes; parks and reservations, Capt. Chester Wells; public and private buildings, Arthur B. Heaton; public health, Dr. Arthur C. Christie; public library, B. M. McKelway; public order, Odel S. Smith; public schools, George E. Keneipp; public utilities and transportation, J. J. Esch; river and harbor improvement, John A. Remon; shad bake, Robert W. Davis; streets and avenues, George W. Graham; traffic, Col. Lawrence C. Crawford; universities and private schools, Harry King; water supply, M. K. Wilberding, and sonins, Harry Blake.

Dr. Aydelotte Honored.

Oxford, England, June 23 (AP).—Dr. Frank Aydelotte, president of Swarthmore College, and American secretary to the Rhodes trustees who administer the Rhodes scholarship funds, was given an honorary doctor of civil laws degree at Oxford University today.

Politics and People

Even Liberals, Alarmed by Trend of Labor Strife, Show Tendency to Join 'Tom Girdlers.'

By Franklyn Waltman

A general feeling of foreboding over the ominous nature of the current conflict between labor and industry appears to be spreading over the country. Persons sympathetic in general with the aims of labor are becoming alarmed. Liberal members of Congress have started to make references to anarchy and even chaos and even many veteran labor leaders privately confess to feeling uncomfortable.

WALTMAN.

The citadels of finance and economic power usually express alarm whenever a labor conflict breaks out. They are congenitally critical of whatever labor wants and the methods it uses to get them. They are ever ready to see only virtues on the part of employers and vices on the part of the labor leaders.

But these groups gradually, if the sentiment expressed here means anything, are being joined by people who normally would regard Tom Girdler of the Republic Steel Corporation as an arrogant reactionary conservative and by people who realize that labor always has the short end of the stick and to advance must urge its claims with some passion and force.

But these "decent conservatives who wish to preserve property, but recognize that property must be used in the public interests," as Walter Lippmann has labeled them, are beginning to take the side of the Tom Girdlers. They are beginning to feel that labor is going too far and that President Roosevelt has permitted—if he has not encouraged—a dangerous situation to drift incoherently.

* * *

In the eyes of many of those who have become gravely disturbed, there is an issue involved which far transcends the rights or wrongs of the Girdler-C. I. O. controversy. They are trying to look at the forest instead of the trees, as the President is so fond of urging—and what they see is not pleasant.

Within the year they have witnessed the Secretary of Labor, along with other Federal officials, condoning the seizure of property in sit-down strikes. They have witnessed mobs—frequently comprising but a small minority of the workers concerned, forcing the closure of plants and preventing men who wish to work from attaining a livelihood. They have seen whole communities paralyzed by the edict of labor leaders. And they have seen even the carriers of the United States mails stopped and subjected to search and scrutiny.

And they have wondered what will come next. They are wondering whether an irreparable damage is not being done to American democracy—resting, as it does, on a basis of law and order—when those in high places either ignore lawless actions or encourage them by permitting the use of their names in connection with them or by indulging in ill-conceived remarks.

Above all, they wonder whether the President is not letting loose forces which neither he nor John Lewis can stop without disastrous consequences.

* * *

Even Mr. Roosevelt's staunchest defenders can not claim that he has displayed statesmanship in the present labor situation. Letting things drift is not statesmanship and it is the political crime with which Calvin Coolidge and Herbert Hoover in their days were charged—and rightly so. The country paid the price of their policies of drift and it may do so again.

Had the Supreme Court invalidated the Wagner labor relations act, Mr. Roosevelt now would be enjoying a Roman holiday by placing on that tribunal responsibility for what is happening in Ohio, Pennsylvania, and Michigan. But the blame cannot be placed on that doorstep.

The avowed purpose of the Wagner act was to prevent substantial obstructions to the flow of commerce by promoting collective bargaining as a solution for labor disputes. The sentiment of the country favors such an objective. The Supreme Court has held such an objective to be within the jurisdiction of the Federal Government.

But, surely, it cannot be said that such an objective is being attained. Thus, it must be that the provisions of the act are either inadequate or defective. Obviously, the act, admirable though its purpose is, has shortcomings. It is a one-sided undertaking, placing all the prescribed obligations on the employer—none on labor.

Whenever an employer declines to bargain with representatives of an actual majority of his employes, they may invoke the aid of the labor board and the courts. But neither an employer nor a majority of his workers can invoke that aid when efforts are made by minority groups to bludgeon them into submission.

Nor does the act place any regulation or jurisdiction over labor organizations. Racketeers may obtain control of a labor organization and then, virtually, by force of arms, compel workers to pay them tribute. Why should not the labor relations act require labor organizations to be chartered by the Labor Relations Board, require a public accounting of funds and prescribe certain fundamental standards of conduct for such organizations?

Such provisions in time will come. They may be difficult to work out, but they will be worked out—if the country does not first turn Fascist in its disgust over labor outbreaks. But what has Mr. Roosevelt done to make the law more workable? Nothing. He has been content to let matters drift. Can it be that his indifference is inspired by the fact that some of his most potent political friends stand to gain more as things now stand?

The site where Judge Graham is excavating was once the village of "Patowomeke," largest Indian settlement on the Potomac. This was the way in which the Indian name for both the village and the river was originally spelled by the early explorers.

Capt. John Smith visited the village and described it as a place housing about 1,500 souls.

More than 300 years ago the Princess Pocahontas visited the chief of the village. It was while she was at Patowomeke that Capt. Argyle, an early explorer, kidnaped her, history declares.

Judge Graham has been interested in archeology for many years. He has done explorations in Illinois and at Port Tobacco, Md. He published a book on his findings at the latter place.

Rule Provides Vote in House On Tenant Bill

Jones Measure to Come Up Under Three-Hour Debate Limit.

By Russell Smith

The first House vote on farm tenant legislation during three years of agitation for aid to the "bottom one-third" of the agricultural population was assured yesterday when that chamber's Rules Committee approved a rule for consideration of the modified Jones bill under a three-hour debate limitation.

House leaders said the bill will be called up early next week, probably by Wednesday. Passage by the House of the bill appeared assured.

Adoption by the Rules Committee of the rule coincided with publication of the Agriculture Committee's report on the bill, in which the majority of the committee warned that increased farm income and revision of State and local tax structures will be necessary if a farm tenancy program is to succeed.

Tax Reduction Asked.

"The program here contemplated must be founded upon the principle that farming will be profitable enough to make the objectives of the bill realizable," the committee said, of the first point. Of the second, it said:

"If the (State and local) taxing units will reduce tax rates on small tracts or abolish existing discriminations against the small tract, existing handicaps upon the low-income groups in the farm population will be diminished and a Federal program to improve their status will have a materially greater success."

Presentation of at least two important amendments to the bill was assured, even before the bill is called up. Representative Fred Biermann, (Democrat), of Iowa, in a minority report said he and some of his committee colleagues will seek to provide closer and continuing Federal supervision of tenants put on farms by the Government.

The bill now provides for 3 per cent loans over a 30-year period. There is no assurance the tenant being settled on the land will not sell his farm if its value rises. Biermann and his fellows argue for protection both of the tenants "who never owned a farm" or "who, having owned a farm, have lost it," and of the Government investment.

Merit System Sought.

Six Progressive and Republican members, also in a minority report, announced they will attempt to strike out a provision of the bill which exempts its officers and employes from the civil service laws.

The House bill would establish a Farm Security Administration in the Agriculture Department and appropriate $10,000,000 for 1938, $25,000,000 the following year and $50,000,000 in 1940. A modest start, the committee said, "the experience of every country which has adopted a program" has shown to be wise.

Instead of the $85,000,000 rehabilitation loan provision originally inserted in the bill, the committee now has authorized the secretary to use unexpended balances from Resettlement Administration funds and such relief money as may be allotted.

In place of a four-year, $75,000,000-a-year program of retirement of submarginal land, the bill would appropriate $10,000,000 the coming fiscal year and $20,000,000 the next for that purpose.

Senator John H. Bankhead (Democrat), of Alabama, will await House action rather than attempt to call up his bill, now on the Senate calendar, it was made known yesterday. The Bankhead bill provides for outright purchase of farms by the Government and their resale to tenants, with repayment spread over 60 years.

Earle Demands 4 More Years For Roosevelt

Denies White House Aim; Wheeler Reminded of John Alden.

By the Associated Press.

A declaration by Gov. George H. Earle of Pennsylvania for the re-election of President Roosevelt in 1940 produced a political sensation in the Capital yesterday.

Earle, who called out troops in the steel strike a few days ago, told newsmen he was getting tired of reports his actions were due to a personal desire for the Presidency.

"Between the third term precedent and the welfare of the country," he asked, "can any patriotic citizen hesitate as to what course he will take? I am for Franklin D. Roosevelt for President in 1940, unqualifiedly and finally."

Some members of Congress agreed with Earle's added assertion there are no men in the Democratic or any other party who reach "knee-high in stature" to the President, but others took sharp issue.

Burke Backs Precedent.

Senator Burke (Democrat), Nebraska, a leading opponent of the Roosevelt bill to reorganize the Supreme Court, observed that "many precedents have been broken of late but this one (the precedent established by George Washington against a third term for Presidents) will not be broken."

He declared the President himself had given assurance he would retire after his present second term.

Burke evidently referred to a speech delivered by the President at a "victory dinner" of party leaders last March. Mr. Roosevelt said on that occasion he recently had had a talk with a distinguished member of Congress and had told him:

"My great ambition on January 20, 1941, is to turn over this desk and chair in the White House to my successor, whoever he may be, with the assurance that I am at the same time turning over to him as President a Nation intact, a Nation at peace, a Nation prosperous."

White House Silent.

No comment on Gov. Earle's announcement came from the White House.

The Governor said he never had discussed the matter with the President, and that he spoke without his permission.

Congressional comment included:

Representative Martin, of Massachusetts, the assistant Republican leader in the House: "Republicans should welcome a third-term candidacy, as it would make certain a Republican victory in 1940. As a dangerous precedent, however, I would not like to see it attempted."

Representative Maverick (Democrat), Texas: "There are enough decent, progressive men in our party to get one to run in 1940."

Like John Alden.

Senator Wheeler (Democrat), Montana: "He (Earle) reminds me of John Alden. Why doesn't he speak for himself?"

Representative Eaton (Republican), New Jersey: "Gov. Earle seems to have just discovered what was believed by a majority of the intelligent people of this country, namely, that Mr. Roosevelt had in mind to succeed himself in 1940."

Representative Kennedy (Democrat), New Jersey: "I don't know any individual who should make a better President for a third term than Mr. Roosevelt."

Senator Davis (Republican), Pennsylvania: "A great French scholar once said that language was to conceal thought."

Yale Gets $10,000,000 For Cancer Cause Study

New Haven, Conn., June 23 (AP).—Yale University received today a large fund from anonymous donors to be used for investigation into the causes and origin of cancer.

President James Rowland Angell did not reveal the amount of the gift, but the New Haven Register said it learned reliably the fund was in the neighborhood of $10,000,000.

Investigation Is Begun In Death of D. C. Child

Homicide squad detectives and the coroner's office last night began an investigation into the death of 3-year-old Maurice Parker, of 259 Kentucky avenue southeast, who is believed to have succumbed from an overdose of medicine.

The child, son of Mrs. Louis Parker, died at Children's Hospital Monday. He had been sent to the hospital on advice of a physician who had been called to treat him. An autopsy performed yesterday failed to disclose the cause of the child's death, according to Detective Sergt. Jeremiah Flaherty, and a chemical analysis has been ordered.

Parley Is Held By Van Zeeland And Roosevelt

Belgian Prime Minister an Overnight Guest at White House.

By Franklyn Waltman.

President Roosevelt and Belgian Prime Minister Paul Van Zeeland yesterday and last night engaged in a series of informal conversations devoted to canvassing the current European situation and exploring methods for promoting world economic rehabilitation.

The nature of their conversations was not revealed, except that it was known they would cover the scale of world problems of mutual interest to the people of the United States and western Europe. These would include the preservation of world peace, foreign trade, international monetary stability and corollary subjects.

More of a specific nature of the Roosevelt-Van Zeeland discussions may become known today when the two statesmen part. The Belgian prime minister will hold his first formal press conference at the Belgian Embassy shortly before noon today, while the White House may throw some light on what transpired since Dr. Van Zeeland's arrival.

Yachting Trip.

The series of conversations carried on by the President and Dr. Van Zeeland commenced under the flapping awning of the yacht Potomac as the two world figures informally lounged on the vessel's after deck. Almost as soon as President Roosevelt received Dr. Van Zeeland and Mme. Van Zeeland at the White House yesterday a few minutes before noon, he whisked him to the yacht for a trip down the Potomac River to Mount Vernon. The American and Belgian flags flew from the mast of the Presidential yacht.

The President had luncheon with the Van Zeelands on the trip down the river, which commenced from the Washington Navy Yard. The President did not visit Mount Vernon, but remained working aboard the yacht, while his Belgian guests, with their aides, went ashore to lay a wreath of flowers at the tomb of George Washington.

Dinner Party.

Returning to the yacht, Dr. Van Zeeland continued his conversation with the President. The party arrived back at the White House late in the afternoon and made preparations for a state dinner in honor of the Belgian Prime Minister and Mme. Van Zeeland last night. After this affair, the President and Dr. Van Zeeland had a further discussion in the oval room on the second floor of the White House, which is Mr. Roosevelt's study.

The Van Zeelands were overnight guests at the White House, but this morning will go to the Belgian Embassy to remain until their visit in the city ends on Saturday. Dr. Van Zeland will call on Secretary of State Cordell Hull at the State Department the first thing today.

Hull Absent.

Due to an engagement made several months ago to speak at Yale University, Secretary Hull was not present yesterday among those welcoming the Belgian Prime Minister and his wife. He was represented at Union Station, however, by Mrs. Hull and Undersecretary of State Sumner Welles and the usual group of diplomatic and State Department officials present on such occasions.

Dr. Van Zeeland and his party arrived in the Capital aboard a special train at 11:15 o'clock, coming here from Princeton University, which conferred an honorary doctor of laws degree on him yesterday.

The Princeton ceremonies were the avowed reason for the Prime Minister's visit to this country at this time.

But regardless of whether any immediate development comes out of the meeting between the President and Dr. Van Zeeland, their conversations are regarded as having an important bearing on American foreign policies and perhaps on the future course of this country's trade and monetary plans. Dr. Van Zeeland is one of the most influential figures in Europe at this time.

Welcoming Group.

James Roosevelt, son and secretary of the President, also was in the welcoming party at Union Station. The 43-year-old Belgian Prime Minister, attired in a dark gray suit and gray hat, and Mme Van Zeeland, wearing a white suit and a navy blue felt hat, were escorted through a line of soldiers and sailors presenting arms.

The Belgians were taken directly to the White House, and, as is his custom on the arival of foreign notables, the President, leaning on the arm of Col. Edwin Watson, his military aide, came to the front portico to receive his guests and escort them within the mansion. Both men appeared genuinely glad to meet each other and enthusiastically shook hands. Dr. Van Zeeland is known as the New Dealer of Belgium.

A few minutes later the trip by automobile to the Washington Navy Yard commenced.

U. S. Issues 55 Indictments on GemSmugglers

'Biggest Diamond Racketeers' Trapped, Asserts Federal Prosecutor.

By the Associated Press.

New York, June 23.—Fifty-five persons were accused of conspiracy to defraud the Government today in a series of indictments aimed at what United States Attorney Lamar Hardy called an international ring of diamond smugglers.

In presenting the indictments to Federal Judge John W. Clancy, Prosecutor Hardy declared the Treasury Department "has at last got its foot on the neck of he biggest diamond smuggling racketeers."

Housewives, salesgirls, a school teacher and a French actress were among those accused of helping the conspirators smuggle gems through the New York customs lines by concealing them in their luggage.

The indictments, based on a six-month investigation that led Hardy's assistants to the diamond marts of London, Paris and Brussels, covered a seven-year period during which an estimated $13,0000,000 worth of undeclared gems were brought into New York.

Investigators were put on the trail by the arrest last November of the Viennese-born wife of a New Yorker, Mrs. Pearl Josephine Weinberg, 28, who allegedly stepped off the liner Normandie with $150,000 worth of diamonds concealed in her traveling bag.

Her husband, Isaac Weinberg, 35, was arrested when he met her at the pier.

In addition to the Weinbergs, the defendants named in the indictments included Morris Fishman, of Philadelphia, described as a union organizer for the needlecraft trade, and Marie Bezsmertnaja, a French actress.

Thirty-five of the defendants were identified by Hardy's aides as diamond dealers. The 20 others were described as carriers, some of whom shuttled back and forth across the Atlantic on almost monthly schedules, carrying diamonds and coded orders hidden in traveling bags.

A number of the defendants were listed as fugitives, living in France and Belgium. Hardy said the State Department had begun proceedings designed to bring them to New York for trial.

Chautemps Rallies Government In Defense of Menaced Franc

Continued from Page 1.

tively estimated at $1,750,000,000. Servicing this debt alone consumes close to one half of the government's present revenue.

While these figures are serious enough they do not tell the whole story. Capital estimated at close to $2,000,000,000 has fled France during the last few years, and this flight has continued during recent months. The exchange equalization fund is now exhausted, and all profits accruing to the government from the devaluation of the franc last September have been used up. At the present time the French treasury has not enough funds on hand to meet the loans that come due the present year and the prospects for its ability to do so is far from bright. A great difficulty is now being experienced in placing short-term treasury bills.

On top of all this, production, which in most countries is now back to the 1929 level or higher, stands in France a third lower than before the depression. The output of important industries, such as textiles, automobiles, rubber, paper, is actually declining. The export trades are at a virtual standstill. The prospects of increasing revenue by more drastic taxation is dubious. Despite rising prices, the current receipts from the business-turnover tax are 12 per cent below the estimates.

The political problem is how to meet this grave financial crisis, no longer avertible by further deficit financing, without producing internal disorders.

The first step, but only the first step, was taken by the creation of the Chautemps government. It stands slightly to the right of that headed by Leon Blum and seeks thereby to restore the confidence of the middle class without alienating that of the wage earners. The continuation of Yvon Delbos as foreign minister and the appointment of M. Blum as vice president of the cabinet is universally approved as an indication that their very successful foreign policy will continue.

Confronted by a major crisis, the French have never yet failed. Such effort is essential today. It is quite possible further devaluation of the franc will prove necessary. This operation, in view of the debilitated state of French economy, could only be performed successfully by a government which is neither of the Left nor the Right, but is really one of national union.

Premier Chautemps has established a government which excludes the extremists of either wing as preliminary to the imposition of drastic levies, the carrying out of unavoidable reforms and of economies which are now inevitable. France's internal stability, with all its importance for the peace of Europe, will depend on the spirit of self-sacrifice with which all sections of the nation will respond to these efforts. In the face of Russia's serious internal difficulties and increasing assertiveness of Germany it is easy to see why Premier Chautemps regards the need of this co-operation as paramount.

Sen. Robinson Will Bring Up Court Bill Soon

Majority Leader May Seek Compromise Late Next Week.

President Roosevelt's court bill, carrying the adverse recommendations of the Senate Judiciary Committee, probably will be called up in the Senate late next week, Senate Majority Leader Joseph T. Robinson announced yesterday.

Robinson did not disclose detailed plans, but he has been given a free hand by the President in attempting to negotiate the most satisfactory possible compromise through the Senate.

Opposition leaders immediately reiterated their intention of blocking any vote on a compromise, but said they were capable of defeating the original plan for a six-judge increase if it comes to vote.

Meantime, Chairman Henry F. Ashurst, of the Senate Judiciary Committee, Senate sponsor of the President's court bill, appointed a five-man sub-committee to consider a constitutional amendment increasing the size of the court permanently to 11 members.

The constitutional amendment was proposed by Senator Charles O. Andrews, of Florida. It would direct appointments to the court from each of the ten judicial circuits, and compel retirement at 75. Andrews had planned to offer a similar amendment to the President's court bill, but he said yesterday he will concentrate on his proposed constitutional amendment, and abandon the other effort. He said he will ask for hearings in the next two or three days.

Senator Logan (Democrat), Kentucky, was named chairman of the sub-committee considering the Andrews amendment. Others on the sub-committee are Senators Van Nuys, of Indiana; Hughes, of Delaware (Democrats), and Austin, Vermont, and Borah, Idaho (Republicans). Van Nuys, Austin and Borah all are vigorous opponents of the President's original court bill. Logan and Hughes supported it.

In the past, President Roosevelt has opposed as too slow the constitutional amendment route to court reform, but there was speculation at the Capitol yesterday on whether the Andrews amendment might not tie definitely into the Administration's court plan.

G. F. Baker, Jr., Willed Fortune To Widow, Son

Banker Stressed Great Obligations Facing His Family.

By the Associated Press.

New York, June 23.—George F. Baker, jr., president of the First National Bank, and one of the world's wealthiest men, who died May 30 leaving an estate worth possibly $100,000,000, said in a will filed for probate today that he wanted his two young sons "to realize that they are inheriting not wealth alone, but great obligations and responsibilities."

Eventually George and Granville Baker, not yet of age, may be entrusted with the fortune.

To charity, Baker bequeathed a trust fund of 7,500 shares of the bank's stock, valued currently at $15,000,000, but he specified that none of it should go to propaganda or lobbying agencies and that the principal should be given away if it becomes subject to taxes.

Tax Provision.

His trustees and executors, including his widow, Alexander C. Nagle, the bank and any sons and grandsons who may qualify, were instructed to devote the net income of the charity trust to corporations organized exclusively for religious, charitable, scientific, literary or educational purposes.

In the event the fund becomes taxable, he authorized them to convey any part of it to the Society of the New York Hospital or the Boy Scouts of America, Inc.

Baker, who was 59, died aboard his yacht in Honolulu Harbor, following an emergency operation for peritonitis while in mid-Pacific on a world cruise.

Widow's Income.

His will, dated August 28, 1935, and two codicils bequeath all personal property, except cash, bank accounts and securities, to his widow, Edith Kane Baker, and give her a lifetime income from the residuary estate after creation of the charity trust.

Saying he had made ample provision for his daughters during his lifetime, Baker named them only as contingent beneficiaries of the residuary estate in the event of his sons' dying without issue.

Parsons Search Continues.

Stony Brook, N. Y., June 23 (AP).—Federal agents and State troopers in groups of three searched several miles of the Long Island Sound shore line today for traces of Mrs. Alice McDonell Parsons as the case of her strange disappearance entered its fifteenth day.

Gum Arabic Makes Diamonds Like Nature's, Kansan Reveals

By the Associated Press.

Denver, June 23—A real one-thirtieth carat diamond made from gum arabic, the starch of the tropical arabic plant, a new source which makes bigger diamonds than the sugar with which science had experimented since 179, was shown to the American Association for the Advancement of Science here today.

The stone is as big as one of the chip diamonds that stud wedding rings. It is one of 25 "starch" diamonds made recently by Dr. Willard J. Hershey, of McPherson College, Kans.

He also has some pink diamonds, stones unlike those in nature, made from starch with aid of the manganese steel which is an artificial production of metallurgy.

Dr. Hershey has been making diamonds 12 years, and produced 25 little "sugar" diamonds before switching to starch. His purpose is to discover how nature makes them and to get big ones.

He said today he now believes it will be possible to make larger diamonds. His switch from sugar to starch answers one part of the diamond puzzle.

It is the carbon in either sugar or starch which turns into diamond. But the starch of the gum arabic plant has more atoms of carbon per molecule than the sugar.

The large starch diamond was made by dissolving the carbon in the starch in molten iron, its contents heated to 5,400 to 7,400 degrees Fahrenheit by an electric current of 120 volts and 65 amperes.

STOP THAT RISING HAIR LINE

• • Your hair line rises and baldness comes when you let local scalp disorders (such as dandruff) go un-checked. You can stop that rising hair line and avoid baldness by consulting a Thomas expert.

A Thomas expert will examine your scalp and determine which of the 14 local scalp ills (responsible for almost 90% of all cases of baldness) are attacking your hair-growing structure. He will then specifically overcome those local disorders by adapting the Thomas treatment to meet your precise needs. Your dandruff will disappear; scalp itch will stop; and normal hair growth will be promoted on the thin and bald spots.

Call today for a complete scalp examination. No charge is ever made for a scalp examination or for consultation (always in private). If you do not come within the scope of Thomas treatment you will be frankly told. Remember—the scalp examination is free.

Uzbek Soviet's Heads Ousted In Asian Purge

Factory Official Assailed for Ordering Workers to Get Haircuts.

By the Associated Press.

Moscow, June 23.—The heads of the Uzbek Republic government and numerous other officials were disclosed today to have been removed from office in a new discovery of alleged anti-government opposition in middle Asia.

Premier Faizoulla Khodjaieff, chief of one of the constituent republics of the U. S. S. R.; Vice Premier Alexander Nemtsovitch, and the chairman of the city soviet of Bokhara, named Kusbanoff, were ousted.

Turson Khodjaieff, trade commissar, also was removed from office and dismissed from the Communist Party.

The vice premier allegedly permitted his house to be used as headquarters for meetings at which plans were made to sabotage the harvest.

The premier's brother, allegedly a nationalist counter-revolutionary, recently committed suicide.

The Tashkent newspaper Pravda declared the premier "instead of acknowledging the fact he had been politically blind, continued to defend his memory." The state congress voted to remove him.

The Uzbek Republic, in the heart of Asia, lies between Turkestan and independent Afghanistan, and includes the legendary cities of Bokhara and Samarkand.

The Communist Party organ Pravda related that former Vice Director Prokhoroff, of a Kerch factory, lost his job and was expelled from the party because he allegedly attempted to force 60 workers to shave their heads as a sanitary measure.

When the workers complained to the party secretary he cited the labor discipline provisions of the constitution and told the workers to get haircuts. The men still refused and their bedclothing was confiscated in reprisal.

According to Pravda, the vice director's order was designed to stir discontent within the factory.

Diplomats Kin, Laundrymen Learn American Ways

Forty-one alien adults graduated yesterday from the Americanization School. Helen Kiernan-Vasa, a teacher of advanced English, hands diplomas to Nina Lataif, of Panama; Rosario Tosta, of Honduras; Laurentine Blanchette, of Canada; Mercedes Guerra, of Cuba; Mildred Futrowsky, of Russia, and Maria Schlenkhoff, of Germany.

Americanism Class Honors Adopted Home at Exercises

Graduates of School Represent Many Nations; Group Includes Former Russian Diva and Exiled German Physician.

The stirring words of "America" echoed through the open windows.

Outside, passersby paused to listen. An old man doffed his hat, remarking to a stranger at his side:

"I reckon there's big doings in there. It sure sounds fine to hear our young citizens sing that patriotic old song."

The old man was partially right. There were "big doings" inside—But had he chanced to investigate, he would have found among the singers:

A former Russian opera star.

A German physician.

A Mexican statesman.

The son and daughter of Costa Rica's minister.

A modiste from Panama.

The son of a Chinese restaurant owner.

Another physician from Santa Domingo.

Together, they joined with representatives of a dozen other countries in musical tribute to America—their adopted home. It was graduation day at the District's Public Americanization School.

And then came the presentation of diplomas by Miss Maude E. Alton, principal.

A few who received their certificates have been in this country several months. For others, it is a matter of weeks. All successfully passed first requirements to become citizens of the United States.

Younger members of the class of 43 children and adults will move on to Washington's junior and senior high schools next term. The older members will follow advanced courses to fit them for life in America.

At yesterday's exercises, the students—young and old—wrote and gave their own graduation speeches. To some, the task was difficult. Others showed remarkable aptitude for learning English. None of them had been studying more than six months.

Each speaker expressed gratitude for the privilege of attending the Americanization School and agreed "there is nothing like it anywhere in the world."

Each graduate was presented with a small booklet entitled "The Story of the Constitution." The booklets were graduation presents from Representative Sol Bloom (Democrat), of New York.

Prominent members of the class included Mme. Marie Zalipsky, former Petrograd opera star; Dr. Siegfried Speyer, Berlin physician, an exile from Nazi control; Dr. Consuelo Bernadino, of Santo Domingo, and Rafael and Marie de Castro, son and daughter of the Costa Rican Minister.

Other countries represented were Chile, Cuba, Canada, Greece, Ecuador, New Netherlands and British Honduras.

Dentists' Group Files Completed Petition

Annapolis, Md., June 23 (AP).—The petition for referendum on the legislative act to prohibit dentists from advertising was completed today with the filing of 4,441 additional names with E. Ray Jones, secretary of state.

Previously the group opposing the act had filed 9,133 names seeking a vote on the measure at the November, 1938, election. The additional names filed bring the total to 13,574.

The secretary of state forwarded the petitions to Herbert R. O'Conor, attorney general, who will determine if all legal requirements have been met to submit the question to the voters.

Shrine Nobles Name Steuart New Treasurer

District Becomes Financial Center of Order With Appointment.

The election of Leonard P. Steuart, District businessman, to the office of imperial treasurer of the Ancient Order of Nobles of the Mystic Shrine makes Washington the financial headquarters of the shrine and of its hospitals.

Steuart was named treasurer yesterday at the imperial council sessions in Detroit.

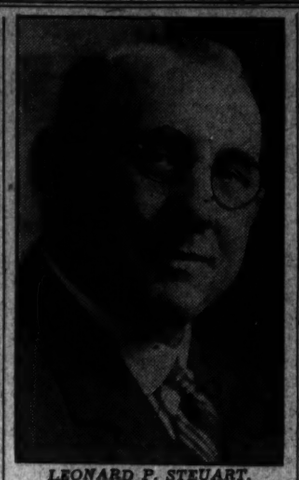
A past imperial potentate of the order, Steuart has been active in Masonic work since becoming a Master Mason in Washington Centennial Lodge, No. 14, in 1905. In recognition of his service to the shrine, honorary life memberships have been bestowed upon him by more than 100 temples.

He was master of Washington Centennial Lodge, No. 14, in 1914 and was elected treasurer three years later. In 1929 he was elected grand junior steward of the Grand Lodge and later became grand junior warden of that group. He was exalted a Royal Arch Mason in Lafayette Chapter, No. 15, in 1912.

Steuart received his council degrees in Adoniram Council, No. 2, which received him as a royal and select master in 1922. The appendant degree of super-excellent master was conferred upon him in 1917. He was created a Knight Templar in Orient Commandery, No. 5, in 1917, the same year in which he was made a noble of the Mystic Shrine. He received his Scottish Rite degrees in Albert Pike Consistory, No. 1, two years later.

He is also a member of Kallipolis Grotto, No. 15, and an honorary life member of the Tall Cedars of Lebanon. He was elected first patron of the Washington Centennial, O. E. S., when it was organized in 1920.

He served as chief rabban and later illustrious potentate of Almas Temple during the 1923 convention here. Other Masonic offices which he has held include representative to the Imperial Council, imperial outer guard and deputy imperial potentate.



LEONARD P. STEUART.

Thug Erred in Shot Which Slew G-Man

Topeka, Kans., June 23 (AP).—A Government witness testified today one of two New York gunmen on trial for killing Federal Agent Wimberly W. Baker claimed he mistook Baker for a local officer and "preferred to shoot it out" rather than "take a chance at six years he knew were hanging over him."

Baker was slain during a gun fight in the Topeka postoffice as he and fellow officers sought to arrest the gunmen, Robert Suhay and Glen Applegate, for the robbery of a bank at Katonah, N. Y. The Government seeks a death penalty.

Gene H. Hembry, Des Moines, a Federal Bureau of Investigation agent, said Applegate admitted the Topeka shooting, but said he thought Baker was a local officer.

HEAD MAN—and the whole road knows it

Lowest price ever on a Buick 4-door Sedan

NO OTHER CAR IN THE WORLD HAS ALL THESE FEATURES
★ VALVE-IN-HEAD STRAIGHT-EIGHT ENGINE ★ ANTI-LITE PISTONS ★ AEROBAT CARBURETOR ★ SEALED CHASSIS ★ TORQUE-TUBE DRIVE ★ UNISTEEL BODY BY FISHER ★ TIPTOE HYDRAULIC BRAKES ★ KNEE-ACTION COMFORT AND SAFETY ★ "HIGH OUTPUT" GENERATOR ★ JUMBO LUGGAGE COMPARTMENTS ★ DOUBLE STABILIZATION ★ SAFETY GLASS

THERE'S one thing you can tell from the very look of Buick—when the man behind this wheel bugles for road-room—room on the road is what he's going to get!

For here's the boss car of the bunch this year—and the whole road knows it.

Under that deep-barreled bonnet is the ablest straight-eight engine in the world—you'll never have need for all the power this quick and quiet giant can pour forth.

It's rugged, solid, firm-set, built close to the road—there's no wander or weave in this safe and steady traveler, no side-sway or swing on the curves.

Try the wheel. Obedient as your finger. Press the brakes. A toe-touch stops you soft and sure. Check the take-off. You get the jump at every light, nimble as a sprinter breaking fast out of his hole.

Yes, this glorious Buick is head man of the highway—and when you're behind its wheel no sensible driver is going to argue the point.

That's the kind of car we think you want. And it's the kind of car you can easily have. For with all that's in this stand-out performer—with everything handsome that it can do—*it still sells at the lowest Buick prices ever.*

If you want to know how low that is—match price tags with the sixes. You'll find you *can* afford this eight—for it's only a trifle above the average six, and actually lower than some that sound like good buys.

Reorganization Bill, Revamped, Offered Senate

Introduced by Robinson; Move Made in House to Split Measure.

Continued from Page 1.

President's reorganization orders must be submitted to Congress, and would not become effective for 60 days. Congress thus may act to block any reorganization order. But the President could veto any legislative action, and in so doing require a two-thirds vote of both Houses to block him the second time.

Exemptions Written In.

Special exemptions were written into the bill to prevent abolition of major functions of independent commissions, which were not so protected in the original measure. But "routine administrative and executive functions" could still be transferred, and the President would retain personnel and budgetary control.

Civil Service and merit system provisions of the bill brought swift commendation from Luther C. Steward president of the National Federation of Federal Employes, who asked "speedy passage" of the bill.

Only two provisions of the measure brought objections from Steward. He pointed out that the proposed Civil Service Administrator, who would replace the Civil Service Commission, would not be chosen by competitive examination, as originally recommended by the Brownlow committee.

Jobs Outside Civil Service.

Widening of the list of top jobs, outside of Civil Service, and subject to Senate confirmation, was declared "distinctly regrettable" by Steward. Any job the President determines is "policy-determining," and all heads of bureaus or divisions, would be added to Senatorial patronage, under the bill. Steward said this would "severely restrict opportunities for promotion in the competitive classified service" and remove about 100 key positions from competitive classification.

Senate Minority Leader Charles L. McNary, a member of Robinson's Senate Reorganization Committee, said the bill cannot possibly be passed this session. But the President has asked for action this summer and both House and Senate leaders say they are directing their efforts to this end.

Senator Harry Flood Byrd, of Virginia, head of another Senate reorganization committee which is espousing a counter plan drawn by Brookings Institution, was out of the city yesterday. He is expected to ask for sweeping changes in the Robinson measure.

House Action Expected.

The House is expected to act on at least two of its four separate reorganization measures this session—a bill authorizing the President to appoint six administrative assistants to help carry the White House load, and a second bill transforming the General Accounting Office into a General Auditing Office, with powers only of post audit.

The first of these measures will be drafted by a sub-committee under leadership of Representative J. W. Robinson, of Utah. A sub-committee headed by Representative Fred Vinson, of Kentucky, will handle the general auditing measure.

Two other sub-committees were appointed yesterday by Cochran. One, headed by Representative Lindsay Warren, of North Carolina, will draft the bill delegating reorganization powers to the President. Representative James M. Mead, of New York, will be in charge of separate civil service measure.

Warren said there was an understanding early this session that the Senate would initiate action on the court bill, and the House would act first on reorganization. He also forecast action this session.

Features of Bill.

Features of the Robinson modified omnibus draft of the Brownley reorganization bill introduced in the Senate yesterday include the following:

Broad powers for the President to transfer, group, consolidate and abolish agencies and functions to promote greater economy and efficiency.

Limitation prohibiting the President from abolishing executive departments or independent commissions. Also exempted are the Board of Governors of the Federal Reserve System, the General Auditing Office, the District municipal government, the Corps of Army Engineers and the Mississippi River Commission.

Abolition of the Civil Service Commission and creation of a single civil service administrator, to be selected without regard to partisanship, but with no provision for competitive examination.

Covering into the classified civil service of officers and positions in various agencies, on recommendation of the heads of the agencies, and on passage of a non-competitive examination. (Certain positions excepted.)

Extension of the classification act to all Government positions, both departmental and field, except for positions covered by laws specifically fixing compensation.

Abolition of the Comptroller General's office, and establishment of a general auditing office, headed by an auditor general, responsible to Congress, but having power only of "post audit" after expenditures are made.

Setting up of only one new department, a department of welfare, to promote public health, safety, sanitation, education, and relief of the unemployed, aged and disabled.

Changing the name of the Interior Department to the "Department of Conservation;" abolition of the National Resources Board and establishment of a national resources planning board, to study and recommend national planning policies.

Post's Roving Reporter Heads For Pacific on Foot With $10

TOM McCARTHY.

Meet The Post's roving reporter! He's going to have some mighty interesting yarns for you in the daily and Sunday Post these coming weeks. The first one will appear Monday.

Almost everyone in Washington and vicinity knows Tom McCarthy, the reportorial adventurer, as the voice of the Postilion over Station WMAL.

In his new role, you will know him as the young writer who set out with $10 in his pockets to get the story of America as he sees it from the District to the Pacific Coast.

You will start the adventure at the foot of the Fourteenth Street Bridge early in the morning, travel with McCarthy through the beautiful Blue Ridge Mountain country in Virginia and Tennessee, through "bloody" Harlan County, Ky., and from there his next destination is uncertain.

He will introduce you to "the man in the red suit," A. T. Pace, who was mayor of Herrin, Ill., at the time of the "Herrin Massacre," in 1922; Lawrence "Peggy" Dwyer, the union organizer in Bell County, Ky., who has 30 years of labor warfare behind him, and the lad in Harlan County who tells over a glass of beer about "a cousin of mine who has been hired to pick me off."

McCarthy left Washington a few days ago. He was dressed in an old pair of trousers, a battered brown hat, a brown shirt, sturdy walking shoes and a knapsack over his shoulders.

He is en route to the Pacific Coast.

The Post has no idea how long the journey will take, what route he will select, or whom he will meet.

En route he will talk with interesting people, find employment to replenish his funds, travel as he sees fit and, primarily, write about his experiences.

Perhaps he will travel through your town or city and write about people and scenes familiar to you.

Watch for his first article Monday and every day thereafter in The Post.

paid but $43,973.35 in corporate taxes.

The Internal Revenue Bureau, according to the testimony, has analyzed in detail 4,457 returns under the 1934 act, filed for the calendar year 1934 and for fiscal years ending in the period from January through June, 1935.

Of this number but 374, fewer than 9 per cent, said Helvering, "showed taxable income * * * They paid a personal holding company surtax of only $1,695,000, or about 3 per cent of their aggregate net income. The remaining 4,083 companies in the group paid not a cent."

During the major part of the hearing the committee had continued the examination of Mason B. Leming, Treasury attorney, on the previous revelations that six American citizens had taken out single-premium insurance policies in a Bahamas insurance company that was denounced variously as a "phony," "fake" and "hollow shell." Borrowing back virtually the entire amount at once through a loan arrangement, the six New Yorkers then claimed enormous tax deductions for interest paid.

Senator David I. Walsh (Democrat), Massachusetts, insisted on an explanation from the Treasury for the lack of criminal prosecution of the six. "This is plainly fraud and even criminal conspiracy," said Walsh. "How can we pass laws to deal with these situations of fraud laws that we have are not enforced?"

Hollywood, Calif., June 23 (AP).—Movie Producer Cecvil B. DeMille said in a statement today tax appeal decisions in his favor themselves deny he had attempted to evade taxes.

His statement was in answer to testimony of Internal Revenue Commissioner Guy T. Helvering before the Congressional tax inquiry committee.

"The United States Board of Tax Appeals," DeMille said, "rendered the decisions in the cases of the Government against Cecil B. DeMille Productions, Inc., and Cecil B. DeMille personally, which clearly and emphatically denied the Government's contention that DeMille Productions was formed to evade taxes, and the Board of Tax Appeals so rendered its decision against the Government.

"This opinion was unanimously upheld by the United States Court of Appeals for the Ninth Circuit."

Cult Accuser Tells of Kiss And Blushes

Denver Girl Continues Testimony Against 'Revelator.'

By the Associated Press.

Los Angeles, June 23.—Seventeen-year-old Delight Jewett, who recounted in detail her charges of betrayal by wealthy John W. Hunt, "the revelator" of Father Divine's West Coast "heaven," blushed today as she told of a time he kissed her.

It was the Denver girl's second day of testimony in Hunt's Mann act trial here.

Intimacies Discussed.

Yesterday, Miss Jewett testified calmly, in a forthright voice and in considerable detail, of alleged intimacies with Hunt at his Beverly Hills home and on several later occasions at southern California hotels.

Defense counsel led her over her story again today. There came the description of a stop at Grant, N. Mex. She told of Hunt embracing and kissing her.

"Didn't Mrs. Peters and Mrs. Gardner see you?" asked Federal Judge Leon R. Yankwich.

"No, they had their backs to us," the high school girl replied, her face flushing.

"New Redeemer" Angle.

The reference was to two of Hunt's three codefendants, Mrs. Elizabeth Peters and Mrs. Agnes Gardner, Los Angeles housewives. The other defendant is H. B. Smith, 67, retired engineer.

Miss Jewett testified previously that Hunt and the others virtually drafted her into the role of a new "Virgin Mary," bought her some clothes and brought her to Beverly Hills. She said Hunt told her en route she was to become the mother of a "new redeemer"

She said that two hours after the stop in Grant Mrs. Peters remarked to her: "Things are getting warm, aren't they?"

Senate Group Approves Renomination of Elgen

The Senate District Committee yesterday reported favorably the renomination of Riley Elgen as chairman of the Public Utilities Commission.

Prompt confirmation by the Senate is expected as Elgen's present term expires next Wednesday. The nomination was made a month ago, but committee action was delayed because of the illness of Chairman King.

Joan Blondell's Visit Brings Hospital Stay

Hollywood, June 23 (AP).—Joan Blondell, accompanied by her husband, Actor Dick Powell, went to a hospital today—and stayed.

She is suffering from a severe attack of neuritis in her right shoulder, Dr. Stanley Immerman said. Powell, recently released after treatment for intestinal influenza, has been reporting daily for examination.

Navy Buys $166,889 Worth of Equipment

Contracts totaling $166,889 have been awarded for the construction of electrical equipment at the Navy Yard here, the Navy Department announced yesterday. One contract for $135,000, providing for a turbo-alternator, was awarded the Allis-Chalmers Manufacturing Co., Milwaukee, Wis., and another, for $31,889, was signed with the Condenser Service and Engineering Co., Inc., of Hoboken, N. J., for construction of a condenser and its auxiliaries. A $9,850 contract for electrical services at the Naval Receiving Station, Cheltenham, Md., was awarded to the Electric Underground Construction Co., New York City.

Woman Pleads Guilty to Pandering Charge

Indicted on a charge of transporting two young girls from Toledo, Ohio, to Washington several months ago for immoral purposes, Mae Walsh yesterday pleaded guilty in District Court before Justice Peyton Gordon.

The two girls were arrested after Federal agents raided the Eighteenth street apartment of Mrs. Walsh. Justice Gordon asked the court's probation officer to study the case and report next week.

'Y' Summer Programs Will Begin Saturday

The Young Men's Christian Association on Saturday will begin its program of summer activities for boys not in camp during vacation.

The program will include hikes, educational trips and athletics, and will continue until September 13 under direction of Fred T. Carpenter, acting director of the boys' work staff.

The program is for boys from 9 to 18.

Instruction will be given in baseball, swimming, tennis, track and field athletics.

Fat Girl Laughs and Grows Slim

Without Starvation Diets, or Back-Breaking, Banding and Rolling Exercises.

Here's a way to get rid of ugly fat that works hand in hand with Nature. Millions of people are losing millions of pounds of flabby flesh and getting back slender figures, without the need of starvation diets or back-breaking exercises.

Medical science has discovered that one of the causes of too much fat lies in a little gland. Doctors correct this condition by feeding this little gland the substance it lacks—and Marmola Prescription Tablets are based on this same method. Millions are using them with success. They are prepared by a famous medical laboratory. Their formula is published in every package so you know what you are taking.

So don't waste time and money with starvation diets or back-breaking exercises. Go to your druggist today and get a box of Marmola. Try this simple, easy way to get rid of excess fat. (Adv.)

HERE'S WHY FIRESTONE ALWAYS GIVES YOU SO MUCH *More for your Money*

Higher Quality Raw Materials! More Efficient Manufacturing! Lower Distribution Cost!

These All Combine to Give You Extra Values at No Extra Cost!

FROM the day of its introduction, the Firestone Standard Tire has more than lived up to its name by setting a new high standard of tire values. Hundreds of thousands of car owners have already bought it as their number one choice because they saw in it more value for their money.

"How does Firestone do it? How can they build so many extra value features into Firestone Standard Tires and yet sell them at such low prices?" The answer is simple — Firestone controls better-quality rubber and cotton supplies at their source, keeps manufacturing costs low by efficient factory methods and sells in such huge volume that distribution costs are held to a minimum. That is why Firestone has been able to give you such extra value features as Gum-Dipping, two extra layers of Gum-Dipped cords under the tread and eight extra pounds of rubber to every 100 pounds of cord, at no extra cost to you.

Make no mistake about this! The Firestone Standard Tire gives you the blowout protection of Firestone's patented Gum-Dipping process. *Every fiber of every cord in every ply* is saturated and coated with pure, liquid rubber which counteracts internal friction and heat that ordinarily destroy tire life. Its scientifically designed tread gives greater non-skid protection and longer wear. And those two extra layers of Gum-Dipped cords under the tread guard against punctures and provide greater strength by binding the tread and cord body into one inseparable unit.

Before you buy ANY tire at ANY price, see today's top tire value — the Firestone Standard Tire. Don't risk your life with thin, worn tires on your Fourth of July trip. Join the Firestone SAVE A LIFE Campaign today by equipping your car with a set of new Firestone Standard Tires—the tires that always give you so much more for your money!

TODAY, from the jungles of Liberia, there has arisen a great rubber plantation on which the world's finest rubber is being produced.

Fifteen years ago, when crude rubber was controlled by a foreign monopoly and prices skyrocketed to $1.20 per pound, Firestone foresaw the necessity of developing their own rubber supply.

From the Firestone-owned and Firestone-developed rubber plantations in Liberia there comes an ever-increasing supply of rubber, bringing greater savings to car owners in the form of extra values at no extra cost.

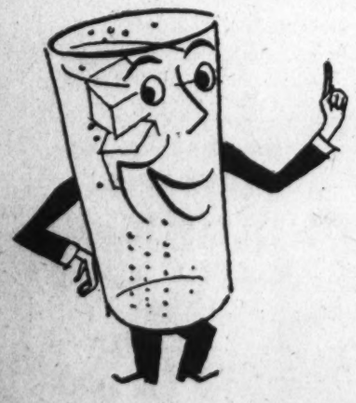
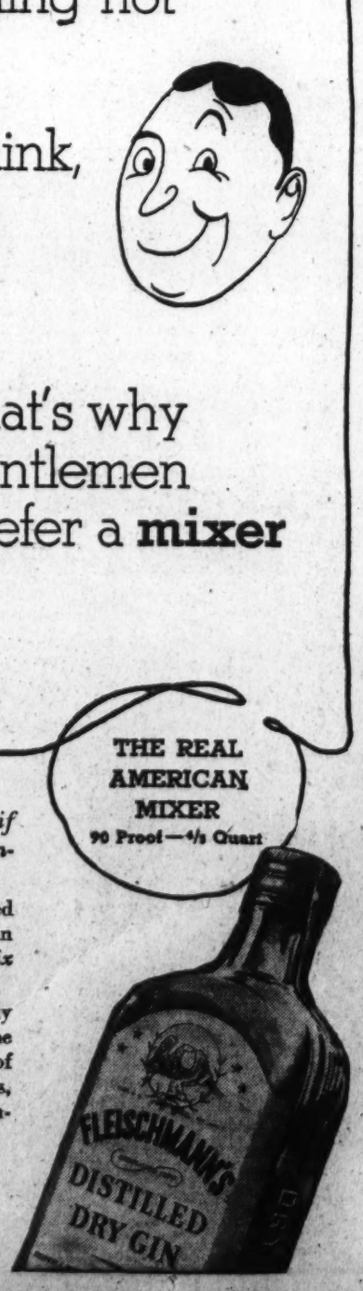
Ginger should be burning hot

But a **gin**, we think, should not



That's why gentlemen prefer a **mixer**



DOES IT MIX? *The answer is—"Not if you can smell or taste the gin in the finished drink."*

That, we've been told, is the kind of mixed drink Americans prefer. So, being an American gin, Fleischmann's is especially distilled to *mix*—from American grain.

The Fleischmann mixing formula is a carefully guarded secret. But there's no secret about the superbly smooth—yet full-bodied character of Fleischmann drinks. For your next Tom Collins, say: "Make it with Fleischmann's." The Fleischmann Distilling Corporation, Peekskill, N. Y.

McKinley High Graduates 471 In Senior Class

Principal Addresses Given by 2 Honor Students of School.

McKinley High School graduated 471 seniors at its commencement exercises last night in the school auditorium.

The Tech Symphony Orchestra, directed by Dore Walten, played Beethoven's "Egmont" overture, as the large class moved in procession to places before an audience of relatives and friends.

Robert A. Maurer, of the board of education, as presiding officer, introduced the Rev. Robert K. Nevitt, pastor of Mount Rainer M. E. Church South, for the invocation.

Sidney Clark, valedictorian, and Eleanor Layton, salutatorian, made their addresses as principal parts of the program. Jack Rosey played a violin solo, "Czardas" by Monti.

236 Graduated From Dunbar High School

Three Honor Students Address Class at Commencement.

Two hundred and thirty-six candidates received diplomas in Dunbar High School's commencement exercises last night.

Three ranking members of the senior class, Dorothy Thornton, John Tyler Phillips, jr., and George Butcher, all of whom had maintained "A" averages in class work, were the principal speakers.

Mrs. Mary A. McNeill, of the Board of Education, presided. Walter L. Smith, Dunbar principal, presented the class for graduation, and Dr. G. C. Wilkinson, first assistant superintendent of schools, awarded the diplomas. The choral society gave musical selections. The Rev. Stephen Spottswood gave the invocation and the benediction.

The school's graduates follow:

Girls.

Airing For The Tax Bill.

It was to have been expected that the District appropriation bill would be given precedence over the District tax bill in the Senate. The city's fiscal year ends June 30 and it is of first importance that the local government be authorized to continue functioning with funds granted by the new supply bill. It was not entirely expected, on the other hand, that such welcome news regarding the tax bill would be heard from Capitol Hill. Apparently that measure is to be given a thorough hearing in committee before it is sent to the floor of the Senate.

If ever a local bill needed an airing, it is the District tax bill. The original measure was so ripped and torn by Representatives outraged at the suggestion that they should pay a few dollars toward the upkeep of the city in which they spend the best part of the year that its sponsors could scarcely recognize it after the House had finished. Gone was the income tax provision and in its place appeared a real estate tax and a levy on chain stores, neither of which had had a hearing in committee.

Fortunately, Senator King will not be a party to the enactment of tax legislation by this method. He has announced that civic and trade organizations will be able first to criticize the proposals in his committee, while the District Commissioners' recommendations will be left until last.

Since this tax legislation may be permanent, it is far more important to correct glaring inequities in the present bill than to pass it by July 1. Though it will be inconvenient, the District can well afford to have its tax program delayed long enough to make certain of its fairness and workability. Such a delay, however, makes it all the more imperative that the District—either in the appropriation or the tax bill—be authorized to borrow from the Treasury sums to tide itself over the days between July 1 and September, when its taxes are collected.

The Treasury's Glass House.

Instead of enhancing their prestige in the eyes of the Congressional committee of inquiry by exposing the sharp tactics of income tax dodgers, Treasury officials have been put on the defensive by questions as to their delay in collecting from delinquents and prosecuting evaders.

Particularly the testimony relating to the bogus insurance policies issued by a foreign concern to certain large taxpayers has proved to be a veritable boomerang. Four years, it was admitted, elapsed between the time when the Bureau of Internal Revenue suspected there was "something screwy" about these returns and the date of launching an investigation to determine the facts. Moreover, the bureau appears to have done nothing in the months since the truth became known to further a settlement of these cases.

Witnesses for the Government have admitted that various tax-dodging methods of doubtful legality have become institutionalized and are employed by thousands of individuals whose names have not been spread on the record for all to read. Many of them are undoubtedly unknown to the Treasury itself because they have had the good luck not to be caught. Such disclosures inevitably inspire doubts as to the efficiency, zeal and impartiality of the officials who thus permit large sums to escape the tax collector without immediate protest.

While individuals who evade their obligations to pay income taxes should be made to feel the rigors of the law, pillorying the tax dodger will not correct abuses that are traceable to defects in the law itself or its administration. The Congressional investigating committee can perform a most useful task, therefore, by inquiring into the reasons for prolonged delays in dealing with offenders.

If the Bureau of Internal Revenue is handicapped by inadequate personnel, that deficiency should be quickly remedied. If its agents have succumbed to inertia or yielded to those subtle forms of pressure that often prevent public officials from rigorous enforcement of the law, that, too, should be investigated. When a spokesman for the bureau maintains that a 1932 revenue return is not very old and sees nothing unusual in a five-year accumulation of disputed returns made by a single individual, it certainly looks as if reform ought to begin from within.

As Senator La Follette stated, there is not much hope of keeping abreast of the smart lawyers who instruct their clients in the art of dodging tax payments if responsible Government officials permit all sorts of suspected devices to be tried out for a succession of years with impunity. Clearly an improvement in the method of procedure is an essential preliminary in suppression of tax evasion and avoidance.

A National Housing Policy.

Housing legislation appears to be giving the Administration more difficulty than any other social or economic measure in the 1937 program. There is general agreement that a new housing act should be passed. But details of the program have aroused extensive controversy. Unless these differences can be adjusted within the next few weeks, the chances for adoption of a constructive housing bill at this session of Congress will be very slim.

One source of friction appears to have been ironed out in a recent conference between President Roosevelt and Senator Wagner, author of the housing bill now before the Senate. Mr. Wagner has agreed to an amendment that would permit the granting of capital subsidies as well as operating subsidies to low-rental projects. If the operating subsidies can be so restricted that Congress will not be committed to the appropriation of substantial sums over a period of many years, this would doubtless prove to be a practical arrangement.

But far more serious objections to the Wagner bill remain to be ironed out. As the measure stands, it would probably result in the construction of new projects on vacant land and leave the blighted areas of our large cities virtually untouched. To be sure, "slum clearance" is permitted under the bill. But it is not an essential part of the program contemplated. And since the construction of new housing outside of slum areas is the easiest policy to follow, the country could have no assurance from this measure that any spoiled area would be wiped out.

Certainly if Congress is to appropriate money to house the underprivileged, its activities should begin where living conditions are worst. It is a well-known fact that slums will continue to be occupied so long as they are permitted to exist. When governments set out to correct the unsocial conditions resulting from "metropolitan blight," therefore, the first obligation is to uproot the cause of that social malady. That can mean only abolition of the slums and conversion of the property to other appropriate uses.

Construction of new housing must supplement such a program whether or not the blighted area is suitable for further residential use. With the menace of spoiled areas removed, new low-rental quarters can be provided in any suitable locality. But it would be difficult to defend the use of Federal subsidies merely to provide new housing for a limited group of families, while leaving untouched those disease-infested, crime-breeding quarters which create the greatest need for governmental aid.

It is strange that housing proposals should be tangled in such a muddle when Congress has already provided a suitable pattern for a national campaign against the slums. The local Alley Dwelling Authority has worked out a policy under which unfit dwellings can be abolished and their inhabitants rehoused with a minimum of cost to either local or Federal taxpayers.

Since it is now generally conceded that any housing program must be worked out through local governments, this authority might well become the model around which a new national program is built. When a desirable and practical policy has been carefully worked out and is already operating successfully, it would be sheer folly to go afield in search of a new formula.

An Informed Criticism.

Donald R. Richberg, former NRA administrator, asserts in a formal statement transmitted to the Senate and House Labor committees that the Black-Connery bill "invites a repetition of practically all the errors of the NRA in the matter of fixing and enforcing reasonable wages and hours, without providing some of the safeguards which were provided for the administration of the NRA."

Mr. Richberg points out, for instance, that the proposed labor standards board is given such broad powers to vary wage and hour requirements, upward or downward, that it might as well be given the right to fix wages and hours without reference to any standard. He regards the broad administrative discretion vested in the board with profound misgivings, although he sympathizes with the general purposes that the bill seeks to achieve.

Coming from a former Government official with Mr Richberg's wide experience in dealing with the NRA codes, these criticisms ought to have special weight. He warns against Government plans to fix wages and hours of work and "thereby necessarily to fix prices," pointing out that "democratic government is an inefficient instrument for the making and enforcement of dogmatic laws." His suggestion is that employers and employes in any trade or industry should get together and, through voluntary agreement, establish fair labor standards for the group. It would then be the duty of the Government to compel a recalcitrant minority of employers—those who might try to break down standards generally regarded as fair and reasonable—to abide by the majority decision.

These recommendations are in keeping with the more flexible methods followed in Great Britain. There minimum wages boards, on which employers and employes have representation, have been established for a large number of industries inadequately organized for collective bargaining. A correspondent of The Post in a recent article discussing the British trades boards system emphasizes the importance of having wages fixed by persons actually engaged in the industry rather than by outside experts with the help only of "hearings and statistics." Self-regulation is the best possible guarantee, in fact, against sudden dislocations and price adjustments caused by increased labor costs.

Secretary of Labor Perkins in her testimony on the Wagner-Connery bill also stressed the importance of seeking expert advice before making changes in labor standards. While she did not share Mr. Richberg's fear of vesting large discretionary powers in the hands of a Federal agency, she too felt that successful governmental regulation of wages and hours of work would require the fullest possible measure of co-operation by private industry and labor itself.

Such strictures coming from those who sympathize with the general purpose of the wage-and-hour bill plainly emphasize the dangers of plunging blindly into a regulatory experiment that would run counter to expert advice and to practices successfully tried out elsewhere.

France Surmounts A Crisis.

The French political crisis has been surmounted in a typically French way. With only a few changes in personnel, the old cabinet is back in harness.

To be sure, Camille Chautemps is now premier in place of Leon Blum, and Georges Bonnet, France's Ambassador to the United States, has become finance minister in place of Vincent Auriol. But Messrs. Blum and Auriol remain in the cabinet, the former as vice premier, the latter as minister of justice. Indeed, no fewer than 14 officials of the former regime are in the new ministry, most of them in their old posts. Furthermore, the Popular Front coalition supporting M. Chautemps is precisely that which backed M. Blum. The new government has the approval of Radical Socialists, Socialists and Communists.

This is a happy outcome of what threatened for a time to be an extremely serious crisis. Nor was the upset of the Blum regime a danger merely to France alone. It also represented a danger to the peace of Europe. For, with the continental situation being what it is, any prolonged period of political confusion in France would certainly have produced unfortunate repercussions elsewhere.

There can be little doubt, for instance, that the French crisis played its part in increasing the truculence of Germany and Italy in the four-power negotiations over the Leipzig incident. With France seemingly preoccupied by internal difficulties, the Fascist powers may have reckoned that it was a good time to fish in troubled waters. Now that France has successfully surmounted its crisis, Germany and Italy may think twice before embarking on any rash course.

Credit for the rapid solution of the political problem goes largely to the retiring premier. M. Blum did yeoman service in rallying his party in support of the Chautemps ministry. Indeed, without his personal intervention on behalf of his Radical Socialist colleague, it is doubtful whether the Socialists would have consented to participate in the new government. For, embittered by the Senate's refusal to grant the Blum regime the power it asked, and feeling that the blame for this action rested with the Radical Socialist group in the Senate, they were at first distinctly opposed to the elevation of a member of that party to the premiership. But M. Blum won them over as he won over the trade unions when they threatened a general strike in protest against the overthrow of the Popular Front regime.

The fact must not be disguised, however, that this political crisis, though of brief duration, has left France weaker rather than stronger. It tended further to undermine the shaky structure of governmental finance. And it has, to some extent, intensified schisms within the Popular Front which, while not yet dangerous, may become so.

In contrast to the position they took a year ago, the Communists definitely asked for inclusion in the new government. This was refused. They may, therefore, fly the Popular Front coop. At the same time a substantial minority among the Socialists has also begun to show restiveness. This group favors more active co-operation with the Communists and also has become extremely impatient with the government's Spanish policy. Yet the important fact at the moment is that the strongest government which France has had since the end of the war is back in power.

The Duke's Whip.

From the Memphis Commercial-Appeal.

Rumors that the Duke and Duchess of Windsor will probably visit Southern California within the year automatically rouse speculations as to whether Hollywood will be included on their itinerary. The stories are probably as thin as most of the film plots, but the fact that they are circulating reminds us that the Duke of Windsor does have a sort of whip over his Tory countrymen.

The possibility that His Royal Highness might make a few movies is a sort of rod kept in pickle, and with it go the possibilities of his doing a good many other things in trade, always provided the ducal bank account began to get at all low. The Duke's appearance in the flickers would have nothing wrong about it, either, barring the way his British critics would feel about it. He went to a good deal of trouble to become a private citizen and therefore enjoys many potential privileges formerly not his in either fact or theory.

The princes spiritual and temporal will do well not to push him too far.

View of Senator Glass.

To the Editor of The Post—Sir: The case of Senator Glass is indeed a sad one. The poor man is reported to be advocating the resumption of payments of United States gold obligations at the rate at which the money was originally borrowed, $20.67 per ounce troy, and in general that the Government keep faith with its creditors.

He openly disapproves the debasing of the currency. He seems totally unable to see the wisdom of issuing bonds and borrowing billions to buy gold at far more than it is worth outside of the United States, to pile it up in a hole in Kentucky, even though he knows that this policy is enabling other nations to profit immensely.

He still prates of the desirability of economy in Government expenses and urges a "balanced budget."

He keeps talking about an independent judiciary as the great bulwark of the personal rights and liberties of citizens.

He would actually have the Government preserve law and order.

The man's influence is evil. He has infected Senator Byrd and others and may pervert still others. It would not surprise me if he should come out any day and say that he still believes there is some good in the Ten Commandments.

Cannot his relatives have him put under permanent restraint?

FRANK N. NAY.

Politics And The Navy.

To the Editor of The Post—Sir: I wonder just how long the U. S. Navy Department will stand by while small-time political ward heelers meddle in the affairs of the service.

These gentry make deals that undermine the morale of the enlisted force of the Navy.

Senate bill No. 705 is an example of that type of business. Here is a bill that would more than double the salary of the enlisted bandmaster of the Naval Academy Band. What for? Well, so the politicians in return can designate certain men to fill vacancies in the N. A. Band.

The salaries of these political bandmasters is already much higher than those of the bandmasters of the line, who are subject to sea duty. They even wear the uniform of an officer of the Navy!

Political traders should be kept outside of naval stations; they are poison to the service.

I hope the Navy Department will take steps to see to it that S. 705 is promptly withdrawn.

Row Houses.

To the Editor of The Post—Sir: Comment now on the abattoir is, I know, belated and in "bad odor." Certain citizen groups vociferate in favor of such a place, the rest object with equal violence, plus moans and groans. The New Deal big shots, seeming to be with the former, would seem to make it unanimous.

But the controversy uncovers the threat of a housing group to withdraw from construction of row-house shacks on 63 acres of this virgin if unlovely territory. Which raises the question whether the abattoir—and you can throw in a glue factory—isn't far preferable, particularly as some natural housing demand is sure to follow its restoration?

To date most houses built east of "the Branch" from Kenilworth to the bridge on Pennsylvania avenue have been the detached variety, which type should be encouraged where land values are low. Is it necessary to ruin the section with acres of tin roofs and concrete streets in the holy and sacred cause of furthering some "housing development?"

Certain citizens' associations of esthetic leanings might better justify their existence by unlimbering artillery to ban row-house shack areas as did Woodridge folks, with aid of Engineer Commissioner Covell, when the first incursions of greed and quantity construction threatened ruin of the section.

Washington is super-saturated with row-house sections, which have done so much to create congestion and reduce to absurdity the "City Beautiful" mush. If abattoir objectors substitute such a "development" where's the gain?

Daylight houses can be erected almost as cheaply. Why ruin the section, while raising the pretense of a sensitive nostril? Twenty-four years' experience as "hand" and also principal in erection of thousands of houses tinctures these views. DAN K. MILLER.

Mount Rainier, Md., June 22.

"Our Great Director."

To the Editor of The Post—Sir: I note that certain of those who so often are found trying to interfere with our President in his efforts to rule his people and Nation are now congratulating themselves upon the apparent defeat of his Supreme Court plan, due to the mutinous disloyalty among his legislators.

This plan of his may have met defeat, temporarily, but those who understand the implacable spirit of our great director realize that his will is irresistible and that those who have thus defied and antagonized him will not long be allowed to enjoy their triumph.

Our great executive is tenacious of purpose, as any man must be who has taken upon himself the practically sole responsibility of ruling a people, whether in Europe or America. It may be thought by some that the retribution he has visited upon the rebellious justices by discrediting them in the eyes of his people has satisfied him. One can only surmise now as to what will happen if they ever again have the hardihood to adversely rule upon his promulgations. And, as for those reckless Senators and Congressmen who refused to aid him in his plan to so reconstruct the Supreme Court as to insure that his desires will not be negatived, it will be interesting to watch their well-deserved punishment. It is sure, however, that his action will be dictated by policy, for it is not for nothing that he is called by his admiring officials "master politician," and "great political strategist."

And now may the Roosevelt family long rule us, not only in this generation, but down through those to come, is the wish of myself and all other true Americans. And may their enemies be always confronted by the efforts of those who like myself would devotedly and humbly serve them. PRESLEY CARGER.

Washington, June 17.

Pro And Con Views Of The C. I. O.

To the Editor of The Post—Sir: Mr. Godfrey Monroe's crack at me in The Post of June 18, is evidently based on such a very wrong idea as to who I am, and he compliments me so unduly when he states that I am being paid for my efforts to aid the enslavers of the poor, helpless working man, that some statement from me in rebuttal is necessary.

It would take up too much space here to give an outline of my somewhat checkered career. If Mr. Monroe will send me a postcard with his address I will send him a certified statement of my life's experience, which will alibi me against any implication of being a candidate for classification under any of the four headings to which the gentleman attaches me in such a positive manner.

It pains me to be unable to agree with Mr. Monroe as to the pristine innocence of the C. I. O. The C. I. O. is made up of many thousands of individuals, and I am substantiated by the history of the world when I affirm that so long as humans are as they are, you cannot get together any large number of human beings who are so Christian in their purity of intention and unselfishness of purpose as Mr. Monroe makes out the C. I. O. to be.

I have been all my life a very good friend of the working man, having worked under ground in hard rock mines for some 15 or more years with hard rock men. Respecting them as I do, I will not insult them by attributing to them such an absolute degree of virtue as Mr. Monroe claims for the members of the C. I. O.

As one whose ancestors fought in the War of the Revolution, both in the ranks and as a few commissioned officers, I hereby register a very emphatic kick against Mr. Monroe's suggestion that these men by inference even can be compared with the C. I. O. The two incidents are as different as I am to a beautiful, young, rouged movie queen.

I almost forgot to point out one other difference that I insist be noted by Mr. Monroe. The soldiers of the Revolution never took their women into the front line. That habit as demonstrated lately during the labor troubles is, Mr. Monroe, damned bad form.

GRANT SHEPHERD.

La Plata, Md., June 16.

To the Editor of The Post—Sir: I reiterate to Mr. Harry W. Ranson that I do not idolize John Lewis any more than any unionist, but if Mr. Ranson accuses me of idolizing the liberty-loving progressive, union-sympathetic American, then, I say, yes, I am guilty of the "crime."

He claims that he is not what I think him to be. Of course not. A professional union-buster seems always a good union man and always wears a union button in a strike. Hitler and Mussolini never say that they are the employers' propagandists and oppressors of the people; they always claim to be "Socialists!"

If he is a Government employe, which I doubt very much, I say to him that everything he has, including his position, has been given to him, directly or indirectly, by the organized labor. If he is such, his views are even more odious to an average American.

The strike news, of which he speaks, is not the workers' accounts, but the employers'. The workers have no money for propaganda. The La Follette Committee is in possession of strike films, showing that the workers are being shot and wounded in the back, many women and children hurt while fleeing from the company's armed plug-uglies. Why does he not lay the disorder blame where it rightfully belongs, at the employers' door?

To be convinced that the C. I. O., as well as all organized labor, fights for democracy, he can do two things. He can visit any nonunion sweatshop and a union work shop and find out where the democracy flourishes. Or he can glance at Italy and Germany and see what happened to democracy when all unions are smashed.

It may surprise him that there are thousands of World War veterans on C. I. O. picket lines today, and many more thousands sincerely sympathizing with it.

There is no proof that C. I. O. spent a half million dollars on Mr. Roosevelt's campaign, but what if it had? The employers spent perhaps a billion or more, striving to cram reactionary Landon and Lemke down our throat. But, in spite of all their unholy maneuvers, the overwhelming majority of intelligent, union-minded American people followed the C. I. O.'s ideals and re-elected our liberal President.

To Mr. Ranson I wish only to remark that there is no need for me to sprout wings on C. I. O., it already has them. Surely, he can see victory after victory falling into the C. I. O. lap. This is so because a very large majority of our people stand solidly behind it.

The Post Impressionist

Genealogy Of Words.

THERE is on my desk a circular announcing the forthcoming publication of a Coronation Edition of "Burke's Landed Gentry," along with what is described as a "pedigree form for completion by selected collateral families overseas." I am requested to fill out this form with, among other data, the name of my first American ancestor. On the back of the form is a blank order for the book "at the special reduced pre-publication price of $25 without any extra charge, check for which is attached herewith."

I suppose that if I should send the check my pedigree would appear in the book, although my first American ancestor could, by no stretch of the imagination, be described as a member of the British landed gentry.

• • • •

The study of one's family tree may satisfy vanity, but it lacks the intellectual interest that can be found in the study of the genealogy of words. A Post Impressionist referred a few days ago to my discovery of "serendipity." This word is a parvenue, for it was not born until the eighteenth century. Horace Walpole read a fairy story called "The Three Princes of Serendip," that is, the three princes of Ceylon, for Serendip is an ancient name for the island of spicy breezes. The princes were continually making discoveries of things they were not in quest of. As this is a delightful experience, Walpole, after a suitable period of gestation, brought forth the word serendipity to describe it.

My friend Stirling and I recalled the three princes not long ago when we were riding through Alexandria and came upon the imposing Masonic memorial to Washington, the existence of which we had forgotten. Thousands of persons undoubtedly visit Alexandria to see it, but we were not in quest of it.

• • • •

A word the ancestry of which is more interesting and romantic than any other which I know has come into use in English in the present century, but its beginnings date back for more than 2,000 years. It is "hangar," the shelter for an airplane. The word is French, and is the name for an open farm shed. According to Littre's French Dictionary, it is descended from the name given to the shelters built in the Alps for the messengers whom Caesar sent from Rome into Gaul. A messenger, to the Greeks, is an angel, and the shelters took their name from the "angels" who occupied them. The root of angel appears in the word hangar.

Now, an angel, in English usage, is a heavenly messenger, and an airplane, or aeroplane, is, in its derivation, a wanderer in the heavens. So this word, of prosaic origin and of prosaic use in the country of its birth, means for us a place of shelter for a wanderer in the heavens, or, if one wishes to use one's imagination, a place of rest for angels. Frank H. Vizetelly, an American lexicographer without imagination, does not agree with Littre, but I prefer to go along with the Frenchman.

• • • •

There is no disagreement, however, over the genealogy of the word "chapel." It arrives in English from the French through the Latin "cappa," meaning a cloak, and was born of the tradition about St. Martin.

The story is that Martin, while serving as a soldier at Amiens, saw a beggar at the gate of the city shivering with the cold. Martin took off his cloak, cut it in two, and gave half to the beggar. That night he had a vision in his sleep in which he saw Jesus, clad in the part of the cloak which he had given away, and heard Him say to the angels, "Martin hath clothed me in this garment."

He told of his vision and the other half of his cloak was preserved. The place in which it was kept was called a "chape," and prayers were said there. When brought over into English the word became chapel.

• • • •

But words are not always proud of their progenitors and sometimes forget them. Occasionally, however, they acquire a nobility for themselves in the course of centuries. There is "canopy," for example. Kings sit on their thrones under canopies and poets refer to the canopy of the heavens. But to the Greeks, who invented the word, it described no such exalted contraption. They were troubled by mosquitoes, and in order to sleep in comfort they erected what they called a "kanopeion," or mosquito netting, over their beds.

"Celebrate," like "canopy," has acquired a distinction to which its progenitors were strangers. It comes from a Latin verb meaning to assist by one's presence in making a large crowd. So when the Romans said "Let us celebrate the arrival of Caesar," they merely proposed that they should go out in crowds to greet him. But the word has come to mean a popular demonstration in honor of a person or an event. "Privilege," which is an Anglicized form of the Latin for private law, has acquired many other meanings, proving that a word, rolling down the corridors of time, as the bombastic orators would say, can accumulate many things in its journeyings.

Chesapeake Bake.

("All Democratic members of Congress have been invited to attend a three-day outing on Jefferson Island, Chesapeake Bay, by President Roosevelt. The chief purpose is said to be to remove the impression that Mr. Roosevelt has become difficult to approach, and to go over problems in a heart-to-heart manner."—News item.)

I.

Come, Democratic solons!
We're holding something new—
A worriers' big field day,
A thinkers' barbecue!
Colossal in its nature,
Unparalleled in aims—
A chance to blend deep thinking
With simple outdoor games.

II.

Oh, Congressman, get ready—
The party'll be a whizz;
'Twill show how beneficial
Good outdoor thinking is.
The President invites you
To frolic in the sun,
And blend the Nation's problems
With food and good clean fun.

III.

The chief will move among you
To give you certain proof
That, in a proper setting,
He never is aloof;
He is not peeved, my hearties—
For you he has no "chill;"
He'll prove (the day permitting)
How much he loves you still.

IV.

The feeling lately current
That he was growing cold
Will now be dissipated
By lunches hot and cold;
This notion that your leader
Had lost his winning ways
Will be completely shattered
For three whole summer days!

V.

He meant no gestures frigid,
His was no pouting case;
'Twas simply that a White House
Is such a cramped up place!
He harbors no resentment
Nor feels the slightest gloom;
It purely is a question
Of having ample room.

VI.

An island vast and spacious
Where sea and country blend—
Ah, there we have a setting
To help a man unbend!
No Congressman's opinion
Need be suppressed out there,
For candor goes so nicely
With chowder and fresh air.

VII.

To any legislator
Who's slighted, snubbed or hurt,
How soothing is a picnic
Sans hat and coat and shirt!
How grand a chowder party
With water sports (and beer)!
Come, Democrats, and witness
The icebergs disappear!

VIII.

The ferry . . . hear it tooting!
We leave in shifts (there's three);
And if you're in the last shift
It is no slight, you see;
Be candid and outspoken
Show not the slightest fear . . .
But, just the same, be prudent
And keep a rowboat near!

"Chowderhead" Goggins, the new office boy over at the button shop, is dissatisfied with his job and has taken the matter up with Washington.

Caleb Potter, president of the Potter Pottery Works, is still unable to tell his employes how much money they are getting, owing to the fact the Government hasn't notified him yet.

Eph Hawkins, head bookkeeper at the wire mill, notified the boss today that he had told Washington he would have to have a raise and another day a week off.

Ye Ed hears that all the peanut vendors with the Zenith Circus, which recently appeared here, have been given wage increases by Federal order. It seems as the peanuts are fed to the elephants and as the elephants move from State to State, the peanut business constitutes interstate commerce.

The board of direcors of the clock shop called off the annual meeting which was to be held today. They decided to let Washington tell the stockholders how things are going.

Chet Hemmill, founder and head of the Hemmill Hay & Feed Co., had an embarrassing moment last week. He called in all his workers to surprise them by announcing an extra day off each week with pay and found they had been getting it by arrangement with the Government Labor Board.

All hands at the local flour mill left the plant and went to Washington in gayly decorated buses yesterday. "Bump" Hosley, owner of the mill, was surprised when he showed up at the plant and found nobody working. As no picnic had been announced, it is assumed the employes decided they didn't like the way the shop was run and had gone direct to Congress.

Russian Writer

By William Lyon Phelps

Anton Chekhov.

One of the greatest short-story writers and playwrights in Russian literature is Anton Chekhov, born in 1860, died of tuberculosis in 1904.

A new book about his life and works, both biographical and critical, has just appeared, written in English by the Princess Nina Andronika Toumanova; it is called "Anton Chekhov, The Voice of Twilight Russia," and is published by the Columbia University Press, New York. There is a foreword by Prof. A. Vasiliev, of the University of Wisconsin.

* * * *

Chekhov and Gorki were contemporaries. Both wrote plays and stories; but whereas Gorki's best work was done early in his career, Chekhov steadily advanced until in the year of his death he produced his dramatic masterpiece, "The Cherry Garden."

Here is an interesting thing: That play was first translated into English in 1908, by Dr. Max Mandell, instructor in Russian at Yale University, and was published by the Yale Courant. This translation was called "The Cherry Garden;" subsequent translations that appeared in England and in America were called "The Cherry Orchard," and I have heard Dr. Mandell criticized for his use of the word "Garden." And now the Princess tells us in this book that Garden, and not Orchard, is the correct rendering of the Russian word.

At the turn of the century, in 1900, a group of Russian writers of extraordinary ability were active: Chekhov, Gorki, Andreev, Artsybashev, Kuprin, Bunin and old Korolenko. It is clear today that the greatest of these was Chekhov.

* * * *

To see his wife, the famous actress, Olga Knipper, play in his dramas in Russian, and to see Jed Harris' production of "Uncle Vanya" in English, was to have an experience that left an indelible impression. Mme. Knipper told me many interesting anecdotes of her husband.

I recommend this admirable book by the Princess Toumanova to all who wish to review the literary history of Russia before the Revolution; who wish to become acquainted with one of the most noble and beautiful personalities in any literature; to those who wish to understand the art of a master artist.

Behind The French Crisis

Statesman Puts Blame For Upheaval On Conservatives.

By Agnes E. Meyer.

Special Correspondence of The Post.

Paris, June 15 (By Mail).

A DISTINGUISHED elderly statesman spent an hour proving to me recently that his fellow conservatives were primarily responsible for the tragedy of errors which have been enacted in France, beginning with the Treaty of Versailles right down to the present day.

"Our poilus thought they were fighting for the liberty of mankind," he said, "but what happened? Instead of achieving greater freedom and justice for all, my associates have only fought to maintain their privileges. They, themselves, to the everlasting disgrace of my country, have impeded recovery and social progress by a succession of political errors arising from a combination of stupidity and greed. And unless a miracle happens they are about to add further proof that our conservative elements have learned nothing from their previous mistakes and are incapable of acquiring new moral and intellectual values."

This startling admission was called forth by the sudden and unexpected political developments of the last week, when the French financial crisis was suddenly precipitated. Though the world has become hardened to French financial difficulties, the present situation is more fraught with dangerous possibilities than ever before.

Blum Government's Year Ended On June 4.

THE BLUM government completed its first year on June 4 with an unequaled record of social reform, a highly successful foreign policy, a large political majority in the Chamber of Deputies—and an empty treasury. It is common knowledge that to meet the financial needs of the next six months the government is obliged to raise a minimum of $800,000,000.

For some time it was understood that no political advantage would be taken of this situation until autumn, as the desire to make the exposition a success had established a temporary truce between all opposing factions.

On Sunday, June 6, Mr. Leon Jouhaux, leader of the C. G. T., the federation of labor unions, made a speech in which he was said to have declared categorically that the labor unions "would not accept the overthrow of the present government by Parliament." The French people in every walk of life were shocked, as well they might be, by words which clearly implied the possibility of revolution.

On Wednesday the French rentes fell to the lowest point in ten years, and on Thursday, possibly as an answer to Mr. Jouhaux's challenge there followed what appeared to be a prearranged attack on the government in both houses of Parliament. Mr. Paul Reynaud and Mr. Flandin in the Chamber and Mr. Caillaux and Mr. Gardy in the Senate sharply criticized the economic policies of the administration as disastrous to the future of the country, and on Friday, for the first time, the social reforms of the government were checked when Senator Regnier temporarily defeated the extension of the 40-hour law to hotel employes.

Social Program Seen Variously Vulnerable.

THE RECORD of the Blum administration showed itself vulnerable from several points of view. The social program comparable to the Wagner labor bill, has increased the costs of production until France momentarily cannot compete with her commercial rivals, and foreign trade has fallen so low that the government has asked Parliament for what it calls "anti-dumping" legislation. Production has been hampered not only by the 40-hour law and increased wages, but by a deliberate slowing-up process fostered by the labor unions in the hope of forcing increased employment.

In addition to the economic difficulties of its own making, the government inherited a bad financial situation because it was obliged to continue borrowing in order to carry on the national rearmament program, which is increased by $136,000,000 the ordinary budget alone. As a result the national debt has assumed dangerous proportions and the cabinet sent to Parliament a request for extraordinary powers for a period of six weeks to take measures for the rehabilitation of public finances and for safeguarding public savings, the French currency and public credit. Mr. Blum also considered a program of new taxation and bank control but he dropped that. The debate on this measure, which is bound to be acrimonious, begins on Thursday and the whole country is awaiting the outcome with deep anxiety.

Associated Press Photo.

Members of Leon Blum's cabinet just before their resignation. Four of the five, however, are members of the new cabinet formed on Thursday by Camille Chautemps, third from the left. Vincent Auriol, on the extreme left, shown here as minister of finance is today minister of justice; at his side is Minister of Economy Spinasse not included in the present cabinet; beside Premier Chautemps is Blum, now vice premier, and on the extreme right is Paul Faure, shown here as state minister, and holding that post again.

[Last Sunday after the government's bill for plenary power to deal with the financial crisis was turned down by the Senate, the Blum government resigned. A new government headed by Camille Chautemps has been formed with Mr. Blum as vice president.—Editor.]

The Bank of France yesterday raised its discount rate from 4 to 6 per cent. This is the traditional method of stopping the "flight from the franc" which during the past two weeks has assumed panic proportions. According to Mr. Auroil, minister of finance, the amount of French capital invested abroad can be estimated at $2,700,000,000. The raising of the rates is, of course, an official recognition that the financial position of France has reached the acute stage, but the opposition asserts that what ails France is not a lack of money, but a lack of confidence in the government.

Flandin Summarized Opposition Skepticism

THE OPPOSITION skepticism concerning the possibilities of balancing the budget were frankly expressed by Flandin in another attack delivered on Sunday, June 13, when he accused Prime Minister Blum "of preparing revolution by the alternate play of devaluation and inflation which is ruining the country materially and morally," and ended by declaring euphemistically that "it is necessary to create another climate."

In thus preparing the ground for the downfall of the Blum ministry, many of the intelligent conservatives of France are reluctant and deeply apprehensive of the outcome. The crisis will probably have been reached before or soon after this article can be published, but no matter how it is brought about, no matter how justified some of the distrust of Mr. Blum's leadership may be, the issue will appear to be between the dictatorship of the "two hundred families" whose hold on France has been broken for the first time by this administration, and the new social legislation which it has enacted for the protection of the working masses.

Big headlines are already streaming across the front page of The Populaire, the government paper. "To destroy the government of the Front Populaire, the reactionaries will stop at nothing." "Let us not deceive ourselves," the editorial continues, "the abominable campaign of panic of the past ten days is anything but spontaneous. It is the assault of the 200 families on the Front Populaire. It is the attack of the Bank of France on the popular government. It is the battle of the big employers against the ensemble of social reforms. These gentlemen are mistaken in their calculations. The France of 1937 is not the France of 1925."

Opposition Can Find No Comparable Leader.

THE OPPOSITION admits that it has no strong leader to replace Mr. Blum and even his bitterest enemies concede that he is honest and highly capable. Everyone who meets Blum is susceptible to his personal charm, his erudition, and a calm and poise which result from strong inner conviction, intelligence and character. Moreover, he is surrounded by many able assistants such as M. Delbos, minister of foreign affairs, and Mr. Chautemps, minister without portfolio. One member of the cabinet who has been a member of 16 previous governments asserted that he had never seen in France so harmonious and co-operative a ministry as that of Mr. Blum.

Above all things, Mr. Blum is very adept at managing the various shades of leftist political opinion embodied in the Front Populaire. He has, with great difficulty, succeeded in holding in line the 70 Communist members of the Chamber; and the most astute members of the right wing, such as the experienced politician quoted in the first paragraph, realize that if the financial crisis is used to bring about the downfall of the Blum government, the possibility of serious disturbance in France is great.

France is indeed fighting her great revolution all over again, for the power of the old aristocracy is paralleled by that of the financial and industrial magnates. Moreover, these new aristocrats are just as unwilling to surrender their privileges. They have repeatedly vetoed such social reforms as have now been achieved and the fact that it was possible to break their control of France peacefully, by means of an election, is proof that democracy in France is still vital. But the leaders of the Front Populaire have every reason to be apprehensive of yielding an inch of their rapid gains as to hours of labor and wages, lest the power of the interlocking directorates, not yet by any means broken, should gradually recapture its former ascendancy.

Blum Had Declared Plans Before Election.

IN JUDGING the coming events it should be remembered that all the social reforms put through by the government were embodied in the platform on which the election was held. Mr. Blum did not improvise legislation, but adhered religiously to the program which he was selected to carry out. That these far-reaching measures were put into operation too quickly, as the opposition never tires of stating, may well be true.

This period of transition in which France now finds herself is not only chaotic, but very wasteful, but realizing the intensely parsimonious character of the French rentier, Mr. Blum probably decided that the operation would have to be as quick as it was painful. As one witty literary man remarked in summing up the situation: "The Frenchman's heart may be on the left, but his pocketbook is always on the right."

There is no doubt whatsoever that the French workingman will indicate clearly and swiftly that he does not appreciate the humor of the situation, if his new-found freedom is threatened in the near future by the loss of the only French government that has ever valiantly and successfully defended his rights.

Dr. Butler Predicts 4 Candidates for President in 1940

London, June 23 (U.P.).—There will be four candidates for President of the United States in 1940, Dr. Nicholas Murray Butler, president of Columbia University, predicted today. He said there was a distinct possibility the Chief Executive finally will be elected by the House of Representatives.

Butler predicted the finish of the Republican and Democratic parties and the evolution of two major parties. The most powerful would be a liberal-constitutional party, a combination of present liberal Republicans and conservative Democrats, whose purpose would be to accomplish needed reforms within the Constitution.

The second party would be composed of "all reactionaries, radicals and turbulents opposed to constitutional procedure."

Bishop's Attitude Dissolves Cabinet

Warsaw, Poland, June 23 (AP).—The Polish cabinet offered its resignation today in a controversy on whether the body of Marshal Joseph Pilsudski should be moved. President Ignace Mosciki, however, refused to accept the resignation.

Because King Carol of Rumania was expected to visit Pilsudki's grave next Wednesday, the Archbishop of Krakow decided to move the first marshal's body from the crypt of St. Lenore Cathedral to a tower of bells outside.

It was explained that the archbishop, a Catholic, refused to receive King Carol, who is head of the Rumanian Orthodox Church, inside the cathedral.

The president asked the archbishop not to transfer the body, but the archbishop refused to obey. When the refusal became known, Premier Feliciyan Slawog Skladkowski presented the cabinet's resignation.

Japan Considering New 5-Year Plan

Tokyo, June 23 (AP).—The war ministry submitted a five-year plan to the cabinet today for expenditure of 9,000,000,000 yen (about $2,520,000,000) to triple Japan's industrial capacity by 1943 as a defense measure.

The Latest Crisis Over Spain.

GERMANY AND ITALY have withdrawn from the four-power sea patrol of Spanish waters. But they have not withdrawn from the non-intervention committee. In some quarters this latter circumstance is viewed as a hopeful sign that the Fascist powers have not yet burned all their bridges behind them.

Once again, therefore, as after the Ibiza and Almeria incidents, Germany and Italy may be persuaded to rejoin Great Britain and France in the effort to stop the movement of foreign arms and fighters to the Spanish civil war. Once again the uncertain peace that has prevailed since the non-intervention plan was accepted by the nations of Europe may be preserved from disruption. Yet it would seem that even in the eyes of Downing Street and the Quai d'Orsay, which hitherto have been prepared to countenance almost any action by Germany and Italy regarding Spain so long as those powers rendered lip service to peace and non-intervention, the grim farce has run its course.

* * * *

WHAT IS THE latest Spanish crisis all about?

When Germany and Italy rejoined the naval patrol it was agreed that in the event of an attack on any ship belonging to the four participating powers the governments would consult as to the action that should be taken.

This stipulation, the result of British pressure on Germany, was designed to prevent another Almeria bombardment. As a quid pro quo Great Britain and France agreed to exclude Russia from the patrol and from any general negotiations concerning attacks on foreign ships by Spanish loyalists. In effect, therefore, the control agreement meant the replacement of an all-inclusive London committee on which not only Russia but many truly disinterested powers are represented, by a four-power grouping in which the Fascist nations constituted 50 per cent of the total.

That was about a fortnight ago. Since then, according to the Berlin government the German cruiser, Leipzig, was attacked by Spanish government submarines, fortunately with no untoward result. In retaliation for this alleged attack, Germany demanded that the control powers stage a naval demonstration off Valencia as a warning to the Spanish government.

* * * *

THE EFFECT of such a demonstration, had it been approved by Great Britain and France, would have been twofold. In the first place it would have meant the assumption of control of the non-intervention committee by the Fascist powers. Secondly, it might leave the way open for joint action against Loyalist Spain by the four control powers and thus transform non-intervention into active participation on the side of Franco. At least it would place the Valencia government in an acutely embarrassing position regardless of whether or not it had done anything to deserve it.

The British, for their part, urged delay. They rightly demanded proof of the German charges before any action be taken. But this only infuriated the Nazi regime. Wasn't Germany's word enough that the Leipzig had been attacked? Did Great Britain mean to suggest that the Berlin government had invented the charges?

When the British persisted in their reasonable attitude, the Hitler government struck out. Baron von Neurath was forced to cancel his intended visit to London where he had been invited to discuss with British statesmen the Spanish and other problems of international importance. Then Germany, together with Italy, proceeded to resume their "liberty of action" by withdrawing from the control scheme. At the same time the German fleet along the east coast of Spain was reinforced and it was let out in Rome that some 15,000 men were being held in readiness for service in Spain.

* * * *

WHAT NEXT? In view of what happened at Almeria, in view of the activities of the Fascist powers in Spain since the very beginning of the civil war, it is not surprising that the new situation is being viewed with alarm.

Almeria, like Guernica, was an illustration of how the totalitarian states wage peace. And with Almeria as a precedent, the possibility cannot be dismissed that the alleged attack on the Leipzig might be used as a pretext for a large-scale bombardment of Valencia or Barcelona or both.

A less likely possibility is the open intervention of the Fascist powers on the side of Franco. That might even persuade the American State Department that the war in Spain is no longer confined to the rebels and the loyalists and the Neutrality pact, perforce, have to be applied to Italy and Germany. And it might also lead to the complete disruption of the non-intervention plan with the powers now loyally observing this agreement free to send arms to the loyalists.

The fact is that from the very beginning of the civil war Italy and Germany have played cat and mouse with the democratic powers. Once again they may feel out those nations to find whether they are still as flabby as ever, as unwilling to strike back as they were at the time of the last lacerating thrust in their direction.

* * * *

THIS STRATEGY requires that the democracies be given a sop; that they be permitted to continue harboring the illusion of successful non-intervention regardless of what is happening in Spain.

Instead, therefore, of being a hopeful sign the circumstance that the Berlin and Rome governments are still represented on the London committee is distinctly ominous. It means that the Fuehrer and Duce want the other powers to go on observing an agreement they themselves have no intention, nor ever had any intention, of carrying out.

It is a completely cynical policy. But as long as the democratic powers are capable of being browbeaten its chances of success remain great. And with each such success the theremometer of Fascist truculence shows a disturbing rise.

Only on one occasion since the Spanish crisis began did France and Great Britain take a really strong stand. That was after reports reached Paris that Germany was colonizing Spanish Morocco with troops. Then there was an unmistakable gleam of bayonets behind France's strong warning to the Third Reich. It was a language Hitler understood; Germany backed down immediately. Maybe the Moroccan incident is now about to be repeated. But the outlook is dubious. Giving way to Italy and Germany has just about become a habit in Paris and London.

18th Century Novel

By William Lyon Phelps

"The Prince of Abyssinia."

Such was the title of a novel in two volumes with no author's name, published in London in 1759. Everyone at all likely to be interested in the book knew that the author was the great Samuel Johnson, who always signed his name Sam Johnson, but with the possible exception of his mother and his wife, no one ever dared to call him Sam—in that one respect unlike his great predecessor whom everyone called Ben.

* * * *

Although the title page said simply "The Prince of Abyssinia," the heading at the beginning of the first chapter was "The History of Rasselas, Prince of Abyssinia." Johnson wrote the whole story in seven successive nights, to get enough money to defray the expense of his mother's funeral. He sent the pages to the printer and did not read them until many years later. On June 2, 1871, when Johnson was an old man and was traveling in a carriage with Boswell, the latter took the book out of his pocket and "he seized upon it with avidity."

* * * *

I have just read through again this romance and find it full of wisdom; it contains some striking prophecies. Chapter VI, "A Dissertation on the Art of Flying," will interest modern readers. A flying machine is described, by which they hope to escape over the mountains; and when the inventor tells Rasselas he must work in secret and not let anyone know what they are doing, Rasselas remonstrates and says that this new invention should be known to all mankind, so that all can use it; whereupon the inventor wisely replies:

"If men were all virtuous," returned the artist, "I should with great alacrity teach them all to fly. But what would be the security of the good if the bad could at pleasure invade them from the sky? Against an army sailing through the clouds neither walls nor mountains nor seas could offer any security. A flight of northern savages might hover in the wind, and light at once with irresistible violence upon the capital of a fruitful region that was rolling under them. Even this valley, the retreat of princes, the abode of happiness, might be violated by the sudden descent of some of the naked nations that swarm on the coast of the southern sea."

Hull Tells Aim Of Government To Yale Alumni

Secretary of State Honored With Degree of LL. D., By University.

By the Associated Press.

New Haven, Conn., June 23.—Secretary of State Cordell Hull told Yale alumni today "the attaining of world peace and of improved and constantly developing economic relations among nations are the basic objectives of American foreign policy."

Hull coupled his discussion of foreign affairs with an outline of what he believes the Government's aim should be in domestic affairs.

Asserting that under our system "the type of life which individuals lead is determined by what a majority of them wants," he said the function of government is to protect the people, "to give them what they are entitled to collectively and to provide them with equal opportunity to secure what they are entitled to individually."

He added:

"These principles guide our Government more firmly today, I believe, than at any time for many years."

Thin Peace Fabric.

"The fabric of peace is dangerously thin in many places," he warned. "We should always be ready to make very practicable contribution to the cause of peace and to seek widespread acceptance of the vital idea that international disputes can and must be settled by other means than war."

The Secretary of State said the outlook was brighter for attaining the second of America's objectives in her dealings with foreign nations, asserting:

"Fair practices and equality of treatment, which are indispensable to a healthy development of mutually advantageous international trade and economic appeasement, have been seriously, almost catastrophically, curtailed during the past few years.

"Fortunately, the tide has now turned, and progress is being made, both here and abroad, toward restoring international trade upon a broad basis of mutual advantage and equitable treatment for all."

The university conferred its highest award, an honorary degree of doctor of laws, on Hull.

Author Is Honored.

Ten others, among them China's minister of finance, Hsianghsi Kung, and Stephen Vincent Benet, the author, received honorary degrees. In addition, the university conferred 1,147 degrees in course at its 236th commencement exercises, the last for President James Rowland Angell, who retires at the close of the academic year.

Like the American cabinet member, Dr. Kung, who 30 years ago received a master's degree at Yale, was made a doctor of laws. Benet, who was graduated from the university in 1919, was given the degree of doctor of letters.

Others given honorary degrees included:

Ernest Orlando Lawrence, physics professor at the University of California, doctor of science.

The Right Rev. Henry Wise Hobson, of Cincinnati, Ohio, Bishop of Southern Ohio, doctor of divinity.

Juan Terry Trippe, of New York, president of Pan-American Airways, master of arts.

President Angell said in presenting the degree to Hull:

"Honored citizen, distinguished statesman, ambassador of friendship and good will to all nations of the earth, in a time of perilous tension and destruction, you have rendered invaluable service to your country and to the world.

"In grateful recognition of your eminent career, Yale University confers upon you the degree of doctor of laws, admitting you to all its rights and privileges."

3,000,000 Coptics Ready to Become Catholics, Report

Rome, June 23 (AP).—Sources close to the ministry for Italian Africa reported today the Abuna Kyrilos, head of the Coptic Church of Ethiopia, was considering entering the Roman Catholic Church and bringing his 3,000,000 Coptic followers with him.

6,000 Veterans Riot in Belgium Over Amnesty

Bill Affecting Pro-Germans Is Bitterly Opposed by Ex-Soldiers.

By the United Press.

Brussels, June 23.—Troops, police and firemen were called out late today to quell bloody rioting outside the royal palace and Parliament that sent nearly 15 war veterans and four gendarmes to hospitals.

More than 6,000 veterans, most of whom came from the provinces, precipitated the riot when they demonstrated against the government's recent amnesty bill affecting Belgians arrested on charges of pro-Germanism during the World War.

The former service men two weeks ago filed past the tomb of Belgium's unknown soldier, ripped war medals from their breasts and flung them on the tomb. Today's demonstration was started at the same spot.

When they marched toward the houses of Parliament and nearby government ministries, gendarmes barred their way.

Fighting broke out, with gendarmes' sticks crashing down on the heads of the veterans.

Hundreds of the demonstrators broke through the police lines and ran toward the Royal Palace, shouting:

"Resignation of the government! Dissolution of the Chamber!"

Other groups broke the police cordons in the Rue Royale and reached Parliament where firemen waited for them with hoses.

As the streams of water poured on the veterans some of them skirted the fighting zone and slashed the fire hoses.

Several hundred mounted gendarmes arrived to drive the veterans from the Parliament square.

Senate Approves Bill to Revise Rail Pension Payments

By the Associated Press.

The Senate approved and sent to the White House yesterday a bill to revise the retirement law covering the Nation's 1,150,000 railway workers.

The bill—the Wagner-Crosser bill—which won House approval earlier this week, passed without a record vote.

Drafted in conformity with an agreement between class 1 roads and the 21 principal railway unions, the measure provides pensions up to $120 a month for employes retired because of age or disability.

The employes are specifically excluded from benefits of the social security act.

The agreement, reached in February on suggestion of President Roosevelt, settled litigation that tied up operation of a 1935 retirement act.

WE PROTEST

We protest to the people of Pennsylvania and to all other Americans the action of Governor Earle in his use of martial law in the city of Johnstown to close the Cambria plant of the Bethlehem Steel Corporation.

Let us make two things perfectly clear at the outset. We are not arguing for or against the unions. We are not arguing for or against the steel company. We take our stand in defense of two fundamental American liberties—the right of local self-government and the right of every worker to pursue his occupation peaceably, and within the law.

The present strike was called by the C. I. O. in spite of the fact that an overwhelming majority of Cambria workers did not want it. There was no dispute about wages, hours or working conditions. The Johnstown strike was entirely an organizing strike. It had as its object to force our workers to join the C. I. O.

We repeat, we are not against labor. The right to strike is as fundamental as the right to work and the authorities of Johnstown protected those men who went on strike in their legal picketing rights. But we would not tolerate interference with the majority of Cambria employees in their legal right to work.

We submit that the function of government is exactly that—the impartial administration of laws guaranteeing the rights of the individual.

IT IS NO PART OF THE FUNCTIONS OF AMERICAN GOVERNMENT TO FORCE—OR TO PERMIT ANYONE ELSE TO FORCE—THE INDIVIDUAL WORKER INTO SURRENDERING HIS CONSTITUTIONAL RIGHTS.

Up until last Saturday the situation was this: The Cambria plant continued to operate, and those men who wished to work continued to do so. Those who wished to strike continued to picket in the manner prescribed by law.

THERE WAS NO SERIOUS DISORDER, AND THERE WAS NO PROSPECT OF ANY.

The local authorities, with the cooperation of the State police, were in full control of the situation.

It was then announced that 40,000 mine workers, under the control of John L. Lewis, head of the C. I. O. and of the United Mine Workers, proposed to march on Johnstown and to hold a mass meeting at Faith Grove, just outside the city.

This was the excuse offered by Governor Earle in justifying his orders to close down the Cambria plant and to declare martial law in the city.

After his proclamation, after his open insult to the citizens and local authorities of Johnstown, the Governor was able to *persuade* John L. Lewis to issue orders countermanding the invasion of Johnstown by 40,000 miners.

Why didn't he declare martial law on John L. Lewis? Why didn't he order him to call off his army before throwing thousands of Johnstown citizens out of work? Why did he time his proclamation as he did?

We repeat, and we can not make it too strong, that we stand for American rights and government by law. We are neither for nor against any particular union, nor any particular steel company.

By the action of Governor Earle, the community of Johnstown is losing $500,000 in weekly payrolls. Thousands of workers must look for relief to the Federal dole. Because of a totally unnecessary strike and the political maneuvers of an ambitious governor, YOUR tax money will be used to relieve the distress of American workers who have jobs but who are denied the opportunity to work at them.

If this can happen in Johnstown, it can happen anywhere else. It can happen in your community unless you protest now to your elected representatives. If you are a Pennsylvanian, write Governor Earle at Harrisburg. If not, write your Senator or Congressman.

We appeal for funds to aid us in our defense of the right to work. Contributions should be sent to George C. Rutledge, Treasurer, Citizens' Committee, care the Johnstown Bank and Trust Company, Johnstown, Pa.

JOHNSTOWN, PENNSYLVANIA

Bob Burns Says:

Carelessness is a bad trait, but as long as you're only careless with your own affairs, it's really nobody else's business.

I had a careless cousin down home who got a job with a contractor who was puttin' up a big building. The contractor was very strict and everybody said my cousin wouldn't last three days with him. Sure enough, on the second day he was workin' on a high scaffold and he got careless and slipped and fell seven floors.

When he crashed to the ground, all the other workmen gathered around to see if he was dead or not, and my cousin looked up and said, "If the boss gets sore, tell him I had to come down here for nails, anyhow!"

THE FEDERAL DIARY

Reg. U. S. Patent Office.

By Scott Hart.

R. R. B. 375 Is Selected

Railroad Retirement Board Lodge No. 375, A. F. G. E., has been designated by the board as the agent to represent employes in matters of collective bargaining, it is announced. Joseph L. Burke, the lodge president, has received this notification over signature of R. B. Bronson, the board secretary.

"The board recognizes the right of its employes to organize and to be represented by the agency of its choice.

"On authority of your letter, advising that more than 50 per cent of the active employes of this board are members of Railroad Retirement Board Lodge, No. 375, that lodge will be recognized as the agency the employes have selected to represent them, except in the case of employes who have been or who may be denied membership in the lodge. The board will treat with such employes as it may deem appropriate.

"It is assumed that all employes not now members are eligible to apply for membership in your lodge."

This brings up the interesting speculation of how many of the lodges now affiliated with the C. I. O. will make a bid to become the bargaining agent in their agencies. Generally, if not always, the department heads agree to treat with the employe organization having the largest number of members or which is thought to be the most representative of the employes as a whole. This may be brought to issue by any two or more contending groups and left to the determination of the Labor Relations Board, which calls an election.

Whatever became of that "protest and appeal" the five ousted A. F. G. E. lodges, later the Inter-Union Council, later a part of the United Federal Workers of America (C. I. O.), filed with the executive council of the American Federation of Labor? They referred to the executive council of the A. F. G. E. in all sorts of sharp ways and demanded an investigation. But, anyway, what could come of it now, in the light of the recent hurried developments?

The data sheet on Jacob Baker, president of the provisional organization, United Federal Workers of America, lists him in a lot of big jobs. But also he is said to have been a common laborer, a miner and a worker on survey gangs and on ranches. There is nothing unusual about this, except that it is a little difficult to imagine the suave Baker at work with a laboring gang.

Nomination for the biggest smile of the month: The smile that was worn by Henry Rhine when A. D. Lewis was announcing the formation of the United Federal Workers of America.

• • • •

And incidentally, A. D. Lewis seems to reach decisions with the same quick facility for which his brother John is renowned. Only a very small trace of a far-away look comes into his eyes and he gives an answer.

Add tribulations: Taxpayers frequently complain that income tax returns are abominable puzzles. But the Internal Revenue Office points out that the taxpayers themselves can present puzzles. The following letter is a case in point:

"I notice I have made an error by putting 'one employed' in the wrong space and it may also appear that that one might be one of the two recorded. It isn't—she is a third."

That public speaking course the Farm Credit Club engaged in during recent months was such a success members have decided to continue during the summer. The first summer meeting, without the instructor, was held Tuesday night. The club had a remarkable record of success with the course during the spring.

Firemen to Unveil Marker for Tom, Last of Fire Horses

Old Tom, last surviving fire horse of the District, whose death occurred some weeks ago at the age of 27 in the pastures of Blue Plains, will be honored tomorrow in ceremonies at which a monument to him will be unveiled.

Firemen off duty will attend in full uniform to pay homage to their comrade of yesteryear. The monument is to stand over Tom's grave at Blue Plains. It is of Indiana limestone, much in the form of an ordinary marker, and tribute to the intrepid steed will be inscribed on it.

Funds for the monument were raised by the men of the department. The public, and especially school children, have been urged to attend the rites. Similar ceremonies and markers are being planned later for Tom's two cronies, Gene and Barney, who preceded him in death.

Seal to Seek 'Loan Shark' Law Change

D.C. Lawyer to Abandon Idea of Uniform Measure.

Amendment Is Directed Against 'Bootleggers' of Money.

After seven years of futile effort to secure a uniform small-loan law for the District, the corporation counsel's office is ready to abandon the idea and to seek amendments to the inactive "loan shark" law of 1913, it was learned yesterday.

A bill designed to put teeth into the old statute and to give the District a means of getting at the procurer who serves as the go-between will be submitted to the Commissioners Tuesday by Elwood H. Seal, corporation counsel.

"With the wide divergence in points of view concerning loan laws here, there is not a chance in the world of getting through a small loan law. We've been trying it since time immemorial.

"Under the present law we have no access at all to books of the procurer nor to any of the small-loan operators unless they are licensed. Since only three are licensed, it is obvious that we have small legal support for some of our efforts," Seal said.

The 1913 law prohibits lending of money for more than 6 per cent interest a year without a license. It limits lending charges by persons or companies with licenses to 1 per cent per month, including all fees and other charges. The amount that can be borrowed under the latter provision is limited to $200.

It has been argued repeatedly in Congress that the 1 per cent rate is too low, in view of the risk involved when making small emergency loans, and that it leads to wholesale "bootlegging." The fact that only three companies "have tried to meet its provisions by securing licenses" has been used as proof of this.

The "bootlegging" has been accomplished often by means of a procurer who advertises that he can secure loans for his clients. He charges for the procuring and adds his charges to the loan.

"Then he adds four or five items of expenses. All these, plus the interest which the man who furnishes the money gets, fixes it so that the client is paying something like 50 per cent on his loan—sometimes even more," Seal said.

Collusion Suspected.

The counsel stated that his office has every right to believe that most of the procurers are directly connected with the finance companies and acting as their agents. It is estimated that there are more than 75 such companies—and many more procurers—operating in the District.

Most of the bills seeking a new law have asked for a 2 per cent per month rate of interest. The Russell Sage Foundation has taken the stand that the rate should be 3½ per cent per month, as it is in Maryland and Virginia.

Every year the proposed bill has been defeated in a Congressional squabble, and while the contending elements have failed to reach an agreement District officials have been unable to obtain convictions in the cases they have brought to court.

In April of this year more than 100 complaints were in the corporation couunsel files, made by persons who alleged they had been victimized by loan companies and their co-operating procurers and repossessors.

The "automobile snatching racket" is claimed to be one of the most pernicious thriving under the loan laws. A typical case is that of a man who had to borrow $150 to meet a hospital bill. To secure the money, he "turned over" his car—on which he still owed $387.20. When he had secured his money from the refinancing company he had agreed to pay $521, plus 6 per cent interest.

Repossessors Seize Cars.

He failed to meet one of his payments promptly. The "repossessors" were waiting for such a failure. They trailed him from his home to work, watched where he parked, and after he had gone took "their car" and drove away. The "repossessor," the counsel claimed, by this means, engaged in detective work.

Chester H. Gray, Assistant Corporation Counsel who has been in charge of much of the recent litigation growing out of automobile complaints, said often the glass of the car door was broken in order to gain admittance and that articles left inside often were reported missing.

Another common way to operate a financial agency, according to Gray, is to run it in connection with a clothing or other mercantile establishment.

"The purchaser of a suit is asked if he wishes to borrow a little money, say $20. He is delighted with the opportunity to get hold of some cash and thinks it would be swell to pay it back at the rate of $3 a week. By the time he signs up for his suit and his cash, he has promised to pay many times the original amount.

"He signs a long contract, which he rarely reads—and which he could not understand if he did—and his future pay checks are thereby put into jeopardy. Every time he has to 'straighten things out' with the company he has to pay added 'expenses.'"

D. C. Police Hunt Lorton Fugitive

Another escape from Lorton yesterday sent police to the Second Precinct where the convict formerly lived. The fugitive, James A. Hicks, colored, 18, was a trusty serving one to three years for housebreaking and was committed in March.

Hicks' escape is the second from the institution since April when Walter Forbush and James Walsh, members of the "blackface" gang, escaped.

Auto Crashes Kill One Man; Hurt Two Boys

Youth, 16, Arrested as Hit-Run Driver After Collision.

A colored man died in Garfield Hospital here yesterday of injuries suffered in a Maryland collision and two children were hurt in local traffic accidents.

The dead man was Alphonso Jackson, 29, of 3113 Eleventh street northwest. Police said Jackson's car ran off Rockville Pike near Bethesda, Md., and when it was pulled back by a tow truck both cars were struck by another automobile. Jackson was crushed between his car and the tow truck.

Paul Farley, 11, of 106 Edmonston road, Hyattsville, Md., was injured critically when his bicycle was struck by an automobile near his home. The driver fled.

Physicians at Washington Sanitarium, where Farley was taken after first aid, said they thought he had a punctured lung. He has a chance to recover, they said.

Later Edwin Walker, 16, was arrested and charged with hit-and-run driving, driving without a permit and reckless driving. He was released under $1,000 bond.

Five-year-old James Spartas, 908 Fifth street northwest, was treated at Casualty Hospital for a bruised spine and lacerations when he fell from a truck at Fifth and K streets northwest. Police said the boy "hooked a ride" on the truck driven by Frank J. Sitzler, 43, 5827 Colorado avenue northwest. Doctors said James was not injured seriously.

Kenneth Lingle, 5, of 56 Rhode Island avenue northeast, ran into the side of a car while playing at First and T streets northwest. Kenneth was taken home for treatment of minor cuts.

One driving permit was revoked and seven others suspended for temporary periods yesterday by the revocations board.

Charged with speeding 60 miles an hour, Gene L. Douglas, Independence, Mont., had his right to drive in the District revoked.

Indefinite suspensions went to Walter N. Fess, 1034 Bladensburg road northeast, and Chester O. Sydnor, 1928 Fourteenth street southeast, for driving at 55 miles and 50 miles an hour, respectively.

Charles E. Kuhn, Hyattsville, Md.; Ralph W. VanPossen, Kensington, Md., and Charles C. Williams, Somerville, N. J., also had their licenses indefinitely suspended.

Thirty-day suspensions were received by Ryel I. DuBin, 4659 Massachusetts avenue northwest, 50 miles, and William M. Yates, 5909 Silic Mill road northwest, 36 miles, second offense.

D. C. Girl Receives Letter Retrieved From Air Wreck

A promise seven months old was kept yesterday when Marie Rolle, 11, of 228 Cromwell terrace northeast, received an air mail letter from her friend Margaret Rudd, of Las Vegas, Nevada.

Early last December Miss Rudd left Washington with her parents, promised to write soon. She posted her letter December 14, 1936. When it arrived yesterday it carried the stamp, "Delay due to Air Mail interruption near Salt Lake City, Utah, December 15, 1936."

The letter was lost when the Western Air Liner crashed on a mountain top in a storm. In perfect condition, the letter was found recently among the scattered wreckage.

Fire in Doctor's Office.

Fire of undetermined origin yesterday evening did an estimated $2,000 damage to the office of Dr. Nathan J. Helfgott, in the Columbia Medical Building, 1835 I street northwest. The flames started several hours after Dr. Helfgott had left for the day. Practically all of Dr. Helfgott's equipment was destroyed, firemen said.

Indian Association Initiates D. C. Boy As 'Flying Eagle'

Robert Grigsby, of 5201 Colorado avenue northwest, last night received the name of Flying Eagle at his initiation into Tokahe, an organization fostering Indian lore and civilization.

The first group of Tokahe was formed in Colorado, and Chief One Horn Buffalo and his wife, Red Fawn, have come to Washington to organize other troops. They are being aided by High Star, a former United States Army scout.

The association has the backing of the Veterans of Foreign Wars, the Council of National Defense, the General Federation of Women's Clubs and the United States Indian Office.

Citizens' Group To Assail Plea For Fare Boost

Federation Will Present 12 Witnesses at Hearing Today.

Spirited debate on Capital Transit Co. proposals to increase street car token fares is expected today when William McK. Clayton, public utilities chairman of the Federation of Citizens Associations, presents a dozen opposing witnesses before current hearings at the District Building.

Clayton will be joined by Louis I. Obergh, counsel for the Federation of Citizens Associations, in a determined battle against the transit company's petition. Their witnesses also are expected to advocate a straight 5-cent cash fare and return of the $1 street car pass.

Meanwhile, Capital Transit Co. officials yesterday challenged figures recently presented at the P. U. C. hearing predicting increases in revenue passengers and net operating income. The prediction came from B. K. Bachman, P. U. C. chief accountant.

He estimated the company's passenger revenues for 1937 would total $11,104,600 and placed the net operating income for the 12-month period ended April 30 at $1,650,000, an increase of $900,000 over the same period last year.

E. D. Merrill, president of the transit concern, said the figures were "far beyond anything which the company has hoped for." General debate concluded with a commission ruling that Bachman "break down" his estimates in a month-by-month comparison.

Bachman included in his figures anticipated business when the 30,000 Boy Scouts arrive here for their Jamboree.

Steamer Brings 6 Back to D.C. After Fire Sweeps Boat

Capt. Homer B. Millard, headmaster of the Millard Preparatory School, 1914 N street northwest, Mrs. Millard and four members of the crew of their 85-foot schooner Cachalot were to return to Washington this morning aboard the steamship District of Columbia.

The schooner, which was only a few months old and valued at $25,000, was destroyed by fire early yesterday in Chesapeake Bay near Norfolk. The Millards and the crew escaped from the burning vessel in a small boat and were picked up by the Norfolk and Washington steamer at 1 a. m.

The blaze started from a backfire of the engines and was so strong that those aboard were unable to save any of their belongings. Millard came off in his bathing suit. The party was en route from Washington to Solomon's Island when the fire started.

Fulk Ordered Acquitted in Murder Case

Insufficient Evidence in Maier Killing, Justice Declares.

Holding there was insufficient evidence to connect Elmer Fulk, 39, with the slaying of Mrs. Mary Maier, Justice F. Dickinson Letts in District Court late yesterday directed a jury to acquit him on that charge. The court stipulated that the charge of attacking Mrs. Maier, now pending against Fulk, should be submitted to the jury.

Attorneys for Alonzo Turner, indicted with Fulk on both charges, sought a similarly directed verdict on the murder charge for him also. Justice Letts, however, ruled there was a sufficient case against Turner to require a jury verdict on both charges.

Prosecution testimony was concluded late yesterday, Justice Letts in an effort to expedite the trial, required the defense attorneys to make their opening statements to the jury last night. Taking of defense testimony will be begun today. Fulk and Turner are alleged to have attacked Mrs. Maier, 30, in a woodshed in Southwest Washington several months ago. In addition to the criminal assault charge, which the prosecution contends was proven by the wounds found on Mrs. Maier, she was also alleged to have been subjected to an internal injury that caused her death in Gallinger Hospital three days later. The trial may end late today.

Washington Tops 50 American Cities In Living Expenses

Washington tops a list of 59 selected cities in respect to living costs, according to figures disclosed yesterday by Dr. Howard B. Myers, director of the social research division of the Works Progress Administration.

A family of four must pay $27.20 a week for housing, food and other expenses in the District, as compared with $25.01 a week in Baltimore. The annual difference in living costs between Washington and Baltimore is $113.89.

The figures are for low-income laborers and low-salaried clerical workers, Dr. Myers explained. "They do not provide what may be considered a satisfactory American standard of living."

At the bottom of the list of the cities included in the survey is Mobile, Ala., with $21.73 a week. The annual cost of living in more than half of the cities fell between $1,200 and $1,300. In Washington the annual cost is $1,414.54. The survey was conducted in 1935.

Dr. Myers attributes the high costs in Washington chiefly to high rents, caused by the rapid increase in the population here during the last few years and the corresponding housing shortage.

Judge Curran Indorses Bill For Defender

Public Attorney Should Be Named by President, He Urges.

Frank R. Jelleff's Favorable Letter Is Received.

Further indorsements of the Scott bill to set up an office of public defender in the United States District Court in Washington were recorded yesterday at a second hearing before a subcommittee of the House Judiciary Committee.

Police Court Judge Edward M. Curran testified in support of the measure although he recommended an amendment to make the public defender an appointee of the President.

Judge Curran stated the poor defendant is not fully protected in court, despite the activity of the Legal Aid Society, organized by the District Bar Association. The latter, he said, confined its services to domestic relations and landlord-and-tenant cases.

Benjamin C. Bachrach, public defender for Cook County, Ill., said millions of fees had been saved the residents of his county by the office. He suggested that the official be appointed by a majority of the court.

Johnson Stoddard, public defender of Fairfield County, Conn., also spoke in behalf of the bill.

A letter of indorsement was received by the committee from Frank R. Jelleff, a member of the District Parole Board.

The hearing was adjourned subject to call by Representative Weaver (Democrat), of North Carolina, chairman of the subcommittee. Opponents probably will be heard at the next session, he said.

No effort is being made to have the bill passed at the present session.

Three Men Bailed Here for Hearing In Gaming Cases

Three men were held under bonds for later hearings on gambling charges yesterday and three others had charges against them nolle prossed by United States Commissioner Needham C. Turnage.

William James Poindexter, colored, 24, was charged with operating a lottery after police raided a grocery store in the 2100 block Tenth street northwest.

Turnage held Poindexter for the grand jury when he pleaded not guilty and waived preliminary hearing. He was released under $1,500 bond.

Charges of conspiring to violate gambling laws were dismissed against Carl H. Barlow, Phil Samakow and Robert L. Moler yesterday upon the recommendation of the district attorney's office when it was determined that there was insufficient evidence in the cases.

Two men seized in a "numbers" raid Tuesday were released on $1,500 bond each for hearings July 8. They were held on lottery counts after a raid at Twenty-third and M streets northwest. They are Barney Susser, 38, 1100 block Twenty-third street northwest, and Benjamin Kolodin, 38, 1200 block Oates street northeast.

Victim of Bandit Reported Better

As police attempted to locate his assailant through laundry marks on a discarded shirt, Max Dischter, 52, who was shot in a hold-up Tuesday night, was reported improved in Sibley Hospital last night.

Dischter was shot in the side by a bandit who attempted to rob him in a grocery store at 127 L street northwest. When the robber entered, Dischter hurled the porcelain top of a scales at him.

The bandit fired at the groceryman and fled in an automobile.

Detective Sergt. John Daiglish yesterday was checking a laundry mark found in a shirt outside of the store door. He believes the shirt might have been discarded by the fleeing gunman.

Death Comes For 'Mother' Of Prisoners

Miss Washington, Colored Convicts' Comforter, Dies at Home.

A sweet chariot swung low last night for "Mother" Washington and carried her to the land for which she had prepared many of the colored convicts who died in the electric chair at the District jail.

"Mother" Washington, in her late fifties, was christened Alice Gertrude Washington when she was born near Charlotte, N. C. For 36 years she had been associated with welfare work among colored prisoners, and at the time of her death, after a four-week illness at her home, 619 Gresham street, she had walked the "last mile" singing hymns into the death chamber with 26 condemned men.

She was assistant to the Rev. James L. Pinn, in charge of colored religious work at the jail.

To colored prisoners who were released she gave aid and comfort. Often she found them jobs. Her first service was under the late Rev. John Roberts, whose successor was Dr. Pinn.

The last electrocution at which "Mother" Washington appeared was dual—and the men who died with the songs she sang still in their minds were Willie Marcus and John Cummings some weeks ago.

A life-long member of Friends Baptist Church, "Mother" Washington's funeral will be held there Saturday afternoon at 1 o'clock, followed by burial in Fort Lincoln Cemetery. Attending the services will be hundreds of colored persons who never forgot the lessons "Mother" Washington taught.

She is survived by a son, Herman Washington, and two grandchildren.

Citizens Group Opposes Levy On Chain Store

Committee Calls Measure 'Disguised Sales Tax,' 'Reactionary.'

The Citizens Committee on Fair Taxation last night joined the ranks of those opposed to the chain store tax. The group, which is composed of representatives of about 20 citizens associations and Government employe unions, condemned the proposed measure as "a disguised sales tax and a reactionary measure."

The consensus was that the tax would be passed on to the consumer and would result in higher food costs.

The increased real estate tax was discussed but no formal action was taken. The committee's three-point program, adopted at its last meeting, includes a corporation profits tax of 7½ per cent, a personal income tax on District residents and an inheritance tax.

It is estimated these three measures together would raise $7,800,000 and thus cover the deficit in the fiscal supply bill.

Alex G. Nordhelm, chairman of the committee, will speak on the radio Saturday morning in behalf of the program.

The committee was organized a month ago for the purpose of opposing "any type of sales tax or any form of tax not based on ability to pay."

Camp Spring Site Is Likely For Airport

Maryland Field Believed Chosen for Altitude, Runway Space.

Area Is 11 Miles From Downtown; Elaborate Plans Drawn Up.

A site near Camp Spring, Md., about 11 miles from the heart of Washington, probably will be recommended as the location of Washington's new airport by the nine-man airport commission early next week, it was learned last night.

What may be the final meeting of the commission is scheduled for that time, according to Senator King, its chairman. Other members of the committee, it is learned, have favored a plan to make an announcement "within the next few days."

The Camp Spring site, according to authentic sources, was strongly favored by a majority of the commission at a recent meeting. Although the present Washington Airport and the Gravelly Point site have been favored by various members, a majority of the members believe neither of these sites is large enough to care for the giant planes and heavy traffic of the future.

4,000-Foot Runways.

The Department of Commerce is expected to prescribe 4,000-foot runways for major fields within two or three months. The present airport cannot extend its north-south runway to that length without considerable filling and excavating. Gravelly Point is further handicapped by proximity to Bolling Field and the Naval Air Station, each with a heavy burden of military air traffic.

Camp Springs was finally favored after a thorough survey of nearby Virginia and Maryland. The terrain there is fairly level, and comparatively little grading and filling is necessary to provide mile-long runways. Moreover, the land is fairly high—well above the floods that have harassed Washington Airport—and fog rarely will interfere with landings and take-offs.

Elaborate Plans.

Although members of the commission have kept strict silence regarding the site, it was learned plans will be drawn up to place Washington's new airport on a par with the finest in America and Europe.

There will even be provisions for mooring masts and other dirigible equipment, although their construction will not be undertaken at the outset.

Options have already been taken on the Camp Springs location, adjacent to the Southern Maryland pike, and several others.

According to a provision of the act appointing the commission, members are prevented from discussing their actions except among themselves.

Child Killed in Crash.

Fredericksburg, Va., June 23 (AP).—Frank Lambert, jr., 2, of Richmond, was instantly killed in a two-car collision 15 miles south of here on State Route 2 today about noon.

British Royalty Dominated Broadway Last Season With Helen Hayes' Victoria and Evans as Richard

Analogies Can Be Traced Between Past and Present in Lives of English Sovereigns; De Mille as an "Extra;" Errol Flynn's Mustachios Will Win Guest Tickets; Variety Notes; News Items of the Theater.

IT is interesting to note with what peculiar tenacity English royalty dominated the New York theatrical stage this past season, just as it did the British political stage.

While the events surrounding Edward's VIII's abdication of his kingship because of "the woman I love," and his brother's succession and coronation as George VI, claimed the attention of the world, their great-grandmother, Queen Victoria, in the person of Helen Hayes, and their more remote ancestor, King Richard II, portrayed by Maurice Evans, achieved the two great acting triumphs of the metropolitan season.

BELL.

And now these two plays, with their brilliant stars still heading the original casts, are going on tour to make the country at large conscious of the imposing drama that reposed in the careers of two of Britain's most famour rulers. From next October to May, their Royal Majesties Richard and Victoria will hold court in every important city in the United States.

There is a considerable similarity between the careers of Kings Richard II and Edward VIII which makes revival of the Shakespeare play this year particularly timely. Both kings abdicated, although Richard's reason, unlike Edward's, was not the love of a woman, but because of the powerful usurper, Bolingbroke, his cousin, who succeeded him as King Henry IV.

The stirring events leading to Richard's resigning his scepter and the tragic incidents of his treacherous murder form the story of the play.

If you watch carefully while watching "Last Train From Madrid," opening at Loew's Capitol tomorrow, you may see the great Cecil B. De Mille, apostle of the golden bathtub, acting as an extra. It came about accidentally. De Mille owns a beautiful Spanish type bungalow on the Paramount lot which he uses for an office. It was commandeered by Director James Hogan for one of the street scenes, but before he was permitted to use it, he had to promise the owner that his daily business routine would not be interrupted. Hogan went ahead with the business of taking the picture in front of the bungalow when De Mille suddenly emerged on his way to lunch. The cameras kept on grinding and De Mille kept on walking and almost immediately merged with other "passers-by" called for by the script. But he is in there, if you can find him.

Since his appearances in "Green Light," "The Charge of the Light Brigade" and "The Prince and the Pauper," Errol Flynn has become one of the cinema's top flight "matinee idols." His fan mail has grown tremendously and practically everyone who writes him wants a photograph. Some specify a picture with a mustache; others, without.

With letters thus favoring or opposing the Flynn mustachio pouring in daily, the Warner Brothers Studio is anxious to get as many reactions from the public as possible in the matter, so that a "to be or not to be" decision can be reached before his next picture. Washingtonians are asked to express their opinions and guest tickets to see "Another Dawn," opening tomorrow at the Earle, will be sent those who write the best letters. All letters will be forwarded to Flynn at the Warner Studio, along with the figures on the total Capital vote.

All that needs to be done is write a brief letter to Errol Flynn and mail it to him in care of the Earle Theater, Washington, before midnight Saturday. Since this is a city-wide canvass, mention must be made of the local paper in which this offer was seen.

A pair of guest tickets to "Another Dawn," in which Flynn wears a mustache, will be sent to the writers of the five best letters from each of the five local papers, or a total of 25 pairs of free admissions. And may the best man win is what I always say.

Variety Club notes: Three new members were elected to the board of governors at the last business luncheon of the club—Hardie Meakin, Archie Engel and Harry E. Lohmeyer. At the last board meeting it was unanimously resolved to continue the practice of the "Annual Show Boat Cruise"—Harry Lohmeyer was named Head Skipper. In connection with the club's charity boxing show, scheduled for Tuesday, July 20, with Freddie Steele, middleweight champion, as the chief attraction, a souvenir program will be issued, under the direction of Hardie Meakin. This show is being sponsored also by The Washington Post and will be the biggest event of its kind the Capital ever has seen.

It is no wonder that Glen Echo Park ranks with the foremost open air amusement centers in the United States. Managing Director Leonard B. Schloss never is content to "let well enough alone," but always is in the market for new ideas and new attractions.

Edward Schoeppe, of Philadelphia, nationally known park designer, who built the Crystal Pool and the Spanish Garden Ballroom, was a recent visitor at the park, conferring with Mr. Schloss for the purpose of perfecting details for a new 1938 feature, tentatively designated as the "World's Water Cruise."

Plays "Heart Interest" in Comedy

In Joe E. Brown's new comedy, "Riding on Air," which opened yesterday at RKO-Keith's, the leading feminine role opposite the star is played by Florence Rice, pictured above. Miss Rice is the daughter of Grantland Rice, noted sports commentator and short-reel "Sportlight" producer.

Contract Bridge

By Mrs. Ely Culbertson.

The bidding philosophy of many players is diametrically opposed to logic. They seem to feel that if they pass on the first or second rounds of bidding, they are then entitled to enter the auction on comparatively poor hands. Their "reasoning," I suppose, is that their previous passes have conveyed a warning to partner and that they can now enter the arena with no fear of being raised. Whether this is true or not is not at all important—the point is that, though partner may be in the correct subdued condition due to the previous passes, the opponents are under no such prohibition and can double a two or three bid much more readily than they could have doubled the one bid. South's bidding in the hand shown below is typical of the unprepared, impulsive bidder.

East, dealer.

Both sides vulnerable; E-W 30 part-score.

	♠ 9 7 ♡ 8 6 ◇ J 9 8 7 3 2 ♣ J 10 6	
♠ K 6 5 3 2 ♡ A K J 9 ◇ K 6 ♣ 7 4	North West East South	♠ A Q 4 ♡ 7 2 ◇ A 5 4 ♣ K 9 8 3 2
	♠ J 10 8 ♡ Q 10 5 4 3 ◇ Q 10 ♣ A Q 5	

The bidding:

East	South	West	North
1 ♣	Pass	1 ♠	Pass
2 ♠	3 ♡	Dbl.	Pass
Pass	Pass		

The opponents had very little difficulty in defeating South's atrocious bid six tricks for a 1700 point penalty. The best South could do was to take two clubs and one trump trick.

Now, let us consider the difference that would have been created by a logical overcall on South's part. Surely it should have taken no great vision for him to have realized that the only cheap bid he would be able to make was over the opening one club bid. Even one heart would have been a risky bid measured by the Rule of Two and Three, but would have been excusable because of opponents' part-score. West, undoubtedly, would have doubled one heart but at that level North might have taken a hand in the proceedings. It would have been obvious that his hand was worthless with hearts as trump and, therefore, it would have been worth the risk of increasing the contract to try out a two diamond bid. As a matter of fact, neither opponent could have doubled two diamonds with any degree of certainty, and even if they had doubled North would have gone down only one trick.

South's criminal procrastination, therefore, not only resulted in his entering the bidding at a ridiculous level but also silenced his own partner, who could have saved something out of the wreckage by playing the hand in diamonds. Obviously, North could not enter the bidding at the four level.

In Hollywood

With JIMMY FIDDLER

Hollywood, June 23. — Settin' Around (Paramount): This is the oldest studio in Hollywood. I never walk through its gates without rubbing elbows with the wraiths of former Greats. I find myself remembering . . .

LILY PONS.

The day I lunched with Rudolph Valentino and Agnes Ayres and Rudy laughed about a fortune teller's prediction that he would die young . . . How they carpeted the studio entrance with roses for Gloria Swanson's triumphant return from Paris with her new marquis (he is Connie Bennett's now) . . . The teas Elinor Glynn used to give, and the chubby, atrociously dressed red-head that Elinor dubbed the "It Girl" . . . Wallace Reid's collapse on the set and the incredible rumor that he was a drug-addict . . .

The daily ceremony with which Pola Negri's special hors d'ouvres were served . . . William Farnum's boast that he would retire wealthy (he did—but he's down and out now) . . . Bebe Daniels and her sporty roadsters . . . Jacqueline Logan and the leopard cub she led on a leash . . . Sigrid Holmquist . . . Percy Marmont . . . Lila Lee . . . Thomas Meighan . . . Theodore Roberts . . . Aileen Pringle who shocked Hollywood by actually reading books . . . Julia Faye and Elliott Dexter and Leatrice Joy.

Some are dead now. Others have sunk so deep into professional oblivion that fans have forgotten them. These are the ones who excite my imagination. It must be a disconcerting experience to become a ghost so soon after being an idol. No wonder they haunt this old studio and keep intruding into a column that should be devoted to the stars of 1937 — who will be ghosts themselves in another decade.

Chatted with Mary Livingston, who is making her screen debut in "This Way, Please" and professes to be a bit bewildered by it all. Like every newcomer, she is irked by the tedious delays between scenes and by the way the director hops, skips and jumps through the scenario, shooting a first-reel scene one minute and a final fade-out the next. "There's no more reason, and much less rhyme in it than one of my poems," she told me. I asked how she avoided the much talked about operation to remodel her nose. "I'm not sure I did," she countered. "True, I don't remember an operation, but I saw my first 'rushes' today—and I don't look familiar to me."

On the set where Ray Milland and Frances Farmer are playing in "Ebb Tide," I watched a professional rifleman shatter a whiskey glass within an inch of an actor's hand. After the scene was "in the can," Milland set another glass on the table, picked up the rifle and duplicated the feat with even more casual ease than the professional had displayed. Few people know that Ray was once the small arms champion of the British army and that he earned his living for a time by doing trick rifle and revolver shooting in one of the English movie studios.

Not since the Olympic Games have I seen such a hodge-podge of nationalities and accents as I encountered today on the set where Marlene Dietrich is starring in "Angel."

Ernst Lubitsch, the director, is a German Jew; the Dietrich and Erich Locke are German Nordics. Franceska Gaal, on the set to study American methods, is a Hungarian; the orchestra leader is Italian, the bus-boys (it was a cafe scene) are Orientals; the assistant director is a Frenchman from Belgium; Herbert Marshall is English; the script girl is Spanish and several of the musicians has "skis" on the end of their names. Fidler made it one hundred per cent—I am mongrel.

An IMPORTANT MESSAGE To Lovers of Fine ENTERTAINMENT!

An important experiment has been conducted at this theatre during the past week. A road-show picture—"CAPTAINS COURAGEOUS"—had its premiere at our regular POPULAR PRICES at the very moment that this great production was in the midst of its triumphant run at the Astor Theatre in New York at $2 prices.

As we expected, the experiment was overwhelmingly successful . . . Crowds stormed our theatre day in and day out, well aware that they were witnessing an event of extreme importance as well as a remarkable motion picture. They agreed that three great stars—Freddie Bartholomew, Spencer Tracy and Lionel Barrymore—had created roles for which they would long be remembered. They hailed this picture as one of the outstanding motion pictures of our generation. And critical acclaim was unprecedentedly enthusiastic.

For the many thousands who, for one reason or another, have been unable to attend—we are happy to announce that we have been able to postpone our program of important coming attractions so that "CAPTAINS COURAGEOUS" may be held over for another week.

Held over for it's 2nd TRIUMPHANT WEEK!

'Riding on Air' Shows Star in His Best Form

Joe E. Brown Riot of Fun in New Comedy Opening Yesterday at RKO-K.

By Nelson B. Bell.

"RIDING ON AIR," RKO-Radio picturization of the "Elmer Lane" Saturday Evening Post stories by Richard Macauley, adapted to the screen by Richard Flournoy and the author, starring Joe E. Brown, with Florence Rice, Guy Kibbee, Vinton Haworth, Anthony Nace, Herlan Briggs, Andrew Tombes and Clem Bevans. Directed by Edward Sedgwick. Reviewed Wednesday afternoon at RKO-Keith's.

This giddy subject deserves to be bracketed with "Earthworm Tractors" as one of the funniest comedies Joe E. Brown has had in many months.

The story of "Riding on Air" follows a cumulative course of high hilarity and finds its star equipped with a few new tricks that make for almost continuous laughter. It begins placidly enough with Elmer Lane ensconced in the editorial chair of the Claremont (Wis.) Chronicle, which he writes, prints and delivers, single handed. Elmer is a lad with an infinite capacity for doing the wrong thing at the wrong time and getting himself into an unbroken succession of disturbing situations from which he always emerges on top. He is the village dunderhead who flounders about through life guided by the goddess of luck.

There is a good deal going on in Claremont. Perfume is being smuggled in by airplane and bootlegged to the market; Elmer's pal invents a radio beam for the guidance of planes; a swindler comes to town and markets the Radio Beam Airplane Co. stock; a dead body with five bullet holes in the back is discovered at the edge of the city, and so it goes.

Proves Super-Sleuth.

In all of these disturbing developments Elmer plays a leading and a blundering part. His troubles are doubled when he becomes county correspondent for a Chicago newspaper which already has a rival in the field in the person of Harvey Schumann. Among other bright things, Elmer delivers pictures of the tragic body found in the woods to the wrong paper in Chicago and incurs the slight disfavor of his boss. Then he evolves a number of bizarre theories with regard to all the strange cases with which he has come in contact—and in the end flies down the smugglers, demonstrates the efficiency of his friend's invention, sells it for $10,000,000 and returns a hero.

In the meantime, he has been having a great deal of heart trouble. Disgusted with his constant lunacy, Betty Harrison, the only girl, transfers her affection to Schumann. But that all comes out right in the end, too.

The star grows increasingly amusing as the picture progresses. Some of his sequences are gems of crazy comedy, as witness the winning of a $5,000 first prize for the best essay in a radio contest and his dashing through solid board fences in his haste to tell Betty about it; the bathtub scene, in which a lot of gadgets perform unusual and convulsing services — the automatic back-washer, the self-operating towel, the leaping soap and the shower curtain that turns out to be a bathrobe—and finally the flying sequences in which Elmer does marvelous and unheard things in the air, bringing down the smugglers with a shotgun when they could not bring him down with a machine-gun.

Elmer Bails Out.

But perhaps the funniest of all is his parachute jump upon his return home in triumph. The landing field is so jammed with welcoming natives that he cannot land so is told to go out to the edge of town and bail out while the plane is being brought in by radio beam. Elmer bails out at 2,800 feet, but cannot find the ring to his rip-cord until almost on the ground. This is insanity at its zenith.

Joe E. Brown has a role made to order in Elmer. He plays it with keen humor and a variety of comedy devices. Florence Rice, in the role of Betty, is an attractive ingenue and Vinton Haworth, formerly of Washington, is effective as Harvey. Guy Kibbee also has a role that he might have been poured into in the character of Waddington, the skinflint who lands in jail and then pops out again, when the stock he has sold proves to be valuable. Anthony Nace does an easy-going piece of work as Bill Hilton, the inventor and the remainder of the cast quite catch the foolish spirit of the piece. There are some impressive cloud effects in the flying scenes.

A Novel Short-Reel.

There is a musicalized short-reel comedy, "Swing Fever" on the auxiliary bill that is one of the cleverest that has come along. It embodies a novel idea, some diverting comedy and a great deal of very elegant music. Billy Gilbert heads the cast. The musical idea also is carried along in a Scrappy cartoon comedy, "The Band Concert," in which Scrappy simulates the leadership of several noted conductors.

The Pathe News completes a bill that is recommended to all who do not mind letting themselves go in the matter of laughter.

New York, June 23.

MISS ETHEL BARRYMORE, America's most distinguished actress, who announced her retirement from the stage two years ago, has been signed by the Theater Guild to appear in a play this fall . . . Margaret Mitchell, author of "Gone With the Wind," spurned an offer of $30,000 for the syndication rights to 25 of her old stories. She doesn't believe they're good enough . . . Greta Palmer, now a patient there, was refused permission to broadcast from her hospital room Friday. The Palmer broadcast heard actually was a recording . . . The Hollywood version has the mother advising her youngster: "Now if you'll be a good boy, maybe you'll grow up to be a president—like Zanuck."

At the Roosevelt-duPont wedding, Bandleader Meyer Davis will feature Miss duPont's favorite song—"I've Got My Love to Keep Me Warm." . . . Clifford Odets has completed half of the new play he's writing for the Group Theater. Jules Garfield, of "Having Wonderful Time," will have the leading role. The play concerns a prizefighter.

A CHICAGO PUBLISHER and a New York publisher will be among those named in the Treasury's income-tax investigation . . . A noted star came to Jed Harris' office to discuss his appearance in a forthcoming play. When the actor began to enumerate his dramatic triumphs, Harris interrupted to lift the phone receiver and order his operator to "Send up some vegetable soup." The actor then began to promise what a wealth of talent he could bring to the role he sought. Harris listened patiently, again lifted the receiver, and said: "Hot!"

Child-Whipping Sentence Appealed

Sentenced to a year in jail last week for beating a child, Mrs. Theresa Cronin appealed for a new trial yesterday on the grounds new evidence has been discovered. Through her attorney, George J. Boden, the convicted woman filed a petition for trial which stated that the new evidence would be brought out at a hearing before Judge Walter J. Casey in Police Court Saturday.

Judge Casey sentenced the woman to 360 days in jail after he convicted her of severely beating William Van Ness, jr., 2½-year-old son of Mrs. Ruby Adella Van Ness. The alleged beating took place in the Van Ness home, 1500 D street northeast, while Mrs. Van Ness was at work.

Witnesses at the trial testified they saw Mrs. Cronin, who lived in the Van Ness home and took care of William in exchange for an apartment, whip the boy with an electric cord and hit his head against a bathtub.

Broker Is Indicted For Income Fraud

Cleveland, June 23 (AP).—Adrian Ettinger, Cleveland stock and grain speculator who once paid $410,000 for a New York Stock Exchange seat, was indicted today on charges of defrauding the Federal Government of $594,000 in income taxes in 1930-32.

Penalties and taxes brought the Government's claim against Ettinger to $1,205,000. The Government charged Ettinger had an income of $1,804,533 in 1930 but filed a return claiming no income. In 1932, the complaint said, he claimed an income of several hundred thousand dollars less than he actually had.

Ettinger's attorney expressed belief "the facts will show no willful evasion of any known tax responsibility."

Week to Bring Only Two New Films to Town

Revivals and Holdovers Will Outnumber the First-Runs.

Kay Francis and Errol Flynn are co-starred for the first time in "Another Dawn," the Warner Brothers film play which opens on the screen at the Earle Theater tomorrow for a week's engagement. Ian Hunter, Frieda Inescourt, Herbert Mundin and G. P. Huntley, jr., are featured in the supporting cast. The story has its locale in Iraq, Arabia, and builds to a climax in which either Ian Hunter or Errol Flynn, both of whom love Miss Francis, must sacrifice his life to save hers and those of the entire garrison. On the stage next week the Earle will present a five-act vaudeville bill, headlined by Owen McGiveney, the quick-change artist, in "Bill Sykes." Others on the bill will include the Three Wiere Brothers, Arren and Broderick, Barr and Bates and Van Cello.

"Last Train From Madrid" will be the chief screen attraction at Loew's Capitol Theater for the week beginning tomorrow. The play has the Spanish revolution as its background and is enacted by a cast that includes Gilbert Roland, Dorothy Lamour, Lew Ayres, Olympe Bradna, Lionel Atwill, Karen Morley, Helen Mack, Anthony Quinn, Lee Bowman and a long list of others. The story is a melodramatic one concerning the attempts of half a dozen romantic couples to escape from a beleaguered city. The stage portion of the entertainment will be provided by a specially chosen group of specialists, among them Joe Morrison, the young man with the popular radio and screen voice.

At the Metropolitan next week, beginning tomorrow, the major screen feature will be "I Met Him in Paris," the sprightly comedy in which the chief roles are taken by Claudette Colbert, Melvyn Douglas and Robert Young. This is a repeat engagement following the picture's successful week at the Earle.

"Captains Courageous," as was to have been expected, will continue for a second week at Loew's Palace Theater, with Spencer Tracy, Freddie Bartholomew and Lionel Barrymore in the principal roles. This is an epic picture that should be seen by every lover of the best the cinema has to offer. Based on the Kipling story, it presents sea scenes that are marvels of realism. The short subjects also will be held.

The new week at the Trans-lux Theater, beginning tomorrow, will feature "The March of Time," devoted to three timely subjects; "Fit to Win," a Mickey Mouse cartoon comedy and other short-reel subjects, in addition to the usual array of news-reels covering world events.

Clark Gable and Myrna Loy will be seen on the screen at the Columbia Theater for the week starting tomorrow in "Parnell," a quasi-biographical drama of the life of the great Irish patriot and statesman. This is a repeat engagement that will be augmented by short-reel subjects and "Events of the Day."

The next attraction at the Roadside Theater, opening next Monday night for a fortnight's run, will be "Our American Cousin," Tom Taylor's famous farce of the nineteenth century. Fred Haskin, Ann Ives, Maurice Jarvis and other popular local players will be seen in the cast.

"Broadway Melody of 1936," with Jack Benny and Eleanor Powell heading the cast, will be revived at the Little Theater for the week beginning next Monday. This is one of the most tuneful of recent musical films and boasts a stellar supporting cast.

Glen Echo Park continues to bound along into midsummer as one of the Capital's most popular amusement places. All of the 50-odd attractions are in full swing, with the Crystal Pool and the Spanish Garden ballroom possibly holding first place in public attention. Admission is free.

The S. S. Potomac continues to give relief to sweltering city dwellers by sailing nightly on a river cruise, beginning at 8:45. Bernie Jarboe's Nighthawks provide teasing "swing" music for dancing. The Potomac is a three-decker, with comfortable accommodations for hundreds of passengers.

The United States Army Band, Mildred Colvin, soprano, and the Marian Chace dance group will provide the program for the second of the Summer Festival programs in the Sylvan Theater, on the Monument Grounds, next Tuesday night. Miss Chace will offer a new solo number.

A spring-time program of dances will be offered next Wednesday evening at 8:15 o'clock in Roosevelt Auditorium by Alice Louise Hunter and her dancers. They will be assisted by Ray Williams, of Baltimore.

Rialto

"Theodora Goes Wild," the picture that established Irene Dunne overnight as a sensational new comedienne, and "The Virginian," in which Gary Cooper spoke the now famous words, "When you call me that, smile!" returned to the Rialto Theater yesterday for an indefinite revival run.

Before "Theodora Goes Wild," Irene Dunne had been acknowledged as a delightful singer and a great dramatic actress. As the timid small-town girl who writes a naughty novel and is suddenly acclaimed as a world sophisticate, however, she took the country by storm and was greeted by critics as the "find" of the season. The story hinges on Melvyn Douglas' attempts to show Irene up as just a sweet little innocent at heart and Irene's successful backfire to prove that Melvyn, the New York book illustrator, is really more conventional than she is.

"The Virginian," based on Owen Wister's epic of the days when America was young and handsome heroes carried guns on both hips, offers Gary Cooper at his best in the type of outdoor role that made him famous. Walter Huston, now the typical American business man in most of his roles, tests Gary's heroism as Trampus, the villain of the story. Mary Brian and Richard Arlen complicate the romantic episodes.

The bill is completed by short reels and news.

Motor Club Starts Drive on Foliage

The Keystone Automobile Club yesterday announced plans to eliminate intersection hazards where traffic lights are obscured by foliage.

Washington motorists were urged to report all such cases to the club headquarters, 1643 Connecticut avenue northwest. District authorities, according to George E. Keneipp, club manager, have already taken action on the basis of information furnished by the club. A daily report on dangerous crossings is furnished to police.

HAPPY RELIEF FROM PAINFUL BACKACHE

Caused by Tired Kidneys

Many of those gnawing, nagging, painful backaches people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may stark nagging backaches, rheumatic pains, lumbago, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

MARY HAWORTH'S MAIL

"Middle Class" Mother Is Greatly Concerned About Daughter's Indifference to Good Grooming.

DEAR MARY HAWORTH: I am the middle-aged mother of a middle-class family. My problem has to do with my 22-year-old daughter's appearance. She is a business girl, having taken a job as typist, the first job offered her after finishing a secretarial course. Although I wanted her to try for a better position she was very stubborn and decided to stay on in this one.

• • • •

Well, to proceed! She is very untidy, she goes out with her hair flying every which way in a most unbecoming manner, she doesn't attract boys readily, and yet she seems perfectly satisfied. I have talked, even pleaded, with her on the importance of good grooming but all to no avail.

• • • •

Not long ago a certain young man—not a very nice one, to be sure—paid her some attention, but when she met his family she seemed disgusted with the way they lived. I thought this would be a lesson to her, of like attracting like. But the young man (the only one she ever had) was soon forgotten. Neither girl friends nor boy friends seem to interest her.

• • • •

With such tendencies, I am convinced she could never get herself a better job, but I cannot make her see this. What is her trouble, do you think? Am I wrong, or is she? My other children, all in their teens, always dress well and look nice. Understand, I do not expect perfection, but we do live in a nice neighborhood and somehow she just doesn't fit the picture. What can I do?

MRS. J. H. L.

• • • •

What to Believe.

DEAR MRS. J. H. L.: Just because your daughter isn't cast in the conventional mold of femininity, so far as painstaking attention to appearance and good grooming is concerned, it doesn't necessarily follow that there is anything "wrong" with her; or that she won't live just as satisfactory a life as others who take care to look like something out of a bandbox. She may be endowed with a fine self sufficiency of spirit and independence of mind which will stand her in just as good stead as would knock-out visual effects.

• • • •

On the other hand, it's just possible that you are responsible for her stubborn aversion to primping. Perhaps from her earliest teens you have felt it necessary to nag constantly about her appearance, until it has become for her a matter of principle and preservation of ego to which you would have her conform. Maybe if you just let her alone to make her own decisions concerning what she will do with herself and her life, she might proceed more in accordance with your desires.

• • • •

There is this to be said for neat appearance, however—it bespeaks general effectiveness of personality. The unremarkable person who is sloppy, untidy and careless in appearance very often shows the same characteristics in regard to his work and his social relations. Of course, great geniuses, great creative artists and others who are lost in their dream, so to speak, occasionally neglect, out of very concentration on their scientific or artistic labors, to prettify themselves. Such persons may be justified in supposing that their work speaks for them; but for the run-of-mine human being, his appearances must tell the story of his potential effectiveness.

• • • •

My advice to you is to say no more to your daughter about her appearance or the presumable professional and social handicap which it constitutes. Don't try to impress her with the idea that good appearance is the be-all and end-all of existence. She may already have the notion that such is your shallow creed, and her untidiness and disinclination to hunt a more impressive job may be symptomatic of passionate, though inarticulate, rebellion against such a philosophy of life. If she is well content with being a typist and with having few friends of either sex, who are we to quarrel with her modest demands of life? So long as she is self reliant, honest and honorable, you are not justified in being ashamed of her, nor in making apologies to the neighbors. In so doing, you are showing less real pride than your daughter seems to own.

Southern Widow's Quest.

DEAR MARY HAWORTH: How can I get in touch with someone who lives in the country, who would like a companion, housekeeper or nurse? I am the widow of a Southern doctor. Our home was in the country, not far from a small Southern town. I find I can't be happy in the city. I want to get back to the country.

I can take care of elderly persons and love to make them happy. Also, I can take full charge of a home. I am a Christian, capable and trustworthy. I just want to live in the country once more. I read your column and find it helpful and interesting. Perhaps you can help me.

Sincerely, MRS. ADA S.

• • • •

DEAR MRS. ADA S.: Have you advertised for such a position in the classified columns of the daily and Sunday newspapers? If you have tried the metropolitan publications without avail, why not insert notices in the rural or regional newspapers in such localities as appeal to your fancy? And have you listed your name with such employment agencies as supply housekeepers, companions and nurses? These are the recognized and, in fact, the only mediums I know of which might get the desired results. Excepting, of course, the publication of your letter here. Mail (if any) addressed to you will be forwarded.

M. H.

Be Daring in Contrasting Your Accessories, Advises Actress-Singer Noted for Her Chic

Harriet Hilliard, Visiting Here, Has Distinctive Wardrobe.

By Ethel Ehlen.
The Post Fashion Editor.

ONE OF THE greatest mistakes women make in assembling costumes, believes Harriet Hilliard, of the screen and radio, who is in Washington for several days visiting her husband, Ozzie Nelson, orchestra leader, is choosing matched accessories.

"For instance, with a beige suit," she explained, "the average woman will select all of her accents in navy blue or black. The outfit would be much smarter and would show greater imagination if she accented the beige background with navy shoes and hat, handbag matching the suit and perhaps yellow gloves."

Simplicity is Miss Hilliard's guidepost toward chic, simple clothes, well fitted, with individual-looking accessories. "The lines of a frock are of much more importance than the color, but so few women wear clothes that really fit them correctly," she declared.

Black, according to Miss Hilliard, is the smartest thing any woman can wear for any occasion. She herself wears black almost exclusively, both in solid color and prints. For the business girl on a strict budget who wants to look smart all of the time, the advice of this actress is to concentrate on black throughout the wardrobe.

Hollywood-Designed Clothes.

Having just returned from the Coast, where she made two pictures, Miss Hilliard was very enthusiastic about a new collection of clothes created by Hollywood designers. Among the outstanding creations, according to her judgment, is a navy blue print after Schiaparelli with daisy pattern, made in Empire styling with shoulder detail and flared skirt, topped with a bolero of self-material. With this, she wears a navy antelope calot and pumps. A dramatic evening gown is made of printed crepe in sage green and copper, worn with a coat of copper-colored bengaline, lined with the print.

The shirtwaist frock of Roman stripe silk crepe, which Miss Hilliard was wearing, was chosen, she said, because it was simple and practical and lent itself to numerous accessory changes. For dining informally at home, she brought back several glazed chintz house coats—black with bright flower patterns. A print for Sunday night entertaining, which she considers one of the smartest of the entire collection, is made with high neck, three-fourth length sleeves shirred from the shoulder down, floor length, fitted silhouette, and with two narrow streamers extending from the back of the neckline to the hem of the gown.

Husband Her Style Mentor.

Miss Hilliard says that her husband, who is appearing with his orchestra at a local theater, is her mentor and guide when buying clothes and planning a wardrobe. He dislikes silly hats and flowers in the hair for evening, consequently these two things are taboo in Miss Hilliard's designs for smart grooming. Following his advice, this radio singer-actress, says she wears dark prints and sheers for summer in town, rather than white or the pastel tints. These are usually accented with black suede pumps and tiny hats, also of black.

Miss Hilliard is not only an exponent of chic grooming, but likes to design her own clothes and accessories. "I am particularly fond of high necklines for both daytime and evening," she said. "And since I cannot always find a frock I like with this type of neckline, I either design something myself or have one created, using my own ideas as to line."

Odd and distinctive costume jewelry is another preference of Miss Hilliard. She prefers unusual combinations of metals and stones. An ensemble consisting of a ring and bracelet, of which she is particularly proud, having designed it herself, is fashioned of moonstones and diamonds, in a modernistic setting of yellow gold.

Flower Stitchery New! Colorful!

Pattern 5878.

By Alice Brooks.

NEW! COLORFUL! This gay flower and butterfly design that will "do wonders" for a new or not-so-new frock. Place these jolly motifs anywhere—on sleeves, skirt or bodice, or as a "corsage" at your waistline. Then embroider them with silk floss or brilliant scraps of wool. It's grand fun to splash color here and there with your needle, and an old frock, treated this way, looks "brand new." In pattern 5878 you will find a transfer pattern of one and one reverse motif 6½x8 inches; two and two reverse motifs 4x5¼ inches and four and four reverse motifs 3½x4½ inches; color suggestions; illustrations of all stitches used.

To obtain this pattern send 10 cents in stamps or coin (coin preferred) to The Washington Post, Household Arts Dept., 250 W. 14th Street, New York, N. Y. Be sure to write plainly your name, address and pattern number.

Beautiful Arms Boon to Women, But Need Care

By Carolyn Abbott.

The first hot days and their accompanying short sleeves cause a lot of arm consciousness. The first time you are out on the street in a short sleeved dress you feel all arms—especially if your elbows aren't a desirable whiteness and your upper arms are fuller than they should be. Begin now to pay attention to these features and correct them.

It is difficult to break an habitual elbow-rester. But constant leaning on elbows promotes roughness and also grinds dirt into them, making them more difficult to clean.

Elbows with discolored and cracked skin can be greatly improved by giving them a beauty treatment every night. When you take your warm bath, scrub them thoroughly with a brush and a thick soapy lather. Scrub with a circular motion to remove loose, dead skin. Dry thoroughly and dab tissue cream on each elbow and massage it in well.

Lemon juice is an excellent elbow bleach. Cut a lemon in half and burrow each elbow into one of the halves—rubbing the lemon around the point of the elbow. For a quick softening treatment, dip pumice stone in olive oil and rub lightly over each elbow.

Fat is likely to accumulate in the upper arms. And flabbiness of arms gives the appearance of age in any women. Beautiful arms should be smooth as well as firm and shapely so while you are specializing in your elbow treatment, take time occasionally to massage some of the cream on your arms as well as your elbows. All of your arm skin gets pretty dry, being constantly exposed to the sun.

Exercise Suggestion.

Special exercises will help reduce the too-heavy arm and round out the too-thin one. Stand facing a wall and close to it, reach up on the wall as far as you can and then push up even higher. Do this several times, bringing the arms down and relaxing between times. Alternate the tenseness in the arms in the upward stretch and the muscles will be exercised.

Clapping the hands is a good exercise for the arms. Keep the elbows rigid and clap the hands together, first over the head, then swing them down to clap them behind the back. Or pretend you are freezing to death and swing both arms at shoulder level back and forth across the front of the body. Swing them as far back and across as possible.

On Being Educated

NOT ENOUGH MONEY to fulfil your dream of going to college?

This is no tragedy. Today radio, movies, newspapers, inexpensive books help you to a cultural background.

Even a walk down the street can lay the foundation of culture. You see the bank's fluted columns. They're Ionic style, designed for the ancient Greek temples. So you are introduced to the myths about the Greek gods. These give you the classical background to enjoy novels and poems, for even modern authors refer to Greek myths.

Find out about the church spire, too. It's adapted from the ancient tower used to watch for enemies. This suggests a study of old time fighting customs and famous battles, which are the backbone of early history.

A popular movie shows an Irishman plotting his country's freedom from British rule. That puts you on the trail of the long struggle between England and Ireland.

Diners Reflect Trend of Times, Asserts Oscar

THE HABIT of gulping drinks and gobbling meals which was so prevalent a few years ago has been superseded by leisurely dining and drinking, in the opinion of Oscar of the Waldorf, one of the most famous hosts in the world.

After years of observation Oscar's opinion on the public trend of taste has become that of an expert. He believes that since repeal, the average American is gradually beginning to appreciate the gastronomic pleasure of a full course dinner excellently served and accompanied by the proper wines. He has come to realize that to rush through a meal of this type is as crude and unsophisticated as to fail to appreciate and to destroy a work of art.

Oscar, who has been in the same hotel for 44 years, and always in a position to judge the public's reaction to dining, says that the tempo of the present day may well be gauged by the diner's attitude toward meals, just as the spirit of the times a few years back was displayed in the same way.

Then men and women were glum, serious, preoccupied, drank heavily of indifferent liquor and ate in a hurried and harassed manner. Times were tense, and the depression was hanging heavy. Now, according to Oscar, persons are of lighter heart. They seem to feel that they have weathered a few hard knocks and can sit back and relax; that they can order a fine meal and enjoy it as it should be enjoyed. They no longer need the quick stimulation of dark liquor to the extent they did and are satisfied to appreciate the more moderate glow resulting from good wines.

Today's HEALTH TALK

By Dr. Logan Clendening.

Snoring and Its Cure.

THIS DEPARTMENT has received a number of letters from time to time in the past on the subject of snoring. People have wanted to know what is the cause of it, what it denotes, but especially they have wanted to know how to stop it and why the snorer doesn't wake himself up.

We have hesitated to commit ourselves on the subject because our ideas have been so vague, but at long last, as Edward VIII said, the Journal of the American Medical Association has come forward with some remarks which we take the liberty of abstracting as being from an official source:

"Snoring or unusual noises accompanying inspiration or expiration or both in deep sleep, in coma or in deep anesthesia, involve several factors." The noises are produced by the passage of air through regions of partial obstruction to the passage of air.

A common explanation of snoring is that it is due to the vibration of the soft palate, but this is probably not an entirely adequate explanation, because if the soft palate is completely relaxed and the sleeper lies on his back, the palate is likely to close the passage of the nose and not vibrate at all, but merely force air through the lips. Anyone can voluntarily produce snoring noises when awake by making a deep inspiration with a partially closed glottis. The noise is made by the intermittent passage of air through the obstructed glottis.

These ideas certainly explain the well-known fact that a sleeper is more likely to snore when on his back. The mucus idea also explains that horrible moment when sounds resembling the prelude to the eruption of Vesuvius are followed by snortings, hawkings, gargling and strainings, until finally the offending liquid is removed or swallowed. It does not explain why the snorer doesn't wake himself up. Nobody on earth has been ingenious enough to bring forward any idea on that subject.

Under the question of treatment the American Medical Association is not very satisfactory. It says, "Snoring is an annoyance to other people rather than to the snorer." This is no news. Snoring is not even classed as a functional pathological condition. "Snoring is less liable to occur if the person goes to sleep and stays asleep on either side or on the abdomen. A thorough clearing of the nasal passages before going to sleep also may aid." In other words, the only treatment for the real sufferer from snoring is to go into the other room.

We have had one letter from a distracted wife who wanted to know whether cutting out her husband's soft palate entirely would help any. She said it wasn't really cruelty that prompted her to this course, because she thought if he didn't have it cut out, he was going to blow it out pretty soon himself.

EDITOR'S NOTE: Seven pamphlets by Dr. Clendening can now be obtained by sending 10 cents in coin, for each, and a self-addressed envelope stamped with a three-cent stamp, to Dr. Logan Clendening, in care of The Washington Post. The pamphlets are: "Three Weeks' Reducing Diet," "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene" and "The Care of the Hair and Skin."

Transparent Evening Wraps to Be Popular

Paris (U.P.).—Transparent evening wraps promise to be popular for summer wear. These diaphanous wraps are in tulle, chiffon, mousseline, lace and even in a loosely woven horse-hair braid.

The Duchess of Kent has selected a coat of sapphire blue tulle, as sheer as gauze, to wear over an evening gown of crepe marocain. The coat is long and full with wide loose sleeves. It is worn open to form a contrast with the white gown underneath.

Paris Patterns

By Claire Tilden.

CHARM . . . that elusive magic coveted by twelves and twenties, has been captured in this bewitching little dress-up frock that will welcome festivities all summer long! If you're a gay young thing who loves "pretties"—here's the style that will make your friends starry-eyed with admiration, and they'll never believe all this chic came easily from your own clever needle! Just see the lovely sleeves (may be puffed or flared), the perky collar, softly draped bodice, and refreshing button accents. Be a "social success" in Pattern 325 made up in bright flowered silk, synthetic, or dainty sheer. Detailed Sewing Guide accompanies this pattern.

Pattern 325 is cut in misses' sizes 12, 14, 16, 18 and 20. Size 16 requires 3⅛ yards 39-inch fabric.

Send fifteen cents (15c) in coins or stamps (preferably coins) for this pattern. Write clearly size, name, address and style number.

Send orders to The Washington Post, Pattern Department, 70 Fifth avenue, New York, N. Y.

Chanel Puts Stress On Dotted Prints

Paris (U.P.).—Chanel is stressing dotted prints for summer wear in both lightweight wool and silk materials. Navy blue or black dotted in white is repeated frequently in the collection, and red, green, bright blue, yellow and mauve are also shown dotted in white.

Sailor blue is used for one of the summer prints in silk which is made without sleeves but with a shoulder cape which comes in just above the elbow. The cape is edged with an inch-wide band of white crepe de chine. This trimming is further carried out by four white bands which run from the shoulders of the dress to the hem. Two of the bands of white crepe de chine run down the front of the dress and two run down the back.

Summer Jewelry.

The smartest shops in New York are showing old-fashioned jewels to be worn with new summer clothes. Brooches from grandmother's trinket box, or other pieces touched with age, are preferred to the more modern designs this year. In one showing there was a collection of cameos, owned at one time by a famous Louisiana beauty, which was suggested for wear with the new dark sheers.

A WOMAN'S NEW YORK

By Alice Hughes

New York, June 23.

THE GOOD SHIP Ile de France never lugged a lovelier cargo from this port than it did the other day, when our famed and magnificent dancing Rockettes, of the Radio City Music Hall, set sail to show Paris what precision dancing really is.

ALICE HUGHES.

The 46 pretty little girls were invited by the French government to represent the States in the international dance festival at the Paris Fair, and the other day they set off on this 6,000-mile junket to do four numbers, or 16 minutes of the concerted kicking which makes them one of the most thrilling sights in this town. With them went their founder and inspired teacher, Russell Markert, as well as a complement of broadminded chaperons.

Such twittering the French Line pier never heard as when the cute steppers went aboard! Most of the girls, who are very young, had never been on a ship larger than the ferry to Staten Island, and it was all just too wonderful! How I envied the "kids," as they are invariably known back stage.

They're a fascinating troupe, these Rockettes—inclined to be clannish and stand-offish until their confidence is won. They do four shows a day at the world's biggest theater, and spend most of their waking hours backstage—rehearsing, reading, knitting, or else snoozing or playing deck-tennis on the roof, which has been elegantly outfitted as a summer recreation spot. It certainly would be fun to be along on the trip. There's always plenty of fun where the Rockettes are. And won't they pop the Parisians' eyes!

Lady Astor Comes Here For Van Zeeland Dinner

Is Guest at Affair at White House Honoring Belgium Premier and Wife; Visit in Capital not Expected to Be Long.

By Hope Ridings Miller,
The Post Society Editor.

Lady Astor made one of her fleeting trips to Washington to attend the dinner given at the White House last evening by the President and Mrs. Roosevelt in honor of the Prime Minister of Belgium and Mme. van Zeeland.

As on previous trips to this country, Lady Astor has been here, there and everywhere since she arrived in New York a few days ago. She hardly had landed when she was off to Virginia to see her brother, Col. William H. Langhorne, of Warren, Va., who has been ill since June 7 and now is in the University Hospital in Charlottesville.

Although this dynamic woman has a host of friends in the Capital, she probably will not stay here long because she has too many relatives and closer friends elsewhere. Every year or two she comes back to see members of her family and to renew old friendships, but far too frequently her visit is finished and she is sailing back across the Atlantic before half her acquaintances have had a chance to see her.

No matter how crowded her schedule, however, she usually finds time to spend a few days at Mirador, the beautiful old Langhorne estate near Charlottesville. Two of the most attractive of the Langhorne sisters—Lady Astor and Mrs. Charles Dana Gibson—once called this place "home." Their niece, Nancy Perkins, who first married Henry Field and after his death, Ronald Tree, took over the estate as her own, and since then it has been the scene of many Langhorne family reunions.

But if Lady Astor visits the estate while she is in the United States now, it may be the last time she can consider it as a Langhorne possession. In other words, Mirador is on the market, and it doubtlessly will pass into other hands before Lady Astor comes to this country again.

Once Guest Of Gifford Pinchots.

On numerous occasions when she has come to the Capital, she has spent a few days with her friends. On one occasion she was the guest of Mr. and Mrs. Gifford Pinchot in their home on Rhode Island avenue. But last evening she stayed at the Mayflower, arriving shortly before time to go to the White House.

Among others—in addition to Lady Astor and the Prime Minister of Belgium and Mme. van Zeeland—who were dinner guests of the President and Mrs. Roosevelt last evening, were the Belgian Ambassador and Countess van der Straten-Ponthoz, Mrs. Cordell Hull (the Secretary of State was out of the city), the Secretary of Agriculture and Mrs. Henry A. Wallace; the Secretary of Labor, Miss Frances Perkins; the Acting Secretary of State and Mrs. Sumner Welles.

Also the Counselor of the State Department, Mr. R. Walton Moore; the American Ambassador to Belgium and Mrs. Dave H. Morris; Mr. and Mrs. Harry L. Hopkins, Mr. and Mrs. Adolph C. Miller, Mr. James Roosevelt, Miss Marguerite LeHand, Capt. Paul Bastedo and Col. Edwin M. Morris.

Capital Filled With Noted Visitors.

The Capital will see many noted visitor come and go before the week is finished. The Minister of Finance of China, Dr. H. H. Kung and his party are on their way to Washington. Dr. Kung arrived in New York on Monday from London, where he was China's delegate to the Coronation.

Dr. P. V. Kuo, director of the International Trade Bureau of the Ministry of Industries at Nanking, China, has already arrived and is at the Shoreham.

The United States Ambassador to Belgium and Mrs. Morris, who came to the Capital yesterday and are occupying a suite at the Carlton, will be here several days. The Ambassador is in this country on a 60-day leave, after which he will return to Belgium.

The newly appointed counselor of the Japanese Embassy, Mr. Yaikichiro Suma and Mme. Suma are also at the Carlton. Upon their arrival yesterday they were greeted by the Japanese Ambassador and Mme. Saito.

The counselor was formerly counselor general at Nanking, China.

Mr. and Mrs. William A. Scully, of Forest Hills, N. Y., are at the Shoreham while in Washington to visit friends.

Patrons Named For Celebration

Secretary Wallace, Wife, Miss Perkins to Attend Constitution Fete.

The Secretary of Agriculture and Mrs. Henry Wallace, and the Secretary of Labor, Miss Frances Perkins, are among the patrons for the dinner September 17, at the Mayflower Hotel, when the United States Sesquicentennial Commission will celebrate the signing of the Constitution.

The dinner is expected to be one of the most brilliant historical dinners ever held in Washington. The ceremonies will be especially impressive as marking the beginning of the celebration, which will continue through April 30, 1939.

Elaborate decorations in keeping with the period of 1787 will be used at the dinner. Not only have descendants of the signers of the Constitution taken tables, but also families of the Delegates to the Constitutional Convention and the families of the signers of the Declaration of Independence.

Among other patrons are Mr. and Mrs. Gilbert Grosvenor, Mrs. Gilbert Hitchcock, and Mrs. Mahlon Pitney.

Many prominent people from Baltimore are expected to attend the dinner. Those who have made reservations are Mr. and Mrs. Bruce Cotten, Mr. and Mrs. Miles White, Mr. and Mrs. W. H. DeCourcy Wright, and Mrs. Frank Sherwood Hambleton. This is the second table which Mrs. Hambleton has taken and her guests at both tables will be from Baltimore and Washington.

Miss Fox Selects Wedding Aides

Will Become the Bride of Lieut. M. L. Green at Fort Myer Monday.

Miss Catherine Jeanette Fox, whose marriage to Lieut. Martin L. Green will take place Monday, at Fort Myer, Va., has selected Mrs. Z. D. Blackstone 3d, of Washington, as her matron of honor. Other attendants will be Miss Wilma Fox, Mrs. Constant Cavallo, of Washington, Mrs. Harold Martin, of Oakton, Va., and Miss Laura Hathaway, of Boston, Mass.

Lieut. Henry D. Green will serve as best man, and the ushers will be Lieuts. Harold E. Marr, Searsport, Me.; John H. Montgomery, Bucksport, Me.; Alan D. Clark, Washington; Edward C. Spaulding, Washington, and William R. Maxwell, Langley Field, Va.

A buffet supper will be given for the attendants after rehearsal Sunday evening, at the home of the bride-to-be's parents, Round Hill, near Vienna, Va.

A luncheon in honor of Miss Fox and Lieut. Green will be given at the Washington Hotel Roof, Saturday by Mrs. Wilson P. Kilgore, Mrs. John W. Green, Miss Frances Fox and Mrs. Bernard J. Vincent.

A reception, following the wedding Monday, will be held at Rixey Mansions.

Friend Feted at Dance By John F. Grindle, Jr.

Mr. John F. Grindle, jr., gave a dancing party at the Shoreham Terrace last evening for Mr. James Althiemer, of St. Louis, his house guest. Mr. Grindle and Mr. Althiemer are classmates at Harvard.

Other guests included Miss Helen White, Miss Dorothy Prichard, Miss Helen Hutchinson, Miss Kay Loveless, Mr. George C. Howard, Mr. Edward J. Harding and Mr. Arthur B. Wise.

To Appear as Soloist at Concert Tonight

Hessler Studio.
Miss Rose d'Amore, who posed for this picture with her little daughter, Jimilu, is a gifted pianist and teacher of repute in the Capital. She is to be presented tonight by Mrs. Mabel Walker Willebrandt in a concert at the Sulgrave Club.

Artist's Daughter, J. W. Bellah Wed

The engagement of Miss Ruth Yeaton Power-O'Malley, of New York and Alexandria, to Mr. James Warner Bellah, of New York, announced first in The Post on June 17, culminated in a quiet wedding at the home of the Rev. Pierce S. Ellis, pastor of the First Baptist Church in Alexandria.

Mr. and Mrs. Bellah are at the Marguery, 270 Park avenue, and will leave soon for a trip to Europe.

Mrs. Bellah is the daughter of the Irish landscape painter, Michael Power-O'Malley, of Dublin and New York, and of Mrs. Ruth Wise Stuart, of Alexandria. Mr. Bellah, author and member of the faculty of Columbia University, is the son of Mrs. James Warner Bellah, of Wilmington, Del., and the late Dr. Bellah.

Donna del Balzo Announces Birth Of Son at Naples

Announcement has been made of the recent birth of a son to Don Luciano and Donna Frances del Balzo di Caprigliano, of Naples, Italy. Donna Frances del Balzo is the former Miss Frances Marian Miller, daughter of Mr. and Mrs. Andrew Miller, of 53 East Seventieth street, New York.

Don Luciano is a captain in the Royal Italian Cavalry, son of Donna Maria del Balzo, Duchess di Caprigliano, brother of Gian Battista del Balzo, Duke di Caprigliano, gentleman in attendance to Her Majesty the Queen of Italy. The child will be called Don Andrea Antonio Maria.

Plunge Party Date Is Fixed

Daughters of the House Close Season Next Thursday.

The Daughters of the House, already in the "social swim," will be literally in the swim next Thursday, when the group will hold a swimming party in the Venetian Pool of the Shoreham Hotel. Arrangements for the function were completed yesterday by Miss Reba Doughton, daughter of Representative and Mrs. Robert L. Doughton, chairman of the entertainment committee, and Miss Betty Lou Massingale, daughter of Representative and Mrs. Sam Massingale, president.

The swimming party will be the final affair of the season for the Daughters of the House. The organization came into existence this year and consists of daughters of members of the House of Representatives.

The "Daughters" will invite escorts to attend with them. The swim will be from 5 to 7 o'clock.

Canadian Justice Here.

Chief Justice Greenshields, of Montreal, Canada, and Mrs. Greenshields are in Washington on a visit and are staying at the Mayflower.

Champsaur, wife of the French Air Attache; Mrs. Roscoe Schuirmann, Mrs. Walter R. Tuckerman, Mrs. Penn L. Carroll, Mrs. Royall Ingersoll, Mrs. Edward Kellogg, Mrs. Paul H. Bastedo, Mrs. George Petterson, Mrs. Hugh Matthews, Mrs. Norman Smith, Mrs. Albert Niblack and Mrs. F. M. Knox.

C. M. Remey Is Host at Garden Fete

Archeological Group to Honor Board of Trustees.

House of Parliament Collection Shown to Guests.

Mr. Charles Mason Remey was host last night at a garden party given by members of the Archeological Society in honor of the board of trustees.

Mr. Remey's home is matched in its artistic charm by the garden behind it, overlooking Rock Creek Park. It is secluded by a row of evergreens on one side and a vine-covered wall on the other with a little fountain from which water slapshes into a basin below. Hedges mark off one end of the garden where chairs were arranged last night from which one could look down into the park.

Supper was served on the stone terrace and soft music came from the organ in the drawing room above.

As the guests arrived, many stopped in the court in front of the house to see the collection of fragments from the House of Parliament in London, which were secured by a Washington architect, Mr. Keith Schwinley, when he was abroad last summer. They were removed from the building during the process of restoration, and include several loons' heads, gargoyles, images, and the coats of arms of Great Britain, Ireland and Wales.

Mr. Wade H. Ellis, president of the society, with Mrs. Ellis, was present at the party. Other members of the board of trustees for whom it was given, include Mrs. Hugh Campbell Wallace, Mrs. Anne Archbold, Mrs. Mitchell Carroll, Dr. Frederick Benton, who was present, with Mrs. Benton; Col. Walter C. Clephane, who was accompanied by Mrs. Clephane; Dr. George S. Duncan, accompanied by Mrs. Duncan; Col. Henry Parsons Erwin, who attended, accompanied by Mrs. Erwin; Prof Harold N. Fowler, Mr. Robert Woods Bliss, Mr. Irwin Laughlin, Mrs. John Leonard Proctor and Dr. Ales Hrdlicka.

Among the guests were Mr. and Mrs. William Jennings Price, Mr. Loren P. Oakes, Mr. and Mrs. Eldon King, Miss Sophie Pearce Case, Mrs. Frederick Newell, Miss Ellen A. Vinlow, Mr. Benjamin Flournoy, Mr. Richard Flournoy, Mrs. Robert H. C. Kelton, Miss Luella P. Chase, Miss Louise Lincoln Newell, Mrs. Delos Blodgett, Mr. and Mrs. J. D. Halsted, Mrs. David J. Rumbough, Mr. and Mrs. Strickland Gillilan, Miss Grace Rogers, Mrs. Oliver B. Campbell, Mrs. Charles W. Fairfax, Miss Jennie Mason Gibbes, Mr. and Mrs. Peter A. Drury, Mr. and Mrs. H. G. Meem, Miss Maud Burr Morris, Miss Margaret Delano Gage, Mrs. James M. Beck, Mrs. Charles M. Lea, Mr. and Mrs. Carroll Greenough.

Dinner at Belmont House.

The third dinner of the summer season will be served tonight in the garden of Alva Belmont House for members of the National Woman's Party and their friends. Mr. William Clark Taylor will be guest speaker.

Daughter Born to Hearns.

Mr. and Mrs. Bernard C. Hearn, of 7202 Chatham road, Chevy Chase, Md., are receiving congratulations on the birth of a daughter at the Union Memorial Hospital in Baltimore. The baby will be named Judith DeMaris Davis Hearn.

Newswomen Fete Leaders At Luncheon

Reps. Rogers, Jenckes, O'Day Present at Function.

6 Ex-Presidents of Press Club Presented With Silver Bowls.

Three "Lady Legislators," five new members and six past presidents of the Women's National Press Club shared the spotlight at a dinner at the Washington Golf and Country Club last evening.

The occasion was the press club's party in honor of the members who have joined the past year and of the presidents who have held office at different times since the club was founded in 1919.

An hour before the dinner began, the party got under way when 50-odd press women and their guests gathered on the terrace at the club and got better acquainted with each other by means of "grab programs"—cards filled out as dance programs used to be, with conversation partners instead of dancing ones.

When that feature of the program was finished, the ladies of the press and the Lady Legislators took their places at the horseshoe table in the ballroom, where rainbow lights, glowing on the ceiling, seemed to reflect the varicolored attire of members of the party. Seated at the end of the table near Miss Doris Fleeson, president of the club, were the three Congresswomen, whose good company and spicy stories told "off the record" added to the gayety of the affair.

First Introduction.

Mrs. Edith Nourse Rogers, in a gown of pink georgette, set off with a cape of pea-green chiffon velvet, was introduced first and spoke briefly, interlarding her more serious remarks with three anecdotes—not for publication. Mrs. Caroline O'Day's speech was even briefer but also entirely to the point, and as a climax she came forth with a story that dissolved her audience in laughter. Mrs. Virginia Jenckes also proved her prowess as a story-teller, and soon members—old and new—all around the table were rising to their feet to tell their prize anecdotes.

Earlier on the program, each of the five past presidents was given a silver bowl, following a brief presentation speech. Those who received these tokens of honor were Mrs. Lily Lykes Shepard, first vice president of the club; Mrs. Sallie V. H. Pickett, Miss Ruth Jones, Miss Martha Strayer, Miss Winifred Mallon, and Mrs. Genevieve Forbes Herrick. The latest on the list of past presidents, Miss Mary Hornaday had received her silver bowl at the last business meeting of the club this year.

First Appearance.

Later, Miss Ruth Jones voiced an appreciation for current president, Miss Doris Fleeson, who last evening made her initial appearance before the club as its new executive, and who looked exceptionally attractive in a print crepe frock cut on simple lines and a white fringe-trimmed jacket.

The introduction of the new members, followed by a brief speech from each, was next in order on the program. Among those who took a bow were Miss Margaret Warner, Miss Vesta Cummings, Miss Lucille Furman, Miss Violet Sweet Haven and Mrs. Lorania Francis.

Reminiscences of early days of the club, given by some of the past presidents and also by Miss Roberta Bradshaw, who was a charter member, and a brief speech by Mrs. Emily Newell Blair, rounded out the program, which was delightfully informal from first to last.

Arrives for Opening of Kamp Kahlert

Underwood & Underwood.

MISS RUTH LINN FRASER,

who will be one of the directors of Kamp Kahlert of the Young Women's Christian Association on West River in Maryland this summer.

"Madame Chairman" . . .

By Suzanne.

MISS ETHEL BAGLEY will serve as president of the Business Women's Council for another year. She has been its head since it was formed in connection with Billy Sunday's campaign back in 1918.

For 15 years the meetings of the council have been held in the Covenant - First Presbyterian Church. It began with a membership of 800, including many Government workers, and still has about 175 on its rolls, with more than 100 attending its meetings during the winter season. The business women gather on Tuesdays as soon as their day's work is over, for the weekly session, opening at 5 p. m. There is first a discussion of current topics, led by Miss Mary Wild, then a prayer circle, of which Miss Louise Newell is in charge, and a devotional service, at which one of the clergymen of the city speaks. Miss Helen Childs is in charge of this part of the meeting and has secured ministers of all faiths to address the group at various times through the year. Miss Fanny Buck has charge of the community sing, which is another feature, and Miss Elizabeth Groves of the buffet supper.

* * * *

Miss Groves is also chairman of the home missionary committee of the council, which for 16 years has given its support to one of the charter members, who volunteered to go as a teacher to Brevard College in North Carolina. She is Miss Lucille Smith, who was here as guest of honor at the spring banquet of the group a few weeks ago and told of the work being carried on there.

The social service committee, under Miss Carrie Linkins, twice a year distributes quantities of clothing to the Florence Crittenton Home, the Central Union Mission and the Gospel Mission. Another committee, under Miss Edna Fitzhugh, regularly visits patients at the Tuberculosis Hospital; one, of which Miss Olive Brearly is chairman, visits the House of Detention. There are also the Charles Wood foreign missionary committee, headed by Mrs. May G. Pollock; fellowship committee under Miss Ruth Boyer; program committee with Miss Edith Stiles at its head; the employment committee of which Miss Mary Van Houten is chairman and the ways and means committee, headed by Miss Jane Ash.

* * * *

Last, but by no means least, the other officers for the coming year are Miss Ruth Boyer, first vice president; Miss Florence Hendershott, second vice president; Mrs. Minnie Haddaway, corresponding secretary; Miss Gladys Schaeffer, recording secretary, and Mrs. Hattie G. Ruppart, treasurer.

* * * *

RUBY STAHL SMITH, who for 13 years has conducted the A Capella Choir of the First Congregational Church, is taking her singers to Chautauqua Lake, N. Y., July 11, to present a program there. She is one of the few women choir directors in Washington and has built an organization which has won wide recognition.

Mrs. Stahl, who is vice chairman of Fine Arts for the District of Columbia Federation of Women's Clubs, several years ago planned a program on which she appeared with Mme. Brosius, the harpist, and Charles T. Ferry, pianist, to raise a fund for paying the artists who were heard on the Federation programs.

SHADES of child training instructors!—It is to be devoutly hoped mothers and nursemaids who visit the Zoo will not quote one of the Zoo's own signs as a threat to little boys and girls who show a disposition to run away. It states that "Lost children will be taken to the lion house."

Working Units Chosen by Club

MRS. WALTER P. HARMON, president of the Takoma Park Women's Club, yesterday morning was hostess at an official board meeting of the club at her home. After a business session the following standing committee chairmen were appointed for 1937-1938:

Membership, Mrs. Edward L. Griffin; publicity, Mrs. Eugene J. Hurdle; budget, Mrs. Paul Burk; ways and means, Mrs. George E. Davis; program, Mrs. Frederick L. Pratt; hospitality, Mrs. Jesse Ramsdell; bulletin and printing, Mrs. Alfred Stedman; parliamentarian, Mrs. Frederick Lincoln.

Special committee chairmen who were named included legislation, Mrs. John B. Mertin; housing, Mrs. F. O. Johnston; year book, Mrs. Edward L. Graham, and federation directors, Mrs. L. V. Lampson, Mrs. Frederick Umhau and Mrs. G. Franklin Wisner.

Camp Heads Y. W. C. A. Arrive Here

Misses Frazer, Robbins Prepare to Open Program.

Outdoor Activities Exceed School in Opportunity, Director Says.

Camps have an educational opportunity unsurpassed by schools, in the opinion of Miss Ruth Linn Fraser, who arrived yesterday from New York, and, with Miss Ruth W. Robbins, of Syracuse, will direct the program at Kamp Kahlert of the Y. W. C. A. this summer. There is opportunity in camp, which a school does not afford, to give girls freedom of choice in their activities and to build the program around them rather than fit them into an arbitrary plan of instruction, she believes.

Miss Fraser has been a worker in the Y. W. C. A. for 15 years, 10 of which she spent in China. While in the National Editorial Department at Shanghai, she taught a Chinese girl, Miss Li Ying Chiu, to prepare material and supervise the make-up of a magazine published in Chinese. Miss Liu, who is now in this country, studying at the University of Colorado, will visit her for a few days at Kamp Kahlert when she comes East and will participate in at least one of the evening programs for campers.

Last summer, Miss Fraser was at Norfolk and the two previous seasons at Charlotte, N. C. Before that, from 1929 to 1932, she was general secretary of the Y. W. C. A. at White Plains, N. Y. She now spends her winters in New York, selling insurance—the only woman agent in her company—and, in the summers, resumes her work with the Y. W. C. A. camps.

Miss Robbins, who is already at the camp, is skilled in woodcraft and nature lore, having conducted pack trips on horseback through the mountains of New Mexico, the Rocky Mountains of Colorado and the Canadian Rockies in British Columbia. She also has directed canoe trips through Maine, Quebec and Ontario, and mountain climb-trips through th Adirondacks, Catskills, and the Rockies.

This week-end 20 counselors will unify their thoughts and experience at a "setting-up" conference at Kamp Kahlert in preparation for the 100 campers who will leave the District Monday for the camp on the shore of West River, Sudley, Md.

There will be talks on the history of camping. Health and safety will be stressed with demonstrations of swimming, canoeing and boating. Appreciation of the out of doors with practical application to tree study, sea life, stars, birds, flowers, clouds and animals also will be stressed.

Off to Paris.

Mr. and Mrs. Francis P. Sullivan and their daughter, Miss Wannevillette Sullivan, left Saturday, June 19, for Paris where Mr. Sullivan will attend the International Congress of Architects as delegate of the American Institute of Architects.

Soroptomist Club's Speaker Calls Dollar 'Work of Art'

Miss Nora Huffman Comments on Significance of Numeral 13; Regional Director Plans New Branch.

THE DOLLAR, usually considered only from the standpoint of its purchasing power, was viewed by members of the Soroptimist Club at their weekly luncheon yesterday in the Willard Hotel as a work of art, and an example of a symbology linked to our country's history. Miss Nora Huffman, past president of the club and a member of the program committee, spoke on the significance of the numeral "13," as it is used on the paper dollar.

The 13 original colonies on which the United States was formed were symbolized by the 13 stars in the original flag, she pointed out. We now have 13 bars on our flag, and 13 rods on the national mace. The great seal on one side of the dollar, bears an eagle, holding in one talon the olive branch with 13 leaves; in the other, 13 arrows; having a shield with 13 stripes; over his head, 13 stars and, on the ribbon in his beak, the inscription "E Pluribus Unum," formed of 13 letters.

On the reverse side, Miss Huffman called attention to the "Cheops Pyramid," the name of which is of 13 letters. This pyramid is built on 13 acres, she said, originally had 13 steps up to it and, over the capstone, "Annuit Ceoptis," a legend in 13 letters, meaning "He hath prospered our beginning."

The club members were much interested and brought dollar bills from their purses, checking the various "13's" as she talked.

Miss Daisy Reed, president of the club, opened the meeting and turned the program of the luncheon over to Miss Huffman, who had charge for the day. She presented as guest artist Mrs. Frank Wadleigh, pianist, and Mr. Herbert Sokolove, gifted young violinist, whom Mrs. Wadleigh accompanied in three numbers. His first was the Kreisler arrangement of "Liebesfreud," by Liszt, who was one of the masters under whom Mrs. Wadleigh's uncle and teacher, Frank Charles Hahr, had studied. His other selections were "Romance" (Wieniawski) and "Serenade Espagnole" (Kreisler).

Miss Katherine Dunn, a former member of the club, was one of the guests welcomed at the luncheon. Miss Martha Staley, an editor of The Economist, who was here from Chicago, also attended.

Mrs. E. Richard Gasch, regional director of the Soroptomist Club, announced plans for the formation of a new branch in Harford County, Md.

She attended a preliminary organization meeting there Tuesday night, at which ten prospective members were present. The region of which Mrs. Gasch is director includes the District of Columbia, Maryland, Virginia, West Virginia, North and South Carolina.

Montreal, May 17 (Canadian Press).
His honor the Mayor of Montreal was unofficially but indisputably disrobed today.
Moths ate all but the buttons of his official $1,400 Mayoral robe, stuffed away in the city's vault to save the annual three per cent. furrier's storage charge. It was easily the most costly economy move on the city's books.

Borah Again Assails Italians, Nazis for Aid to Spain Rebels

In his second denunciation in recent weeks of Fascism and Nazism, Senator William E. Borah (Republican), of Idaho, arose in the Senate yesterday to denounce in unsparing terms "the governments of Germany and Italy" for "carrying on war against the government of Spain."

Borah, in the course of debate over the $663,000,000 War Department appropriation bill, which was passed and sent to conference yesterday, took the floor to assert:

"There is not a large city in the United States today north of Mason and Dixon's Line which does not have a very large number of youth being trained in disloyalty to the American Government."

"Throughout the North there are night drillings and night teachings of hundreds, even thousands of the young of this country in disloyalty to the American flag.

"The leaders, the traitors at the head of the organization, will tell you there is no incompatibility between their loyalty to Fascism and Nazism and loyalty to the American Government.

"It is the same kind of duplicity, the same kind of deception that is being practiced by Fascism and Nazism internationally now against Spain. . . . although the war is unavowed and although they are professing almost every fortnight a desire to advance the cause of peace."

"The war would not be sustained in all probability a fortnight if it were not for the duplicitous and cowardly support which is being given by the German and Italian governments against the Spanish government."

In his former speech Borah attacked Mussolini vigorously. Yesterday he gave especial attention to Hitler.

"The master of Germany a few months ago in a long, devious speech gave an account to the world of his four years of arbitrary reign . . . He said this reign was characterized by, all the principles of a beautiful and perfect democracy.

"The press dispatches said the vast throng cheered as he used this strange hyperbole, and yet not one of them in the great audience could call his life his own."

tempts to torpedo the German cruiser Leipzig off the Algerian coast June 15 and 18.

The communique said flatly that the Leipzig "collided with the Red submarine" after the submarine had fired its last torpedo.

London, June 23 (AP).—Great Britain shouldered the fate of the non-intervention patrol around Spain tonight as Germany and Italy withdrew from co-operation for the second time.

Indignant at the refusal of Britain and France to approve a four-power naval demonstration against the Spanish government, the Fascist and Nazi states rent the neutrality cordon.

Their action left a gap along the eastern coast of Spain where German and Italian warships supervised the 27-nation ban on the flow of foreign volunteers and munitions to Spanish belligerents.

Foreign Secretary Anthony Eden late in the afternoon sped by taxi to Buckingham Palace upon command of King George VI, who wanted to learn at first-hand the status of the Spanish situation.

They were closeted together for an hour.

The foreign secretary faced three problems:

1. Constitution of a new control scheme;
2. Smoothing out of Anglo-German relations;
3. New consideration of the question of granting belligerent rights to the Spanish insurgent regime.

Portugalete, Spain, June 23.—The insurgent tide rolled westward from Bilbao tonight toward Santander, last important city held by the Basques.

Artillery thundered in the hills. Five columns of infantrymen moved out of the Bilbao region on roads leading toward Santander.

Insurgents occupied Portugalete, industrial town which was the last foothold of Basques along the Nervion estuary linking fallen Bilbao to the sea.

So powerful was the new insurgent advance that officers expected to conquer Valmaseda, first main objective, within two days. Valmaseda is west and south of Bilbao, about a third of the distance to Santander.

Funeral Services For W. H. J. Brown

Funeral services for William H. J. Brown, 65, lawyer and former employe of the Statistical Department of the Census Bureau, were held Tuesday at the Birch undertaking establishment, with services in charge of Bernard C. Duncan, reader of the First Church of Christ Science.

A native of Oakland, Calif., Brown was connected with a transportation company there, and later interested in Nevada mining. He is survived by a son, Francis C. Brown, an attorney with the Department of Justice.

Boy, 12, Flies Solo.

New York, June 23 (AP).—Edward Somers, 12-year-old member of an air-minded family, was acclaimed today as one of the youngest pilots ever to fly an airplane alone. Edward yesterday made his first solo flight 3,000 feet over Floyd Bennett Field. His father is Representative Andrew L. Somers, a World War flier.

Mrs. Marian Fields Funeral Is Today

Funeral services will be held at 10 a. m. today for Mrs. Marian Virginia Fields, prominent Montgomery County (Md.) club woman, in St. Mary's Church at Rockville, where many years ago she became the bride of the late Charles W. Fields, long editor of the Montgomery County Sentinel.

Mrs. Fields, 80, died unexpectedly Tuesday at the home of her daughter, Mrs. Elizabeth Wimsatt, 3012 Q street northwest.

Mrs. Helen Morris Funeral Is Today

Funeral services for Mrs. Helen Richards Morris will be held in Fort Myer Chapel today at 1 p. m. Lieut. Comdr. Joseph H. Brooks, Chaplain Corps, U. S. N., will officiate. Burial will be in Arlington Cemetery.

Mrs. Morris, widow of Rear Admiral Charles Morris, Supply Corps, U. S. N., died in Stamford, Conn., Monday.

Granados Funeral Set This Morning

Funeral services for Dr. Ramon Granados, 56, Spanish instructor here since 1910 who died at George Washington Hospital Monday after being found unconscious in his classroom at the Spanish School of Washington, 1343 H street northwest, will be held at his residence in Riverdale, Md., at 9:30 a. m. today. Requiem mass will follow at Holy Redeemer Church, Berwyn, and burial will be in Mount Olivet Cemetery.

Dr. Granados was discovered by an employe in the building in which the school is located. Physicians said he apparently suffered a paralytic stroke.

Surviving him are five daughters, Mrs. Concepcion McKnew, of Branchville, Md.; Mrs. Rosario White and Mrs. Delores Klumpp, both of Washington, and Mary and Mercedes Granados, of Riverdale, and four sons, Luis, Ramon, jr., Juan and Antonio, all of Riverdale, and 13 grandchildren.

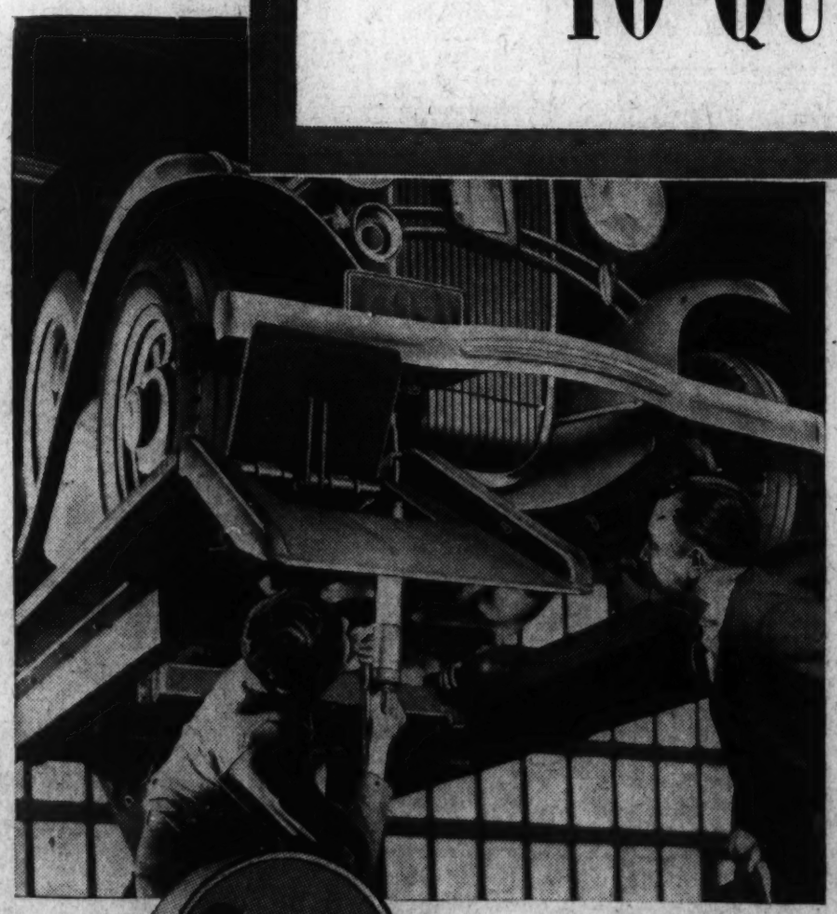
GULF USES A "CRADLE" TO QUIET YOUR CAR



"Rock-a-bye baby!" Gulf's pit-lift jack lets the car rock gently, working lubricants into every crevice.

WE'LL BE SEEING YOU

Don't forget—drop in and get acquainted even though you don't intend to spend a penny. We think you'll find us as free with our hospitality as we are with our air.

New type lubrication silences chassis—Get it at all Gulf Super Service Stations

"WHAT will those Gulf people do next!"

Now—at many Gulf stations—there's a new kind of lubrication lift that borrows an idea from baby's cradle. It lifts the car up *and then lets the chassis rock gently as it settles*, so the lubricants penetrate deeply.

It actually duplicates the action of a ride on the road—and nary a squeak remains in the chassis when the job is done!

Unique, different . . . thoroughgoing as all Gulf service. Every job you get at the Sign of the Orange Disc is expert and conscientious—whether it's doctoring a leaky tire or a squeaky spring.

Come in and look over our fine equipment, meet our experts, and you'll be convinced!

Louis Signs New Contract With Jacobs; Wants to Meet Max Schmeling Next

NATS POUND THREE HURLERS, DOWN CLEVELAND, 14-5

Busy Time Is Planned For Champ

New York Promoter Also Signs Braddock to 2-Year Contract.

By Alan Gould.
Associated Press Sports Editor.

Chicago, June 23.—Mike Jacobs, the grizzled New York ticket broker who has now become the new Tex Rickard of pugilistic promotion, today plans to make Joe Louis the busiest heavyweight champion in the history of the boxing industry.

The strengthening of his hold upon the trump cards without delay, in the wake of the Negro's spectacular knockout of James J. Braddock, Jacobs announced a two-year extension of his contract with the 23-year-old title-holder.

The extension gives Jacobs exclusive promotion rights to the Negro's services for the next five years, or until 1942. A clause in the agreement, which was signed before last night's bout, provides for as many as four fights a year, if adequate competition is available.

The contract's existing fight clause already has been three-fourths fulfilled for 1937, so that Jacobs is concerned mainly with the objective of giving the new champion one more match this year, preferably against Max Schmeling this September, in New York.

Gives Me Schmeling.

"That's the man ah wants to fight next; yes, suh, and ah'll make it a different story," said Louis after switching discussion from the details of his conquest of Braddock to the prospects of getting into the ring again with the German who knocked him out in 12 rounds just one year ago.

Louis readily agreed with the consensus of experts that his title status won't be absolutely free and clear unless and until he turns the tables on Schmeling. The champion expressed willingness to fight Schmeling "any time, anywhere that Mistah Jacobs says," but this other "natural" may not be signed, sealed and delivered without considerable negotiation or wrangling.

Jacobs, delaying any definite promotion steps for several days or until he returns to New York and has time to digest the flood of propositions already pouring in on him, refused to concede that Schmeling's pending fight with Tommy Farr, the British Empire champion, in London, would upset his hopes of bringing the German back to the United States to fight Louis.

"Schmeling is the man we want, first, and I think he will listen to reason," said the promoter, whose sentiments were echoed by Joe Jacobs, the German's American representative. "Max can't afford to wait, at his age, if he hopes to be the first man to win back the title."

Many Sites Offered.

Mike Jacobs, with offers from Detroit and Cleveland for a Schmeling-Louis fight already in his pocket, also mentioned Philadelphia, Chicago and London, as well as New York, in listing possible sites for the next fistic appearance of the first Negro to scale pugilism's highest peak since Jack Johnson knocked out Jim Jeffries, 27 years ago.

Jacobs charged he had been given the "run-around" by London promoters, who, he said, had gone ahead with plans for a Farr-Schmeling fight, without regard to an agreement by which the American promoter was to provide the next opponent for the British champion and still have the inside track on Schmeling's services.

Jacobs, meantime, disclosed he had effected a three-year agreement for the exclusive fighting services of Braddock. Mike concurred in the fallen champion's idea that he isn't "through." The promoter hopes to find a suitable opponent for Braddock in the fall or early winter. Braddock's manager, Joe Gould, aired a preference for a match with another former titleholder, Max Baer, now making a comeback abroad.

Ten Stitches Necessary.

Braddock insisted his two-year layoff, rather than his age or failing fistic powers, was the main thing that licked him. The gallant Irishman, who gave the crowd a thrill by flooring Louis in the first round before being pounded into senselessness, had ten stitches taken in his upper lip. He otherwise showed vividly the effects of his execution by the Negro's right hand.

Behind the former champion's desire to continue fighting is the fact he probably profited personally, in his first title defense, by no more than enough money to get him safely into the financial "clear," at long last. Braddock's 50 per cent share of the net receipts was calculated at $296,500, but half of that sum goes to his manager, another big chunk to the tax collectors, and a substantial slice to repay loans, thereby leaving no more than $60,000 for the Braddock family coffers.

The fight fell considerably below expectations, with gross ticket receipts of $640,420.34 and a net "gate" of $518,880.50, exclusive of $75,000 derived from film and radio rights, but it returned a good profit for all concerned and topped any heavyweight title fight since the first Schmeling-Sharkey match in 1930 at New York.

Fight Figures

By the Associated Press.

Chicago, June 23.—Here's a recapitulation of the Braddock-Louis fight figures:

Gross receipts—$715,420.34, including taxes and $75,000 from radio and film rights.

Net receipts—$593,380.50, after deduction of taxes.

Braddock's share (50 per cent of total net), $296,690.

Louis' share (17½ per cent), $115,125.

Paid attendance—41,684, including 13,741 buyers of $27.50 ringside tickets.

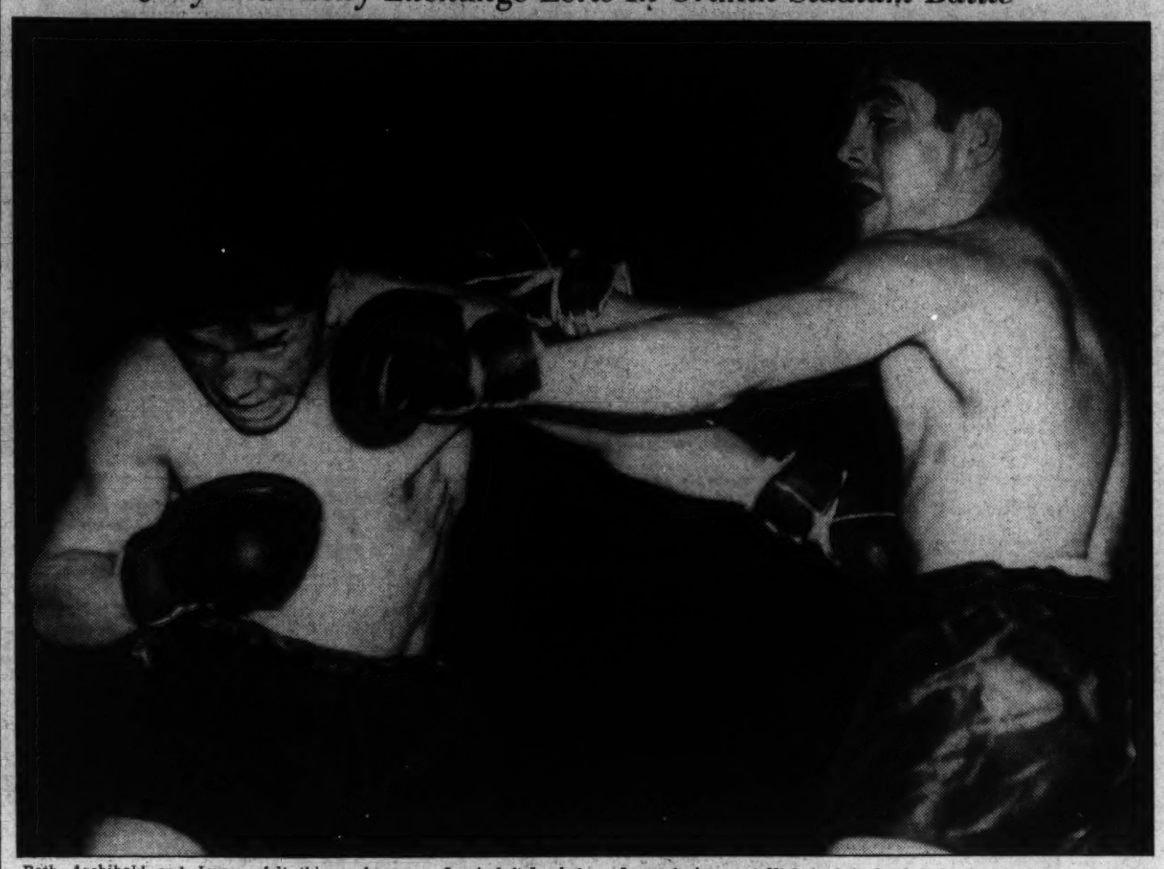
Joey and Nicky Exchange Lefts In Griffith Stadium Battle



Both Archibald and Jerome felt this exchange as Joey's left landed on Jerome's jaw and Nicky's left landed in Joey's tummy. Nicky failed to answer the bell for the tenth round and Archibald won on a technical kayo.

Giants Trim Cubs, 8 to 4; Aid Hubbell

By the Associated Press.

Chicago, June 23.—Aided considerable by a revamped batting order that gave him a six-run margin in the first three innings, Carl Hubbell today pitched his first complete game since May 19, when he bested Dizzy Dean, and hurled the New York Giants to an 8 to 4 triumph over the Cubs. Victory brought the New Yorkers up within a game of league-leading Chicagoans.

Not only was this Hubbell's first full game in over a month, but it marked the end of his four-game losing streak that had threatened to assume the record-breaking proportions of his two-year string of unbroken triumphs.

Despite the margin given him at the start, with Wally Berger and Mel Ott accounting for three runs on successive home runs in the first, it wasn't all clear sailing for the screwball master.

Archibald Wins Bout On Technical Kayo

Jerome, Victor in First Four Rounds, Unable to Answer Bell for 10th; Buddy Scott Beats Tiger Lewis.

By Bob Garrison.

Joey Archibald, a little man with a Max Schmeling right hand, last night punch-socked his way to a sensational 9-round technical knockout over Nicky Jerome, featherweight title contender from Greater New York, in the feature event scheduled for 10 rounds at Griffith Stadium.

Rising from a sick bed, Joey, the former New England featherweight champion, lashed out with a series of paralyzing rights as early as the fourth round that eventually strained a cord in the Brooklyn fighter's neck, forcing him to forfeit the fight at the end of the ninth round.

Although he entered the ring on the short end of 6-5 odds, Archibald was the winner all the way. Except for the in-fighting, where Jerome operated with machine-gun rapidity to take the first two rounds, Archibald was ever in command of the fight with his right-hand blasts, sending the favorite to the canvas twice in the fourth round.

Both in this and in the eighth round, native fighting instinct alone kept Jerome on his feet. Coming in with his head low, he was a direct target for the well-timed barrage of right gloves which staggered him into submission.

Jerome proved to the 3,000 spectators that he was a clever fighter by his offensive tactics even though he couldn't do damage, so weakened was he after the fourth round.

Both were willing to mix it, and until the fourth, it appeared to be swinging in Jerome's direction. When he become groggy he did not change his fighting form, however, but continued to bore in, even though he was being dynamited by Archibald.

When he staggered to his corner at the end of the ninth round, after having withstood a mild calamity, Referee Muggsy Morris chose to stop the fight and award it to Archibald, who has now scored four successive wins in a Washington ring.

George Abrams, Washington lightweight, won from Bobby Wilson, Baltimore, on a technical knockout in the second round. After blood had been brought from Wilson's nose in the first round, he became an easy target for Abrams' solid smashes.

Referee Charlie Reynolds stopped the fight after Wilson had been floored for a count of nine following 2 minutes and 25 seconds of fighting.

In a six-round preliminary, Roy Bailey, of Miami, Fla., won a split decision from Al Lowman, Baltimore middleweight, in a bruising battle.

In another six-round affair, Gene Buffalo, Philadelphia, won from Seabor Ashley, Jersey City, after a strong comeback. He was floored in the first, but did not take a count, only to continue to take the fight to Ashley.

Russell (Buddy) Scott, Washington light-heavyweight, winner of 32 consecutive fights, won a unanimous decision from Tiger Red Lewis, Richmond, Va., in a slow ten-round semiwindup.

Lewis, who gave away age and experience, was willing to take the fight to the former Oklahoma golden gloves champ, but when he found he could not stand the return punishment, he quickly mounted his bicycle. Scott, trying desperately to knock out the squat Virginian, was unable to find the opening, however, and had to be content with a victory on points.

He brought blood from Lewis' face in the third round, but Lewis went into a shell of protection, being careful to keep his chin out of range.

Macks Lose To Chisox; Drop to 8th

By the Associated Press.

Philadelphia, June 23.—The Athletics, the talk of the American League little more than a month ago, completed a plunge from first to last place today, losing 2 to 0 to the Chicago White Sox as St. Louis beat New York.

The Sox made only three hits off Bud Thomas and Herman Fink, but two of them were homers by Mike Kreevich and Luke Appling. It was the Athletics ninth straight defeat. They have won only three games in the last month.

Bill Dietrich, of no-hit game, yielded only five hits, but was taken out in the eighth after the Athletics filled the bases with two out. Brown retired Newsome for the third out. In the sixth, Moses doubled, but was out at the plate trying to score on Johnson's infield hit.

BASEBALL'S BIG SIX

By the Associated Press.

The four hits he banged in five trips to the plate against the Yankees yesterday jumped Roy (Beau) Bell, of the Browns, right into the "Big Six" of batting leaders. He added 10 points to his average in advancing from fifth to third behind Lou Gehrig and Gerald Walker. Joe Medwick, of the Cards, slipped 3 points, but remained safely above the .400 mark, to pace the National League entries.

Travis and Kuhel Hit Homers; Almada Bangs Double, Triple

Harris' Crew Collects 17 Safe Blows Off Tribe Trio.

A Post staff photo of yesterday's ball game appears on Page 21.

By Shirley Povich.

Discharging 17 hits full in the faces of three Cleveland pitchers yesterday, the Nats nosed out the Indians, 14 to 5. If it had been a prize fight, they'd have stopped it in the fifth inning when the Nats had a 12-to-2 lead and the Indians were simply hanging on.

Thus the Washington athletes matched their longest winning streak of the season—four straight—and added to the woes of the hapless Clevelanders, who have won but one game in eight starts on their current Eastern invasion.

Even Jimmy DeShong, pitching one of his less skillful games, couldn't give the game back to the Indians. The Nats conferred the victory on DeShong with a series of early inning uprisings and thereafter he was coasting. The Injuns reached him for 13 hits, but DeShong never permitted more than one run in a single inning.

The particular cut-ups against the dubious Cleveland pitching were Mel Almada, Joe Kuhel and Cecil Travis. Dennis Galehouse, the Indians' starting pitcher, couldn't get either Almada or Kuhel out in two tries and the Nats' first baseman topped off his batting efforts for the day with a booming home run over the right field wall against John Heving in the fifth inning.

But Travis had set a shining example for Kuhel back in the fourth when he lashed a line drive to the deepest corner of centerfield and beat it out for an inside-the-park homer. There was a man on base on each occasion.

Mel Almada, though, was the fellow who really inspired the Nats' slugging. He waded into Galehouse's first pitch for a three-bagger to center and in the second inning he lashed a double to left. He made it three hits for the day when he beat out a slow-hit grounder to Trosky.

The Indians were in front, no kidding, at one stage of the game. That was in the first inning when Lary and Hughes led off with singles to put the Tribe in a 1-0 lead. Almada's triple, Kuhel's single, a muff by Second Baseman Hale and an infield out brought the Nats two runs in the same session and the rout was on.

Washington went out and got four more runs in the second inning—after two were out. They did it with five straight hits—Almada's double to left, Lewis' single to center, Kuhel's single to right, Stone's single to left and Sington's double to right that knocked the last two runs in and Galehouse out.

Thereafter, it was just a breeze. Kuhel got on base in the fourth when Hughes and Trosky failed to arrive at any decision whatsoever on which should catch Kuhel's pop foul in front of the pitcher's box and, pending their debate, the ball dropped safely. Then it was that Travis hit his homer. That made it 10-2.

Rick Ferrell's single launched a four-run assault against Heving in the fourth and Kuhel's line drive over the rightfield fence ended it. That made the score 12-2. A single by Travis, another by Rick Ferrell—his third straight—and Becker's wild throw made it 14-3 in the sixth, but the Indians went down fighting.

They lashed out two hits against DeShong and scored a run in the ninth, their rally falling only nine runs short of tying the score.

Hugh Mulcahy Hurls Phillies To 3-0 Victory

Cincinnati, June 23 (AP).—Hugh Mulcahey pitched the Phillies into sixth place in the National League race today with a four-hit 3-to-0 victory over the Reds, who dropped to seventh position after a one-day stand ahead of the Phils.

Mulcahy permitted no more than one hit in any inning.

Rookie Southpaw Johnny Vander Meer, except for walking six men, kept on even terms with Mulcahy until the seventh, when Scharein's single, a walk to Mulcahy and Young's two-base blow to right center brought in the Phillies' first two runs. Gene Schott relieved Vander Meer and was greeted by Whitney's single that scored Young.

Charles Town Feature Won by Stool Pigeon

Jockey Palumbo Brings Gelding in Ahead of Field for Thoroughbred's Sixth Victory of Season—5,000 At the Track.

By Walter Haight.

A Staff Correspondent.

Charles Town Race Track, June 23.—Stool Pigeon, having the most successful year since he came to the races in 1932, added another purse to his string by winning the Baltimore Day Handicap, feature of today's eight-race program at this mountain race track. The gelded son of Runatell was ably handled by Jockey Palumbo, leading rider hereabouts, and brought his backers a $6.80 mutuel. Stool Pigeon was winning his fourth race in five starts at this course and his sixth triumph of the year.

Palumbo brought the gelding home three lengths in advance of Stand By, a sprightly 11-year-old which, in turn, downed Irene's Bob by a neck. Timber Lady, the favorite, finished fourth after Jockey Terhune couldn't keep her in at the final bend. Terhune was trying to rough up his rivals at the time and the stewards handed him a suspension for the remainder of the meeting.

A crowd of 5,000 visited this track this cool June day and betting was brisk for a midweek program. Those who invested $2 in the numbers six and five in the daily double, were those who collected an $87.60 pay-off.

The day's secondary feature, for juveniles, resulted in a victory for Green Water. The Happy Time filly downed Goodwine and Can Bloom. Ridden by Jockey G. Miller, Green Water rewarded her supporters with an $11.20 mutuel.

G. F. Cook, Washington sportsman, watched his filly, Clymene, win the first race from a field of maidens. At a $30.40 mutuel, the daughter of Abbot's Nymph came from off the pace to defeat Brooke Herod by a nose. Envious was third in the battle fought over the "Charles Town" course. Clymene was capably handled by Jockey R. Root.

Adriatic, Mrs. E. E. Clemson's gelding, made a show of his field in the second race. Guided by Jockey Vernon Wisner, Adriatic was in front all the way and never was seriously threatened. Turn Up was the well beaten second in the field and Justa Jimmie was third. The winner paid a $10.20 mutuel.

Kyoto, a 7-year-old mare, ran the favored Vanvola into defeat and went on to win the third race from Counsellor Billy. Vanvola managed to salvage third money. Ridden by Jockey L. Machado, Kyoto rewarded her backer with a $10.20 pay-off.

Jockey Root rode his second winner of the afternoon aboard Channing, a $22.80 shot which came with a stretch rush that disposed of Rough Player and Rouqepine. Root did not hustle his mount during the early stages but put him to a drive swinging for the stretch. Rough Player charged on him at the end but too late to change the result.

Claimed out of her last race by J. E. Crider, Miss Adeline won at the new owner's first asking in the seventh race. Bringing Jockey Root his third winner of the day, the grey filly defeated Peggy Can, the heavily played favorite, by a neck, with Landsman third. Her victory brought Trainer George A. Cook, of Washington, a double.

Early Call, ridden by L. Machado, took the finale at a $6 mutuel.

Heffner Wins D. C. Junior Tennis Crown

Defeats David Johnson in Three Sets; Later Wins in Doubles.

By Bob Garrison.

Harry Heffner, tenth ranking junior of the country, became the junior champion of the District yesterday when he marched through the singles and doubles finals of the City of Washington Tournament.

He defeated David Johnsen for the singles crown, 6—1, 6—1, 6—2, then teamed with him to win the doubles by defeating Harry March and Dick Turner, 8—6, 6—2, 7—5, on the Edgemoor Courts.

Heffner, with a varied assortment of strokes at his command, was complete master of his doubles partner and easily outclassed him in straight sets.

Loses Spirit.

After losing the first set and failing to get off to a good start in the second, Johnsen seemed to lose spirit, losing point after point by strong returns which fell beyond the baseline. Johnsen, who has shown championship caliber in this and the Grand National Tourney, never threatened to make a match of it and bowed on his own errors.

But in the doubles competition it was a different story. Johnsen carried the game throughout the first set, scoring beautiful placements and forcing the March-Turner team into faults at every turn. March, who covered the court, kept the losers going in this set, aided by Turner's service.

Regains Poise.

With Heffner's steadying influence Johnsen was himself throughout the doubles match. His shots were deadly accurate and, aided by Heffner's uncanny gets, which were retrieved by lengthy slides, they spelled victory, even though both Johnsen and his partner showed signs of fatigue from their singles match.

Heffner and Johnsen will be joined by Tom Wadden, Western High's ace player, who won the boys' championship Tuesday, when they leave tonight for Norfolk to compete in the Middle Atlantic tournament.

Entries Pour In for Annual 10-Mile Grind

Entries for the annual Fourth of July 10-mile marathon, sponsored by the Department of Playgrounds and the Takoma Park Citizens, are pouring into the office of Richard S. Tennyson, assistant supervisor of playgrounds, who is directing the marathon committee.

Tennyson expects at least 80 entrants for this race, an important feature of the Independence Day program here. The race will be staged July 5, because the holiday falls on Sunday.

Bill Wilson, sturdy Philadelphia distance ace who finished first last year running under the colors of the Passon A. C., is expected to defends his laurels. Bill Agee, of Baltimore, winner in the grind eight times in the ten years it has been held, also will enter.

The field of favorites may include Mel Porter, the New York star who recently won the National A. A. U. 26-mile title here.

The course for the race will be the same as in the past several years. The runners will start at a point below the railroad bridge on the Mount Vernon boulevard and continue through the Washington streets to the Takoma Park Playground, Fourth and Van Buren streets northwest.

Eastern Players Are Erased From Collegiate Net Tourney

By the Associated Press.

Haverford, Pa., June 23.—The East was completely erased today from the National Intercollegiate Tennis Singles Championship as eight players entered the quarter-final round on the grass courts of the Merion Cricket Club.

Three of the victors are from the Far West, three from the South and two from the Middle West.

Robert Madden, of Pittsburgh, and William V. Winslow, of Princeton, who were left holding the fort for the East after yesterday's competition, were crowded out today.

Madden lost to Archibald Henderson, of the University of North Carolina, 6—4, 6—2, while Winslow bowed to Carl Fischer, of the Western State Teachers College, Kalamazoo, Mich., 9—7, 6—4.

Julius Heldman, of the University of California at Los Angeles, was the only one of the eight to win without extending himself. Heldman eliminated Bill Westerfield, of Tulane, 6—2, 6—1.

Although Ernest Sutter, the defending champion from Tulane, won in straight sets, he suffered a few uncomfortable moments when Morrey Lewis, of Kenyon, squared the second set at 5-all. Sutter was forced to produce his best tennis to win, 6—2, 9—7.

Lewis Wetherill, of Southern California, national public parks champion, dropped the first set to the energetic George Ball, of Northwestern, but he collected himself to win the match, 4—6, 6—1, 6—3.

Richard Bennett, of the University of California, found Donald McNeill, of Kenyon, fighting him for every point. After pulling out the first set, 6—4, Bennett found the second set squared at 5—5 and 6—6 before he could overpower his opponent to win the match, 6—4, 8—6.

The defeat of McNeill saw the last of Kenyon's three survivors go out of the picture.

In the quarter-finals tomorrow Sutter will play Fischer, and Bennett will meet Henderson on the upper half of the draw, while Wetherill meets Heldman, and Kamrath encounters Cameron on the lower half.

Dusek, Cox Head Wrestling Show

Promoter Joe Turner will present his first outdoor wrestling show at Griffith Stadium tonight. A goodly portion of the proceeds will be donated to the District Softball Association to help defray expenses to national and other tournaments.

A double windup between Rough Rudy Dusek and Jumpin' Joe Cox, and Wee Willie Davis and Reb Russell, the former sheriff, will head the card.

Preliminaries pit Joe Maynard and Jack Kennedy, Nick Campofreda and Jack Hader, and George Lenihan and Bob Roberts.

Two-dollar mutuels paid—CLYMENE, $30.40, $20.40, $9.20; BROOKE HEROD, $7.80, $5.00; ENVIOUS, $3.20.

CLYMENE, rated along just off the pace of BROOKE HEROD, came to outside of leader entering stretch and under stout handling, was up in final stride. BROOKE HEROD had good speed from start, set a steady pace and closed willingly, but could not resist the winner. ENVIOUS, forwardly placed, gained some ground swinging for the stretch, but hung in final drive. CANTER BELLE began to fade after three-eighths. The others could not threaten.

SECOND RACE—Charles Town course. Purse, $400; claiming. For 3-year-olds and upward. Start good from stall gates. Won easily; place driving. Went to post at 3:05. Off at 3:05½. Winner, Mrs. E. E. Clemson's b. g. (9), by Oceanic—Flying Flower. Trained by J. McPhillips, Jr. Value to winner, $300; second, $60; third, $30; fourth, $10. Time, 1:17 3-5.

†Broke down.

Two-dollar mutuels paid—ADRIATIC, $10.20, $5.80, $4.20; TURN UP, $5.20, $4.00; JUSTA JIMMIE, $3.80.

ADRIATIC, sent to the front at once, drew out to a commanding lead and won with speed in reserve after saving ground. TURN UP chased the winner from start and showed good effort. JUSTA JIMMIE rallied sharply swinging for the stretch and weakened. DARLING PAT could not seriously threaten after a hard ride. GAY BRIDE had speed for a quarter and tired. The others were not prominent.

THIRD RACE—Charles Town course. Purse, $400; claiming. For 3-year-olds and upward. Start good from stall gates. Won driving; place same. Went to post at 3:32. Off at 3:32½. Winner, L. Two-dollar mutuels paid—KYOTO, $10.20, $5.80, $3.60; COUNSELLOR BILLY, $28.00, $9.80; VANVOLA, $3.00.

KYOTO raced VANVOLA into defeat and took command in stretch to last ahead of closing rush of COUNSELLOR BILLY while kept to pressure. The latter, forwardly placed throughout, saved ground entering stretch and came with a rush in closing 30 yards. VANVOLA was used up setting pace under hustling tactics. CHAUMONT closed some ground in late stages. MABEL BEYOND stopped in stretch after being prominent. The others had no mishaps.

DAILY DOUBLE PAID $87.60.

FOURTH RACE—Seven furlongs. Purse, $500; claiming. For 3-year-olds and upward, foaled in West Virginia and Virginia. Start good from stall gates. Won driving; place same. Went to post at 3:59½. Off at 4:01½. Winner, Mrs. C. E. Willson's b. g. (4), by Single Foot—Brandon Beth. Trained by C. E. Willson. Value to winner, $350; second, $75; third, $50; fourth, $25. Time, 1:26 3-5.

Two-dollar mutuels paid—CHANNING, $22.80, $7.30, $3.00; ROUGH PLAYER, $5.60, $3.60; ROQUEPINE, $3.40.

CHANNING, allowed to settle into best stride, came around horses to improve position swinging for stretch and under pressure won going away. ROUGH PLAYER, outrun for a half, came with excellent courage in stretch and was gaining on winner at end. ROQUEPINE took command going to far turn and drew out, but weakened suddenly in final 30 yards. HALLOO ran PLAIN ACE into defeat, pressed pace of ROQUEPINE, but faltered badly in final sixteenth. PLAIN ACE stopped.

FIFTH RACE—About 4½ furlongs. Purse, $400; claiming. For 2-year-olds. Start good from stall gates. Won driving; place same. Went to post at 4:31½. Off at 4:32. Winner, C. Sutphin's ch. f. (3), by Happy Time—Green Stripe. Trained by E. Sutphin. Value to winner, $300; second, $60; third, $30; fourth, $10. Time, 0:51 1-5.

Two-dollar mutuels paid—GREEN WATER, $11.20, $7.20, $5.60; GOOD WINE, $4.60, $3.40; CAN BLOOM, $3.00.

GREEN WATER, prominent from start, saved ground while running CAN BLOOM into defeat and continued gamely to hold GOOD WINE safe. The latter, away tardily, gained sharply swinging for stretch and closed with a rush on inside. CAN BLOOM was used up running with GREEN WATER. MUDDLER, slow to begin as usual, closed a gap. PHILIGAL broke well and had no excuses.

SIXTH RACE—About 4½ furlongs. Purse, $700; handicap. For 3-year-olds and upward. Start good from stall gates. Won driving; place same. Went to post at 5:01. Off at 5:04½. Winner, H. C. Vaughn's b. g. Two-dollar mutuels paid—STOOL PIGEON, $6.80, $4.20, $2.80; STAND BY, $13.40, $5.00; IRENE'S BOB, $3.60.

STOOL PIGEON, nicely handled, was sent to front in opening furlong and drew out gradually under strong hand riding. STAND BY, off alertly, dropped back and came with good courage in final test. IRENE'S BOB went evenly, but did not seriously threaten. TIMBER LADY pressed the pace of STOOL PIGEON and ran out badly at final turn. TOM'S BOY saved ground, but could not menace. PIMENTO II and JINNEAL ware outrun.

SEVENTH RACE—Seven furlongs. Purse, $800; claiming. For 3-year-olds and upward. Start good from stall gates. Won driving; place same. Went to post at 5:20½. Off at 5:34½. Winner, J. E. Crider's gr. f. (3), by Sir Grey Steel—Variety. Trained by G. A. Cook. Value to winner, $350; second, $75; third, $50; fourth, $25. Time, 1:26 2-5.

Two-dollar mutuels paid—MISS ADELINE, $18.60, $6.00, $4.60; PEGGY CAN, $3.60, $3.60; LANDSMAN, $7.80.

MISS ADELINE, off well, and taken under steadying restraint to stretch, wore down PEGGY CAN and was drawing out at end. PEGGY CAN, rated along behind the pace of LANDSMAN, rallied when called upon, took command, but could not resist the winner. LANDSMAN bumped JIM MOSS coming out of gate, was sent to front, but weakened in stretch run. MAHOGANY went forwardly throughout and showed a good effort. JIM MOSS had no chance after interference at break. GAGNE tired under hard riding.

EIGHTH RACE—One and one-sixteenth miles. Purse, $400; claiming. For 3-year-olds and upward. Start good from stall gates. Won driving; place same. Went to post at 6:05. Off at 6:06. Winner, L. Cox' b. g. (4), by The Porter—Fleeting Dawn. Trained by P. Suart. Value to winner, $300; second, $60; third, $30; fourth, $10. Time, 1:49 2-5.

Two-dollar mutuels paid—EARLY CALL, $8.00, $3.40, $2.80; COUNTER PASS, $3.00; WARNED OFF, $4.20.

EARLY CALL, saving ground while steadied along closest to the pace of WARNED OFF, took command when called upon and was kept to drive to end. COUNTER PASS, shuffled back at break, saved ground entering stretch and came with a belated rush. WARNED OFF, first away, saved ground while setting pace, but weakened in closing stages. STAR SPECIAL lacked early speed, went to contention with good speed, but faltered. ROSEMARIE B. had speed in spots. WRACKATELL had speed for a mile.

About Schmeling's 'Claim' to Title

By Shirley Povich.

There's not much sense in arguing that Joe Louis is not the heavyweight champion of the world. The bitter-enders and diehards can shout themselves hoarse that the Detroit brown boy can never be the legitimate champion until he wipes out that blot on his record which was left by the sodden right fist of Max Schmeling, but they will be shouting up the wrong alley.

POVICH.

Schmeling beat Louis, sure 'nuff; knocked him cold, in fact, but that isn't argument enough to deny the Detroit Negro the title. He won it squarely, impressively, from the defending champion, and that is all that is necessary to establish the legitimacy of his claim.

All they ask in the prize ring racket is for the guy to beat the champ. Then, the title is his to have and to hold as long as he can hold it. The dissenters in Louis' case would have had to bar Dempsey, Tunney, Sharkey, Baer and Braddock from championship claims if they follow the same logic.

* * * *

Louis isn't the first champion who ever lost a fight on his way to the title. Dempsey was knocked out by Jim Flynn, had two ribs busted in a losing battle with the Negro, John Lester Johnson, and took a beating from Willie Meehan before he succeeded to Willard's crown.

* * * *

And Tunney, humph! He was beaten by the middleweight Harry Greb and was thrown out of the ring for stalling in a bout with Jack Renault, but that didn't cloud his claims to the championship when he beat Dempsey up there at the Sesquicentennial in 1926.

And Sharkey—he was something of a bum before he beat Schmeling for the title. Romero Rojas, a fistic nonentity, knocked him out in nine rounds, and fellows named Kay Christner, Charley Weinert, Bud Gorman, Jim Maloney and Arthur De Kuh beat him, but Sharkey was accepted without dissent when he beat Champion Schmeling.

And if Schmeling refuses to recognize Louis as the champ on the grounds he beat Louis before the Negro won the title, then he is admitting he didn't have a clear claim to the crown when he, himself, won it back there in 1930. Because a stumblebum named Gypsy Daniel slapped him down for the full count before he left his native Germany.

* * * *

There were never any dissenters in Braddock's case. He beat Max Baer and was thoroughly accepted as the champ, yet Braddock had lost more than 20 fights during his career. The former champ was probably the most thoroughly beaten champion who ever ruled the heavyweight division, yet there was none to dispute his claim to the title after he whipped Baer.

* * * *

And thus there can be none to dispute Louis' claims. He beat the defending champion and that is all that is asked of a challenger.

Metninks Louis is in for a long reign as champion—the longest, perhaps, in the history of the heavyweight division. He has a swell start. He is the youngest champ ever to hold the title. At 23, he is 14 years younger than was Bob Fitzsimmons when the Australian won the crown.

Survey the fistic horizon and you'll find only one guy with even a ghost of a chance to beat Louis. He is Max Schmeling. The others who label themselves as contenders—Baer, Braddock, Farr, Pastor, are perhaps the poorest lot of challengers the division has seen. And Louis certainly is one of its greatest champions.

But the German, Schmeling, cannot be discounted, of course. Max's knockout of the Negro is still too vivid to permit any light dismissal of his chances in another fight with Louis. As long as he can swing that sharpshooting right hand, he will be a threat to Louis.

* * * *

Schmeling, however, is nearing 32 and he has already laid off more than a year. That would have to be considered in any appraisal of his chances against Louis. Probably the most flattering commentary on Louis' standing in the heavyweight division is that when he meets Schmeling, the man who knocked him out, Louis will be the betting favorite at ring time.

Bluefield Takes Washington Race

Chicago, June 23 (AP).—Bluefield, owned by Pat and Dick Nash's Shandon Farm Stable, raced to victory today in the featured event at Washington Park, the Col. Tom Watkins Purse. Bluefield, 2-year-old daughter of Sun Flag—Play Around, scored her second win in three starts, her only defeat coming in the Princess Pat Stakes when she had bad racing luck.

Jockey Irving Anderson took Bluefield to the front at the start of the five-furlong race, but Crosskeys kept her company all the way. Entering the stretch, Bluefield ran a bit wide and Crosskeys moved up on the inside and all but caught the Shandon Farm miss. But she kept going and won drawing out by half a length. Crosskeys was second, and Len Pola was third. Bluefield ran the five furlongs in the good time of 0:59 4-5 and paid $5.

First Marlin Caught.

Ocean City, Md., June 23.—The honor of catching the first marlin at Ocean City, Md., goes to L. C. Dawson, Baltimore, Md., who was out with Capt. H. C. Mattison on the Mousie II, and Dawson landed a 90-pound marlin in 40 minutes.

McCarthy's 77 Tied by Pitt, Yoder

Gene Pittman Scores 72, Parker Nolan Next With 73.

By Merrell W. Whittlesey.

Billy Shea, the reigning Middle Atlantic junior titleholder, stepped into the championship class yesterday and won the medal honors in the thirty-third renewal of the Middle Atlantic tourney by shooting the Congressional course in 70, 2 strokes under par. His score was as many strokes ahead of Gene Pittman, Conpressional, who folded on the back nine after playing 13 holes in 3 under regulation figures.

Shea, a member of the host club, made but two mistakes and dotted his card with four birdies and a dozen pars. A three-putt green on five and a poorly hit drive on fifteen were his only over-par strokes. Birdies on 6, 8, 13 and 18 resulted from putts of 3 to 15 feet.

Trailing Pittman, who ran into trouble on four successives holes, starting with the fourteenth, was Parker Nolan, the Congressional club champion, with a 73 that included five birdies, three in a row from two through four, and six over-par holes.

Martin McCarthy, the Beaver Dam ace, was next in line with a 39-37—76, two over par on each nine, while the 77 class included four of the standout golfers of the tournament.

Morton McCarthy, the former champion from Princess Anne, replayed his round today after his 72 of yesterday was disqualified for practicing on the course, and he shot the course in par figures on the back nine, to finish with the 77.

Harry G. Pitt, also a former champ, joined Levi Yoder, the defending titleholder, in the 77 bracket, Pitt shooting 37-40 and Yoder, 39-38. Billy Dettweiler, the Georgetown University star also from the host club, completed the 78 breakers with a 40-37—77.

Spencer Overton and Donald McPhail were the only Baltimore entries to make the first flight, the bespectacled Rolling Road star shooting a 78 with McPhail a stroke behind.

A play-off for three places between Merrill Lord, of Columbia; Bernard Dennell, of Beaver Dam, and Dave Thomson, of Manor, resulted in victories for Lord and Dennell with par 5's on the first hole. Thomson finding a trap on his third and taking a six.

The pre-tournament booking that called for Yoder and Volney Burnett, the Maryland State champion, to settle the top ranking in this section, was all in favor of Yoder as Burnett, medalist in four previous tournaments, failed to qualify by taking 81 strokes.

The first match off the tee today finds the champion, Yoder, and Medalist Shea opposing in the first round with other top-notch matches including Nolan vs. Overton and Pitt vs. McPhail.

Harvard Beats Yale.

Cambridge, Mass., June 23.—After spotting Yale six runs in the first three innings, Harvard came from behind with a wild eight-run rally in the fourth and continued on to gain a 10-7 victory today to even the sixty-seventh baseball series between these ancient "Big Three" rivals.

Ranger Wins Again.

Aboard Coast Guard Cutter Faunce, off Newport, R. I. (AP).—Harold Vanderbilt's Ranger, which never has been defeated, coasted to a 5½-minute victory late today over Gerard Lambert's Yankee in the tenth trial to select an America's Cup yacht defender.

Louis May Fight Twice This Summer

Chicago, June 23 (U.P.).—Mike Jacobs indicated today he was hopeful of staging the September Louis-Schmeling title brawl in Chicago when he placed most of the Comiskey Park ringside layout in storage in a Chicago warehouse. This layout was brought in from New York for Tuesday's fight.

To Stymie Max Schmeling's "blackjacking" efforts, Jacobs announced he would try to have Champion Louis engaged in two title fights this summer—in late July and September. He will announce the details when he returns to New York.

Mitchell Wins In Three Sets From Latona

By Jack Munhall.

Dooley Mitchell, seeded one, advanced to the semifinals of the Grand National Amateur tennis tournament, defeating Tony Latona, fifth ranking player, 11—9, 2—6, 6—3, in a gruelling match yesterday at Edgemoor.

The winner joins Buddy Goeltz, No. 1 foreign player; Yelverton Garnett and Hugh Lynch rated behind him in that order, in the prefinal round which will be played Saturday at Edgemoor. The final is scheduled for Sunday.

Latona, the trim playground instructor and formerly a student at Georgetown University where Dooley now teaches, played his best tennis thus far in vain as Mitchell also rose to heights and outlasted the challenger.

The first set was easily the most closely-contested. Latona thrice broke his foe's service only to see him counter each time and they fought on even terms until the nineteenth game, when Mitchell broke Latona's service and held his own to win in the twentieth game.

Tony came back in great style to easily sweep the tying set, 6 to 2, when his low forehand blasts rendered Mitchell's Western grip helpless. Mitchell dropped the final game more or less intentionally, only choosing to make Latona run, in order to earn the service in the initial game of the deciding set.

Dooley dropped that service but retaliated by taking Tony's and then captured the third game to lead 2 to 1. Latona held in the fourth but Mitchell, aided by Latona's double faults, romped through the next two. The score was now 4 to 2.

After dropping the seventh, Mitchell breezed by the sixth and seventh to win with ease.

U. S. Boats Win In French Race

Herblay, France, June 23 (AP).—Americans chalked up a pair of victories today in an international outboard motor boat regatta labeled as for the "world's championships."

Paul Sawyer, captain of Yale's outboard team, won the class C event, covering the 5-mile course in 6 minutes 56 2-5 seconds. Xemay, of France, was second in 7:03.

Fred Nickell, Allentown, Pa., professional, defeated Xemay in the class event in 6:19 3-5. Xemay's time was 6:30.

Mungo Beaten By Dizzy Dean In Close Duel

St. Louis, June 23.—Though he allowed ten hits while his teammates were being limited to four by Van Mungo, Roy Henshaw and Max Butcher, Dizzy Dean today chalked up his eleventh victory of the year as the Cardinals nosed out the Brooklyn Dodgers, 3 to 2. An error by Henshaw allowed the winning runs to cross the plate in the eighth.

U. S. Stars Win At Wimbledon; Sabin Defeated

By the Associated Press.

Wimbledon, England, June 23.—H. W. (Bunny) Austin gave British fans something to rejoice about today as he came back to overwhelm Wayne Sabin, Hollywood, Calif., youngster, in the second round of the All-England Tennis Championships.

The mainstay of the Davis Cup defenders made a chopping block of the American who nearly upset him five days ago in the Queen's Club Tournament.

Austin's 6—2, 6—3, 6—0 victory was fully as convincing as those scored by Don Budge, America's hope, and Baron Gottfried von Cramm, top-ranking German.

Bad Line Decision.

Budge, seeded at the top and a heavy favorite for the title relinquished by Fred Perry, turned back George Patrick Hughes, British Davis Cupper, 6—2, 6—2, 6—2, while Von Cramm spilled C. R. D. Tuckey, Hughes' doubles partner, 6—2, 6—0, 6—4.

Joining Budge in the third round were his fellow Davis Cup teammates, Bryan M. (Bitsy) Grant, of Atlanta; Frankie Parker, of Milwaukee, and Gene Mako, of Los Angeles, but Hal Surface, of Kansas City, was eliminated in one of the finest matches of the day.

Surface tangled with Franz Kukuljevic, of Yugoslavia, in a struggle that Kukuljevic, aided by a bad line decision in the fifth set, finally won at 5—7, 6—3, 2—6, 6—3, 9—7.

Grant, still suffering from the effects of recent illness, was carried to four sets by the unknown Bolton, R. Morton, but won, 6—2, 3—6, 6—3, 6—0. Parker stopped the veteran Jacques Brugnon, of France, 6—0, 6—3, 6—1, and the erratic Mako was in top form as he routed H. C. Fisher, of Switzerland, 6—1, 6—2, 6—1.

The third day of the Wimbledon competition afforded few high spots and again was devoid of upsets. There were flurries of excitement when Heinrich Henkel, of Germany, seeded third behind Budge and Von Cramm, trailed Robert Tinkler, of Great Britain, two sets to one, but the Teuton rallied to win, 2—6, 7—5, 3—6, 6—0, 6—3.

Meanwhile, Helen Jacobs, the defending champion, reached the fourth round by virtue of a surprisingly decisive 6—3, 6—1 triumph over Mary Heeley, capable British performer.

A round behind Miss Jacobs tonight were Mrs. Dorothy Andrus, of Stamford, Conn., and New York, and Katherine Winthrop, of Boston, who scored over Billy Yorke, of England, 6—3, 6—4, and Miss P. O'Connell, of Great Britain, 4—6, 8—6, 6—1, respectively.

Wins in Doubles.

Alice Marble, American champion, who won her second-round match yesterday, had a day off from singles, but teamed up with Budge to take a second-round mixed doubles match from G. I. Bayley and Miss A. A. Wright, of Great Britain, 6—2, 2—6, 6—2.

Outstanding third-round matches in men's singles tomorrow will pit Budge against Christian Boussus, of France; Jack Crawford, of Australia, against Kukuljevic; Von Cramm against Jiro Yamagishi, of Japan, and Austin against Jack Bromwich, youthful Australian.

Grant, Parker and Mako all meet English opponents. Grant tackles E. A. Avory; Mako plays Frank H. D. Wilde, and Parker meets M. D. Deloford.

Dickey Homers Twice in Vain As Yanks Bow

By the Associated Press.

New York, June 23.—Big Bill Dickey hit his seventh and eighth home runs of the season today to furnish the Yankees with three runs, but his teammates were unable to give him any assistance, and the league leaders saw their winning streak cut short at three games as the St. Louis Browns won, 6 to 3.

Oral Hildebrand went the route for the Browns, who broke their last-place tie with the Athletics and moved into seventh place. He gave up nine hits, but only two of them, Dickey's four-baggers, were for extra bases.

Spurgeon Chandler, starting his first game for the champions since he injured his shoulder on June 4, was nicked for nine of the Brownies' 13 hits and four of their runs before being relieved in the eighth by Frank Makosky. Four more hits in the ninth off the Yankee rookie gave St. Louis its last two tallies.

Boston, June 23.—The Boston Red Sox wasted no time wiping out Hank Greenberg's first-inning homer with the bases loaded today and, although outhit, 12-11, nosed out the Detroit Tigers, 6 to 5.

Greenberg's grand-slam circuit drive, his sixteenth of the season, came after Fox singled and Clifton and Gehringer beat out bunts to fill the bases with none out. Jack Wilson then retired the side in order and gave the Tigers their last tally in the second, when Tebbetts doubled and Fox belted out his second and final hit of the game.

Andy Oliveri Winner Of Anacostia Medal

Andy Oliveri, chubby public links star and runner-up in the Anacostia Invitation, won the medal in a play-off yesterday by shooting the southeast course in 71 strokes, three ahead of Campbell, with 74. Curtain and Norley trailed with 76 and 79, respectively.

Bill Davis scored an ace on the last hole, playing with Professional Bill Carson, using a spoon for the shot. Carson shot the course in 66.

Drake Is Upset By Robertson In Net Play

Fourth Seeded Man Bows By 7—5, 6—4; Bell Proves Tough.

By Robert S. Cramer.

Firing away with booming, long-range drives to the baselines, Lieut. William Robertson, jr., seeded eighth, led the Army's best netmen into the semifinal round of the annual All-Army Tennis singles at Army and Navy Country Club yesterday by upsetting the fourth ranker star, Capt. Drake, 7—5, 6—4.

The day was surprisingly devoid of upsets, though, with only unseeded Capt. Andrew's 8—6, 6—3 victory over sixth-ranking Capt. Merritt in the third round, furnishing the real thrills. Lieut. Stanley Robinson, top-seeded player, breezed through Lieut. Bell in the first set with consummate ease, 6—2, but struck a snag in the second set, and finally emerged the victor after two bitterly contested games, 7—5. In the only other quarter-final played, Lieut. Muehleisen blanked Sergt. Latsley, 6—0, 6—0.

Play in the doubles is scheduled today. Heading the seeded list are Muehleisen and Robertson, with Dr

Int. Paper Plan Erases Deficit Of 19 Million

Stockholders Vote to Yield Back Dividends and Part of Equity.

By the Associated Press.

Boston, June 23.—Richard J. Cullen, president of the International Paper & Power Co., announced tonight that a meeting of shareholders had voted by a "large majority" in favor of a plan for a change in capitalization.

Under the plan preferred stockholders would give up back dividends and accept a lower current return. Common stockholders would give up somewhat more than half of their equity in the company.

The change, as explained by Cullen, was designed to eliminate a deficiency of approximately $19,000,000, and, if the directors so determine, to permit resumption of dividend payments. The plan would also provide for other changes to simplify the financial structure of the company.

Members attending the meeting estimated unofficially that approximately 70 per cent of the stock represented was in favor of the change.

Nickel Output Sets New Monthly Record

Ottawa, Ont., June 23 (AP).—A new high monthly record was established in production of nickel during April with an output of 21,266,884 pounds, the Dominion bureau of statistics reported today. In April, 1936, the output totaled 11,018,947 pounds.

Copper produced in April was 41,989,288 pounds compared with 35,491,618 in April, 1936. Average price for copper during the month was 14.6 cents a pound and at this price the month's output was worth $6,130,856.

Stock Prices, Led by Steel, Advance Slowly in Dull Trading; Wheat Higher.

New York, June 23.—In a turnover of slightly more than half a million shares prices for stocks hardened a little and Government bonds rose. Grains again moved up, but the pace was slower. September wheat reached up ⅝ of a cent to 114 cents a bushel. Stock prices were quoted highest near the close of trading.

On the surface the conditions in the labor war appeared a bit calmer, and the formation of a new French cabinet, combined with the absence of renewed labor troubles on the other side, seemed to lift the clouds a little. Stocks here improved, but the modest rally scarcely could be attributed to any bullishness growing out of the handling of the strike—unless it reflected the optimistic supposition that the country soon will demand a settlement that will force the Government to throw its police rather than its political powers into the balance.

Meanwhile French francs turned weak again, and sterling also worked lower. The new French cabinet is merely the same thing with new names and probably will give away to others with other names, until fresh crisis develops for the currency. The affair now has gone too far for patent medicine tinkering and hocus-pocus. Real remedies will have to be applied, and the country may not wish to swallow them, after its pleasant pull out of the inflation bottle.

Steel Shares Rise.

No further changes took place in the money markets, but the Government bond list hardened a little, in spite of the passing (taken for granted by every one) of an appropriation of another mere billion and a half for the Administration to spend here and there and anyhow. Idle bank funds and unused investment money is, in truth, having a difficult time of it. Employment for the former means mostly the purchase of Government bonds and the latter naturally gravitates into shares.

The steel group of stocks was strong from the begininng. U. S. Steel opened more than a point higher and then climbed about 2 more before the close of trading. Most of the other steel stocks rose 1 to 2 points. Sales in Steel plus those in Western Union, which turned unusually weak, made up more dealings than any other combination. Western sold at the lowest price in two years and nearly 40 points under its best of this year.

Metal shares seemed to move in unison, gaining fractions to a point, but in other sections the rule was each stock for itself. Chrysler was well supported, as was General Electric. Steel preferred slipped a little further. The excitement in Loft subsided, as temporarily at least the special liquidation was suspended. A buoyant issue was Philip Morris, which jumped about 3 points.

Declining Business.

Business is now plainly in a seasonal recession, and some signs are appearing that, largely because of the strikes and partly perhaps because of the fears brought up by the French financial difficulties, the war prospects in Europe and our own dubious fiscal affairs, the fall may go a bit further. That view is held apparently by the markets and accounts for the prevailing dullness in stock trading.

Recognizing the growing uncertainty in the public mind, the Administration is doing something, with words, to offset a few of its more violent actions. Secretary of Commerce Roper today noted a 20 per cent increase in industrial production during the first five months of the year. That rate of gain surely will not be maintained over the next month or two, nor is it likely that it has been held this month, and for that the lurching of te Administration to the left in labor disputes and its cool casualness with respect to Government expenditures is mostly to blame.

Midweek trade news contained a somewhat less favorable survey of the steel industry by Iron Age, which told of a dwindling volume of new business taken by companies not affected by the strikes, partly because of the season and partly because of the loss of confidence which the strikes have brought. "Labor anarchy with a Government guaranty," says Iron Age, "places the strike-affected steel companies in a position from which there appears to be no way out that will be satisfactory to either side." The decline in steel scrap prices has halted, but the iron ore movement is falling and "pig iron buying is not brisk."

Reorganization.

Wide agreement in responsible financial quarters will be found with many of the views expressed today by William O. Douglas, a member of the SEC, on changes in corporation reorganization procedure as proposed in the Chandler bill. Mr. Douglas recites at length the abuses under the present system of reorganization under 77B. Among them are the absurdity of continuing during the insolvency period the management of affairs by the same men who usually are responsible for the corporation's troubles; the great possibility of unfairness of a reorganization scheme concocted by the management with a two-thirds assent; the blocking of any real investigation into the causes of insolvency.

Debtors vs. Creditors.

What Mr. Douglas did not dwell upon but which some persons regard as a weakness of present reorganization procedure is the tendency greatly to favor shareholders as opposed to bondholders. Probably his reason for skipping that touchy point was that other prominent New Dealers are extremely solicitious of the shareholder and somewhat casual in their regard for the bondholders. Jesse Jones of the RFC is one and the whole concept of Government under the New Deal is that the interests of those who run the business is superior to those who merely dig up the cash and take the promises to repay.

Business Failures.

New York, June 23 (AP).—Business failures in the week ended June 17 totaled 166, compared with 161 in the preceding week and 192 in the same week a year ago, Dun & Bradstreet reported today.

Dust Storms, War Alarms Raise Wheat

Severe Black Rust Damage Is Reported From Nebraska.

By the Associated Press.

Chicago, June 23.—Brisk late upturns of wheat prices today accompanied reports of dust storms in Canada and of increasing warlike tension in Europe. The Canadian dust storms were described as prevailing along the Saskatchewan-Alberta border and moving eastward. There were also numerous late reports of black rust in domestic spring wheat northwest, with some assertions current that the rust in spring wheat is spreading rapidly. Severe black rust damage to domestic winter wheat was likewise reported, especially in southeastern Nebraska.

At the close Chicago wheat futures were ⅛@1⅛ cents above yesterday's finish, July, 1.13@1.13⅜; September, 1.14@1.14¼; December, 1.15¾@1.15⅝; corn, 1⅜@2⅝ up; July, 1.17⅝@1.17¾; September, 1.03⅞@1.04; December, 79¼@79⅜; oats, ½@1¼ advanced; September, 36¾, and rye showing 1 cent to 1⅞ bulge. In provisions, the outcome was unchanged to 12 cents up.

Curb Irregular In Quiet Trading

New York, June 23 (AP). — Mixed trends prevailed in a quiet session of the curb market today as traders watched the embattled steel strike front gains and losses were held within narrow margins.

Gulf Oil worked up 1¼ to close at 52¼ and Creole Petroleum gained ½ at 37. Aluminum Co. ran up 2¼ points to close at 143¾. Also better were Northern States Power "A," Sherwin Williams, United Gas, Wright Harg, Sunshine Mining and Pantepec Oil.

Finishing slightly lower were St. Regis Paper, Venezuela Petroleum, Lake Shore Mines, American Cyanamid "B" and American Superpower.

Volume totaled 169,000 shares compared with Tuesday's transfers of 147,000 shares.

Life Policy Sales 9% Above Last Year

Hartford, Conn., June 23.—Sales of ordinary life insurance in the United States during May were 6 per cent greater than for the same month last year, according to the Life Insurance Sales Research Bureau's monthly survey. For the year to date sales were 9 per cent ahead of the corresponding period in 1936.

Each section of the country participated in the gain and 70 per cent of the companies reporting to the bureau said that their sales for May were better than May last year. The present report reveals that $630,690,000 of life insurance was sold in May. Sales for this year up to June 1 totaled $3,170,356,000, the bureau's reports.

Foreign Exchange.

By the Associated Press.

The French franc lost ground against the dollar in foreign exchange dealings yesterday following announcement France's $450,000,000 gold stabilization fund was virtually exhausted.

Other monetary units were quiet. The British pound was unchanged at $4.94½, while the Swiss franc gained .00½ of a cent to be quoted at 22.94½ cents. Holland guilders were unchanged.

The dollar in London recovered ⅞ of a cent to close at 4.94½ to the pound, unchanged from the overnight New York sterling rate. Francs closed 110.87 to the pound.

Paris cables reported the dollar closed at 4.489 cents to the franc compared with the New York overnight rate of 4.464 cents to the franc.

Dealers' Shave Rates On Trade Acceptances

New York, June 23 (AP).—In an effort to stir up business, dealers reduced rates slightly today on Bankers Acceptances, a credit instrument used chiefly to finance foreign trade. For bills maturing in 60 and 90 days, the rate was cut one-sixteenth of 1 per cent. The rate for six months was dropped one-eighth of 1 per cent. The 30-day rate remained unchanged.

It was the second cut since May 1, following several increases while short-term money rates were rising a little in the latter half of 1936 and early months of the new year.

May Stock Trading Drops 39 Per Cent

The dollar value of sales on all registered securities exchanges in May amounted to $1,474,109,197, a decrease of 37.9 per cent from the value of sales in April and an increase of 2.9 per cent over the value of sales in May, 1936. Stock sales (including rights and warrants) had a value of $1,267,543,269, a decrease of 38.2 per cent from the April 1 figure. Bond sales were valued at $206,517,976, a decrease of 35.7 per cent from April.

Total sales of stock in May (including rights and warrants) were 43,991,993 shares, or 39.0 per cent under April's total. Total principal amount of bonds was $238,347,920, a decrease of 34.5 per cent from April. The two leading New York Exchanges accounted for 96.1 per cent of the value of all sales on registered exchanges, 95.5 per cent of stock sales and 99.8 per cent of bond sales.

On the Washington Stock Exchange stock sales in May were $95,325 and bond sales $50,189, a total of $145,514, which compares with $155,793 for stocks and $65,011 for bonds in April, a total $220,804.

World Wheat Output Exceeds Last Year's

The Agriculture Department estimated yesterday that world wheat production, exclusive of Russia and China, would be approximately 300,000,000 bushels larger than last year's output.

At the same time the department estimated stocks of United States wheat on hand July 1 would be about 90,000,000 bushels, the lowest since 1919.

Sears, Roebuck Sets New Sales Records

Chicago, June 23 (AP).—Sears, Roebuck & Co. reported today gross sales for the fifth period from May 22 to June 18 totaled $49,097,436, an increase of 20.6 per cent compared with the corresponding period last year.

Sales for the first five periods of the current fiscal year which began January 30 totaled $213,346,125, an increase of 20.1 per cent, compared with the corresponding 1936 period. Both of these figures were new Sears records for the period.

May Milk Sales Gain 4.4 Per Cent

New York, June 23 (AP).—Average daily milk sales in May were 6,625,339 quarts, an increase of 4.4 per cent over last month.

Total sales in May were highest in 14 months, according to the Milk Industry Foundation.

The following is merely a brief outline of certain information contained in the Offering Prospectus and is subject to the more detailed statements in the Offering Prospectus and the Registration Statement, which also include important information not outlined or indicated herein. The Offering Prospectus, which must be furnished to each purchaser, should be read prior to any purchase of these Bonds.

THE COMPANY — *New York Telephone Company, all of the common stock of which is owned by American Telephone and Telegraph Company, was incorporated in New York in 1896. The Company is engaged in the telephone business in the State of New York and in a small portion of Connecticut. The properties of the Company consist mainly of telephone instruments and facilities for their interconnection, the latter consisting chiefly of central office switching equipment and connecting lines. The Company is subject to regulation by the Federal Communications Commission and by the Public Service Commission of the State of New York, within their respective jurisdictions, and, in some respects, by the Public Utilities Commission of the State of Connecticut as to the Company's limited telephone operations in that State. The Federal Communications Commission is presently engaged in an investigation of American Telephone and Telegraph Company and its subsidiaries.*

CAPITALIZATION

	Outstanding as of December 31, 1936
First and General Mortgage Four and One Half Per Cent. Gold Sinking Fund Bonds, due November 1, 1939	$ 69,861,600.00*
Notes Sold to Trustee of Pension Fund (4% Demand Notes)	27,322,275.61
Six and One-Half Per Cent. Cumulative Preferred Stock, par value $100 per share	25,000,000.00
Common Stock, par value $100 per share	421,300,000.00

*Includes £636,000 principal amount of sterling bonds stated at $3,084,600 ($4.85 per pound sterling).

PURPOSE OF ISSUE — *The net proceeds from the sale of the Bonds, after deducting the estimated expenses of the Company in connection with such sale, are expected to approximate $24,260,600, exclusive of accrued interest, and are to be applied toward the retirement of the Company's presently outstanding issue of $25,000,000 par value of Six and One-Half Per Cent. Cumulative Preferred Stock which the Company has called for redemption on July 15, 1937 at 110% of its par value ($27,500,000) and accrued dividends. The Company expects to obtain the balance of the requirements for such redemption (approximately $3,239,400, exclusive of accrued dividends) from its current cash.*

EARNINGS — *The following figures are taken from the income statements of the Company in the Offering Prospectus and must be read in conjunction with such income statements and the notes appended thereto, particularly the note referring to certain claims for additional excise and sales taxes.*

Years Ended December 31	Operating Revenues	Total Income	Fixed Charges	Net Income
1934	$185,928,657.32	$37,043,860.39	$5,452,032.47	$31,591,827.92
1935	188,815,593.35	34,770,930.60	4,739,552.77	30,031,377.83
1936	199,112,761.83	40,151,583.25	4,041,258.00	36,110,325.25

THE BONDS — *The Bonds will be issued under the Company's Refunding Mortgage, as amended and supplemented, and, in the opinion of counsel for the Company, will be secured by a lien on substantially all real estate and telephone plant now owned by the Company in the State of New York and appertaining to or useful in the transaction of its business therein. The lien of the Refunding Mortgage is subject to the prior lien of the Indenture dated October 1, 1909, securing the Company's First and General Mortgage Bonds, due November 1, 1939, to certain minor encumbrances, and to possible prior liens, including tax and assessment liens, on certain land and buildings as to which a current search of the record title has not been made.*

The Bonds of this series are limited to the amount of $25,000,000 now authorized. The Refunding Mortgage, as amended and supplemented, permits the issuance of additional bonds of other series, of which $200,000,000 may be issued without retirement of debt or additional property having been acquired. All such additional bonds will rank pari passu with the Bonds. The Refunding Mortgage permits the Company, in certain instances, to dispose of property covered by the Mortgage without a release from or notice to the Trustee, and also provides for releases and substitutions of such property. No notice is required to be given to bondholders in connection with any such disposal, release or substitution.

UNDERWRITING — *Subject to certain terms and conditions, the Underwriters, including the undersigned and one other named in the Offering Prospectus, have severally agreed to purchase these Bonds from the Company at 98%, or a total of $24,500,000, plus accrued interest. Such Bonds are to be offered to the public at 100%, or a total of $25,000,000, plus accrued interest. The underwriting discounts are 2%, or a total of $500,000. Under the Purchase Agreement payment for and delivery of the Bonds are to be made on or after July 8, 1937, but not later than July 13, 1937.*

Price 100% and Accrued Interest

The Underwriters have agreed to purchase these Bonds on the terms and conditions set forth in the Purchase Agreement, including the approval of legal matters by Messrs. Davis Polk Wardwell Gardiner & Reed, counsel for the Underwriters, and by Mr. Charles T. Russell, counsel for the Company. It is expected that delivery of Bonds in temporary form will be made at the office of J. P. Morgan & Co. on or about July 8, 1937, against payment therefor in New York funds.

The Underwriters have authorized the purchase and sale, in the open market or otherwise, of these Bonds for their several accounts, either for long or short account, within the limits and during the period set forth in certain agreements referred to in the Offering Prospectus.

Further information, particularly financial statements, is contained in the Registration Statement on file with the Securities and Exchange Commission, and in the Offering Prospectus which must be furnished to each purchaser and is obtainable from the undersigned.

Foreign Markets.

By the Associated Press.

London, June 23.—Gold mining shares showed further improvement in today's stock market and the tone was generally steady. Fractional changes either way were registered in the transatlantic section and German bonds were lower. Steel issues were strong and the industrial section held steady. Oils and rubber shares remained quiet.

Paris.—Government bonds closed firm, rentes advancing 5 to 105 centimes and Royal Dutch moved 320 francs higher. Bank of France issue lost 70 francs and Suez Canal sold 320 francs below Tuesday's close.

Liverpool—Continued poor demand for cash wheat had a depressing effect in the future market and prices closed 1d to 2½d lower. Good weather was reported from the continent. Cotton futures closed 1 to 5 points lower under scattered selling caused by the unsettled European political situation. A partial rally took place at the close, the market being influenced by the strength in the European market.

SPECIAL NOTICES.

CERTIFICATE OF CHANGE OF SHARES of capital stock of Washington Gas Light Company. This is to certify that, pursuant to Public Act No. 477 of the Seventy-fourth Congress of the United States of America, approved on May 11, 1936, and Section 639a of the Code of Law of the District of Columbia, as amended, the Board of Directors of Washington Gas Light Company, at a meeting held on March 31, 1937, unanimously adopted resolutions declaring advisable a change of all the presently authorized, issued and outstanding shares of capital stock of Washington Gas Light Company as hereinafter stated and calling a meeting of the stockholders of said company to take action thereon, and that said meeting of stockholders was called upon such notice as the by-laws of said company provide;

That, at a reconvened meeting of stockholders of said company duly held on June 16, 1937, pursuant to said notice, at which there were present in person or by proxy the holders of more than 90% of all of the 130,000 authorized, issued and outstanding shares of the capital stock of the par value of $20 each of said company, the holders of 117,749 shares of said capital stock, being more than two-thirds in interest of the only class of stockholders of said company having voting powers or of other persons authorized to vote, voted in favor of and adopted a resolution providing in part as follows:

"First: The presently authorized, issued and outstanding 130,000 shares of capital stock of the par value of $20 each be and hereby are changed into 390,000 shares of common stock without par value, by changing each of the presently authorized, issued and outstanding shares of said capital stock of the par value of $20 each into three shares of said common stock without par value;"

"Second: Each of the certificates representing shares of said capital stock now issued and outstanding shall without further action by the company or by the holders thereof, be deemed and taken to represent the number of shares of common stock into which the shares of said capital stock previously issued and represented by said certificates are changed as aforesaid; provided, however, that the company will, upon surrender to it of the certificate or certificates representing issued and outstanding shares of said capital stock, and upon cancellation of the certificate or certificates so surrendered, deliver in exchange therefor a certificate or certificates for shares of common stock, at the rate of three shares of common stock for each one share of said capital stock represented by the certificate or certificates so surrendered, all under such reasonable regulations as the company shall provide therefor."

That, the Public Utilities Commission of the District of Columbia has approved said change of shares of capital stock by an order dated June 16, 1937; and

That, Washington Gas Light Company has constituted and appointed and does hereby constitute and appoint MARCY L. SPERRY, its President, to be its true and lawful attorney-in-fact, for it and in its name to appear before any officer authorized by law to take and certify acknowledgment of deeds to be recorded in the District of Columbia, and to sign, under the corporate seal of the company, and acknowledge, as in the case of deeds of real estate, this certificate as the act and deed of said Washington Gas Light Company;

IN WITNESS WHEREOF, Washington Gas Light Company has caused this certificate to be executed and acknowledged by its President, thereunto duly authorized, and the corporate seal to be affixed hereto by order of the Board of Directors, and Marcy L. Sperry and Edward T. Stafford, respectively President and Secretary of Washington Gas Light Company, have signed this certificate, under said corporate seal, and acknowledged the same, this sixteenth day of June, 1937.

Troops Scatter C. I. O. Throng At Warren Mill

Photographer Is Rescued; Thousands May Join Sympathy Strike.

Continued from Page 1.

Judge Lynn B. Griffith granted Republic an injunction restraining picket activities—the steel strikers' resentment boiled to the surface this morning when the newly arrived National Guardsmen escorted non-strikers from the Republic plant, where they have been besieged since May 26.

Send Sympathy Calls.

Swiftly C. I. O. leaders sent out emergency calls to 28 union locals. The leaders claimed that the sympathy movement involving, they said, both C. I. O. and A. F. of L. workers would make "15,000 men idle in Warren by tomorrow."

The unionists, they said, are employed in 12 industrial plants and include steel, telephone, electrical and WPA workers.

Meanwhile, United States Commissioner W. J. Taub issued warrants at Akron, Ohio, for the arrest of six men charged with "interference with United States mails."

Four representatives of the National Labor Relations Board arrived in Ohio to investigate charges filed June 18 by the C. I. O. against the steel companies.

The charges included alleged discrimination in the discharge of union employes, the use of "armed thugs and gunmen" in strike-breaking activities, and alleged "collusion" with county authorities to interfere with picketing.

Newspaper Strike Talk Called.

Pittsburgh, June 23 (AP).—Mayor Cornelius D. Scully today called a meeting of striking mailers for tomorrow in an attempt to end the strike that has stilled the presses of the city's three daily newspapers for two days.

"This is the first concrete step to get together," said T. R. Williams, secretary of the Pittsburgh Publishers Association, but the strikers remained silent.

The Press, Sun-Telegraph and Post-Gazette have suspended publication. Order prevailed about the newspaper buildings, where 5,000 men were idle.

The Publishers Association said the mailers had violated a contract in force until next January 7 by their walkout in demand of an immediate daily wage increase of $1.50 for night work and $1.20 for day work.

Sit-Down Closes N. J. Plant.

Perth Amboy, N. J., June 23 (AP).—C. I. O. sit-down strikers forced the American Smelting & Refining Co., to suspend operation today, and many non-union workers were trapped in the large plant when pickets at the doors halted ingress and egress.

Milton Arons, C. I. O. organizer, said 1,180 of the plant's 1,400 employes belonged to the union. The plant was operating at full capacity on three shifts.

Approximately 700 workers, union and non-union, remained in the plant. The pickets kept those on the night shift from entering.

The company, Arons said, had refused to meet the union's demand that an election be held to decide the workers' collective bargaining preference. A spokesman for the management said the company might ask Gov. Hoffman to send State troops to guard the plant.

Loyal 400 Warn Strikers.

Tiffin, Ohio, June 23 (AP).—Four hundred employes of the Electric Auto-Lite Co.'s Fostoria foundry marched to the plant today warning striking C. I. O. workers they will return to work tomorrow. F. A. Hinchley, Tiffin attorney for the Fostoria Foundry Workers Union, appealed to county commissioners to employ 25 or more sheriff's deputies for protection.

Waiters Vote Strike.

Cumberland, Md., June 23 (AP).—Anticipating an attempt by 30 restaurant owners to open their strike-closed shops tomorrow morning, more than 100 waiters and waitresses and kitchen workers in special meeting this afternoon voted unanimously not to return to work unless they got "closed shop" contracts.

In addition, presidents of the bakers, beer and milk truck drivers unions declared at the meeting that none of their products would be delivered to the restaurants that open without union agreements.

Samuel Graham, restaurant workers organizer, said he had been reliably informed the restaurants would open tomorrow and had notified some of their help to report for duty.

Tension grew along the Ohio steel front late yesterday and growing crowds of strikers and sympathizers at Warren were kept moving by the small army of National Guardsmen which has moved into city.

Maryland City May Ask Troops To Quell Strike

2,000 Packing Factory Workers Stone Police, Overturn Trucks.

By the Associated Press.

Cambridge, Md., June 23.—A crowd of strikers clustered ominously before the strike-bound Phillips Packing Co. today, while city officials discussed the need for troops to control the 2,000 idle in this town of 8,500.

The crowd was quiet after a brief flare of violence which drove city police to shelter from a shower of stones.

Mayor Charles E. Brohawn asked State authorities for State policemen to reinforce his six city patrolmen. Five State men were sent into the town, and more were within a few miles.

The mayor also asked Harry T. Phoebus, State commissioner of labor and statistics, to come to Cambridge from Baltimore to try to settle the strike. He asked Phoebus if he had the power to call out the National Guard. Phoebus said he told Brohawn:

"I see no necessity for calling out the troops. I have found that troops are not needed when you are talking with your own people."

Phoebus announced he was leaving Baltimore immediately for Cambridge.

Mayor Brohawn said the crowd was quieter toward nightfall, although it had been threatening earlier. He said he did not intend to ask for troops at once. About 500 men, he said, were concentrated near one plant.

"I wouldn't be surprised if there's trouble," he commented after the earlier fighting. "There were about 1,000 of them turning over trucks. They marched through the town."

Witnesses said seven trucks, three of them loaded, were turned over by the strikers. In addition to five vegetable canning plants and a can-making factory, the workers closed a garage and a hardware store owned by the Phillips company.

An unusual feature of the strike was that the employes have no union.

"There doesn't seem to be any head to it at all," Brohawn said.

He blamed the closure of the plants, which employ about 2,000 persons, on the strikers.

The strike started last night in the can-making factory. The company announced it intended to reduce the operations of the factory because the plants were in a slack season between the pea and tomato crops. The workers objected and stopped work on seven lines and the plant was closed.

U. S. Marshals Forces to Stem Strike Growth

Cummings Orders Mail Prosecutions; Steel Riot Hearing Set.

Continued from Page 1.

Cummings' action, declaring repeatedly that "any interference by those who do not have charge of the mails should bring prosecutions." However, he added that the Cummings action does not affect the question of what mail should or should not be accepted, the question that has been engaging his committee.

Announcing that Girdler, Republic Steel head, would appear before the committee today, he said Mooney and Kilroy, the Chicago police captains, also will be present, but no reply had been received from Thomas J. Courtney, State's attorney of Chicago.

Following the hearings today, McKellar said he would move to have the inquiry transferred to the La Follette committee. The hearings have been held on a resolution by Senator Bridges (Republican), of New Hampshire, calling for an investigation into charges that strikers had interferred with the mails. Also before the committee is an amendment by Senator Guffey (Democrat), of Pennsylvania, seeking an inquiry into activities by the steel companies.

Mediators Make "Headway."

Secretary Perkins said the special mediation board appointed by her was making "fine headway."

She said the "definite stand" taken by Girdler made mediation difficult, and added that Philip Murray, conducting the strike for the Committee for Industrial Organization, had been somewhat flexible and had twice modified his position in accepting suggestions by Gov. Martin Davey, of Ohio.

Urging that the "status quo" be maintained, she said "every effort should be made by both sides so that their losses will be reduced."

She declined to make any prediction on the length of time that might be required for the mediation board to complete its work.

Senator Lewis spoke of "insurrection" in opposing any reduction in the $663,000,000 War Department appropriation bill. Declaring he was not blaming either employers or employes, he declared the Nation "is in great peril * * * upon the eve of a turbulence which can result in a conflict inwardly very similar to that which preceded the civil war between the States."

He added:

"We cannot overlook the fact that it is such conditions as those which confront us now that brought on the early state in Russia, by which the army of that land was seized by the discontents, and likewise evoked from Russia upon Germany a situation where its local army was possessed by those who contended in their revolt their right to overturn the state in order to take possession of its instrumentalities.

"Shall we forget that it was the manner to which Italy yielded * * * finally resulting in a tyranny and form of despotism which we shrink to mention?"

He warned that "where government is to survive, it must assert itself as government or it will wither away and die."

Of interest, also, in the labor field was Secretary Perkins' report showing that from April to May 77,000 workers had been returned to employment in the combined manufacturing and nonmanufacturing industries surveyed monthly by the Bureau of Labor Statistics. The increase in weekly payrolls in that 30-day period was placed at $5,200,000.

For the 12-month period the increase in employment was shown as 1,450,000 workers, with the gain in weekly payrolls nearly $70,000,000.

The gains were recorded in the face of the usual seasonal decline.

Lewis Returns Here After Strike Parley

By the Associated Press.

John L. Lewis, chairman of the Committee for Industrial Organization, returned yesterday from meetings with the Federal Steel Mediation Board in Cleveland.

He declined to comment on work toward settlement of the steel strike, but said he would return to Cleveland if recalled.

On the Air Today

Radio has gone to Hollywood and Hollywood has taken to radio. The latest reports from the film capital indicate that the movie moguls more than ever before are recognizing the value of the radio for the exploitation of their products. All of their little stars are urged at all times to "plug" their current shows. For example, Jack Benny, Kenny Baker, Martha Raye and a host of other radio stars who have "gone Hollywood" never fail to bring in a "plug" during the course of the program. Many scripts are centered around movies in which these stars have roles.

Recently radio moved out to the coast, when C. B. S. scoured Hollywood for talent on their new Shakespearean series which begins on July 12. N. B. C. had already obtained a foothold, they had John Barrymore for their Shakespearean series. Speaking of the N. B. C. series, the first show which had its airing this past Monday was not up to standard from a reception viewpoint. Bad weather conditions gave a distorted Barrymore in our set, so we'll wait until next Monday before commenting.

It's getting so that every large commercial must have a screen star. Pacific Coast advertising agents claim that the publicity which the motion picture stars and the motion pictures obtain from the radio programs in transcontinental broadcasts from Hollywood has been worth close to a billion dollars in the past year. Who is getting the best of the bargain is hard to determine. Radio says look what we give you in box office return and the movie people say look what we give you in audience appeal. Yet, certain motion picture trade publications are raising the roof because they claim that radio is ruining the theater business. The fact remains that the radio variety shows have been vastly improved since the influx of our movie cousins.
